## **MINERAL RIGHTS INFORMATION BULLETIN 2005-04**

### **SUBJECT: THE PUBLIC OFFERING NOTICE – CHANGE COMING JANUARY 1, 2006**

Eight weeks prior to the public offering of Petroleum and Natural Gas rights (P&NG) and Oil Sands rights a Public Offering Notice (PON) for each is published. The PON is a listing of all the mineral rights parcels that will be in that particular sale.

Currently paper copies of the PON are distributed to companies and individuals through a mailing list. Copies of the PON are also available in Calgary at the Alberta Energy Information Centre and in Edmonton at the Department of Energy's offices. The PON can also be accessed electronically by subscribing to the Department's electronic mailing list.

**Effective January 1, 2006, paper copies of the PON will no longer be mailed to those companies and individuals on the mailing list.** Paper copies of the PON will continue to be available in Calgary at the Alberta Energy Information Centre located on the 3rd floor of AMEC Place, 801 - 6th Avenue SW and in Edmonton on the 7th floor of Petroleum Plaza, North Tower, 9945 - 108 Street for an additional three months. As of April 1, 2006, paper copies of the PON will no longer be produced by the Department.

If you wish to receive an electronic copy of the PON, you must subscribe to the Department's electronic mailing list. E-Subscription allows you to add your email address to the Department's email distribution list for PON for both P&NG and Oil Sands rights. The PON is available in Text, Adobe PDF and XML file format.

Subscription instructions are available on the Department's web site [www.energy.gov.ab.ca](http://www.energy.gov.ab.ca) under Our Business, Tenure, P&NG Agreement Sales, e-Subscription. For further details, please contact:
