
GUIDE *to* Education

ECS to Grade 12

September 2007

All changes to Alberta Education requirements contained in this document are effective the first day of the school year as defined by the school authority.

I, Ron Liepert, Minister of Education, in accordance with section 39 of the *School Act*, Revised Statutes of Alberta 2000, Chapter S-3, as amended, authorize this *Guide to Education: ECS to Grade 12* for use in Alberta schools.

Minister of Education

Courses and course codes approved after the printing of the *Guide* will be updated throughout the year in the online version. The newly approved course codes will be shown with a colour-shaded background in the online version. Pertinent pages may be printed off for updating print copies of the *Guide*.

Available in electronic format on the Internet at <http://www.education.gov.ab.ca> under Kindergarten to Grade 12 and then Legislation, Regulations and Policies.

Print copies of the *Guide* are available for purchase from the Learning Resources Centre: telephone (780) 427-2767 or e-mail lrccluster@gov.ab.ca.

For suggested changes or questions regarding content, contact the Director, Governance Support, Alberta Education, (780) 427-7235. To be connected toll free in Alberta, dial 310-0000. E-mail edguide.contact@education.gov.ab.ca.

All references to the *School Act* are to the Revised Statutes of Alberta 2000, Chapter S-3, as amended.

The primary intended audience for the *Guide* is:

<i>Administrators</i>	✓
<i>Counsellors</i>	✓
<i>General Audience</i>	
<i>Parents</i>	
<i>Students</i>	
<i>Teachers</i>	✓

Foreword

Introduction

Education is the key to our young people becoming full partners in shaping a global future and in shaping our province's and our nation's future. Quality basic education for our young people is key to maintaining Alberta's standard of living and ensuring our competitiveness in the world market. Our education system must focus on what all students need to learn and be able to do to participate successfully in an economy and society undergoing fundamental changes.

Alberta Education's three-year business plan provides direction for the future of education in Alberta. It is a plan for Alberta students to be well prepared for lifelong learning and the world of work. The initiatives in Alberta Education's three-year business plan describe directions that will help all our young people get the education they need. These initiatives reflect Alberta Education's leadership role in developing programs for students, setting standards for education, communicating these expectations to our stakeholders and supporting improvements to meet student needs.

The directions and initiatives outlined in the three-year business plan are reflected in the *Guide to Education: ECS to Grade 12 (Guide)*. Some examples of these directions and initiatives include: learning in the workplace through the Registered Apprenticeship Program; the provision for students to learn skills through career and technology studies while at school and/or to deliver skills programs with the assistance of business; the provision of the Kindergarten Program Statement; and the provision for challenge assessments. All of these examples reflect a results-based approach to curriculum.

Schools have the responsibility to provide instructional programs that ensure students will meet the provincial graduation requirements and are prepared for entry into the workplace or post-secondary studies. As well, schools are to ensure that students understand the rights and responsibilities of citizenship and have the skills and attitudes to pursue learning throughout their lives.

The *Guide* is released by Alberta Education for the use of administrators, counsellors, teachers and other parties engaged in the delivery of quality basic education. It has been developed to assist in the implementation of the objectives and underlying principles of the *School Act*. Policies, procedures and organizational information required to operate schools are

included, or directions are given on how the reader may obtain this information. The French version of the *Guide to Education: ECS to Grade 12* entitled *Guide de l'éducation, Manuel de la maternelle à la 12^e année* can be accessed on the Alberta Education Web site.

Alberta Education's management system is policy-based and results-oriented. To the greatest extent possible, policies and procedures are used to set educational directions and goals. The *Guide* supports Alberta Education's objective of providing consistent direction while encouraging flexibility and discretion at the local level.

Purposes of the *Guide*

The *Guide* serves the following purposes:

- to identify program requirements specified by Alberta Education and provide the foundations upon which these requirements are based
- to provide information about Kindergarten to Grade 12 programs, education delivery and achievement standards for students enrolled in Alberta schools
- to communicate information useful in organizing and operating Alberta schools to meet the needs of children and students.

In school, students should be encouraged to challenge themselves at new levels and in new experiences, as well as to prepare themselves for future choices in their lives and in the lives of their communities. The Vision, Mission and Basic Education section of the *Guide* defines basic education and outlines the learning outcomes for students and schools. This focus on students is integral to all school programming and reflects the emphasis of the *School Act*.

Definitions

References to “boards” and “schools” in this document are in accordance with the definitions used in the *School Act*. In the *Guide*, the term “school jurisdiction” refers to an Alberta public or separate school district, school division, regional division, Francophone regional authority, charter school, the Lloydminster Public School Division or the Lloydminster Roman Catholic Separate School Division. The term “school authority” includes school jurisdictions, accredited-funded private schools and private ECS operators.

“Graduation” is defined as having met the requirements to earn an Alberta High School Diploma or an Alberta High School Equivalency Diploma.

Identification of Requirements

Many of the requirements discussed in the *Guide* originate in statutes, regulations, ministerial orders, directives and policies of the Government of Alberta and Alberta Education. Requirements that originate in the *Guide* are noted in **boldface** print.

School authorities are required to act in accordance with:

- statutes, regulations, ministerial orders, directives and policies
- the *Funding Manual for School Authorities*
- the *General Information Bulletin: Achievement Testing Program*
- the *General Information Bulletin: Diploma Examinations Program*
- all items in **boldface** print that exist in the *Guide* and cannot be found in statutes, regulations, ministerial orders, directives and policies
- Appendix 3 of the *Guide*.

Readers are advised to access current versions of the complete statutes, regulations, ministerial orders, directives and policies through the hyperlinks in the electronic version of the *Guide*.

For the submission of any required data referenced in the *Guide*, readers are advised to access the *Student Information System (SIS) User Guide* and the *Course Mark User Guide* on the Alberta Education Web site.

Interdisciplinary Studies

The programs referred to in the *Guide* are outlined in subject area categories. Organization for instruction may be based on these subject categories or on a locally developed integrated programming model.

Internet

Alberta Education is on the Internet at <http://www.education.gov.ab.ca>. The site contains information covering all areas of education in the province, from ECS to Grade 12. From the home page, the *Guide* can be found by clicking on Kindergarten to Grade 12 and then clicking on Legislation, Regulations and Policies.

For ease of use and access, the *Guide* is in both pdf and html formats.

The pdf  version of the *Guide* is designed for viewing and downloading and may be printed in its entirety or by sections.

The html version of the *Guide* is designed for online viewing, searching and ease of navigation through hyperlinks.

The following icons appear throughout the *Guide*, identifying hyperlinks that can be found in the online html version to referenced government documents, Web sites and other sections within the *Guide*:

 Denotes a hyperlink to a referenced government document. See the list of referenced documents and corresponding Web site addresses in the Contacts section of the *Guide*.

 Denotes a hyperlink to a referenced government Web site. See the list of referenced Web sites in the Contacts section of the *Guide*.

 Denotes a hyperlink to a referenced section within the *Guide*.

Document Availability

All documents referenced in the *Guide*, including print copies of the *Guide* itself, are available for purchase from the Learning Resources Centre, unless otherwise stated.

Identification of Content Changes

Users are encouraged to familiarize themselves with this document in its entirety. A list of content changes made since the previous version is provided in the *Summary of Key Changes* that is distributed to school authorities with the *Guide* and is posted on the Alberta Education Web site.

PROGRAM FOUNDATIONS

Vision, Mission and Basic Education

Alberta Education Vision

The best Kindergarten to Grade 12 education system in the world.

Alberta Education Mission

The Ministry of Education, through its leadership and work with stakeholders, ensures that students attain the knowledge and skills required for lifelong learning, work and citizenship.

Goals and Standards Applicable to the Provision of Basic Education in Alberta

Ministerial Order No. 004/98
School Act, Section 39(1)(f)

This ministerial order outlines student learning outcomes and standards for student learning and addresses education delivery.

A basic education must provide students with a solid core program, including language arts, mathematics, science and social studies.

Students will be able to meet the provincial graduation requirements and be prepared for entry into the workplace or post-secondary studies. Students will understand personal and community values and the rights and responsibilities of citizenship. Students will develop the capacity to pursue learning throughout their lives. Students also should have opportunities to learn languages other than English and to attain levels of proficiency and cultural awareness that will help to prepare them for participation in the global economy.

Student Learning Outcomes
Ministerial Order No. 004/98

Students are expected to develop the knowledge, skills and attitudes that will prepare them for life after high school. A basic education will allow students to:

- (a) read for information, understanding and enjoyment
- (b) write and speak clearly, accurately and appropriately for the context
- (c) use mathematics to solve problems in business, science and daily-life situations
- (d) understand the physical world, ecology and the diversity of life
- (e) understand the scientific method, the nature of science and technology, and their application to daily life
- (f) know the history and geography of Canada and have a general understanding of world history and geography
- (g) understand Canada's political, social and economic systems within a global context
- (h) respect the cultural diversity and common values of Canada
- (i) demonstrate desirable personal characteristics, such as respect, responsibility, fairness, honesty, caring, loyalty and commitment to democratic ideals
- (j) recognize the importance of personal well-being and appreciate how family and others contribute to that well-being
- (k) know the basic requirements of an active, healthful lifestyle
- (l) understand and appreciate literature, the arts and the creative process
- (m) research an issue thoroughly and evaluate the credibility and reliability of information sources
- (n) demonstrate critical and creative thinking skills in problem solving and decision making
- (o) demonstrate competence in using information technologies
- (p) know how to work independently and as part of a team
- (q) manage time and other resources needed to complete a task
- (r) demonstrate initiative, leadership, flexibility and persistence
- (s) evaluate their own endeavours and continually strive to improve
- (t) have the desire and realize the need for lifelong learning.

Standards for Student Learning

Ministerial Order No. 004/98

The Minister of Education defines acceptable standards and standards of excellence for student achievement in consultation with Albertans. Employers are involved in specifying the knowledge, skills and attitudes needed in the workplace. Schools, school authorities and the Minister of Education assess and report regularly to the public on a range of student learning.

The school's primary responsibility is to ensure that students meet or exceed the provincial standards, as reflected in the Student Learning Outcomes referred to in section 2(3) of this order, the Alberta Programs of Study, provincial achievement tests, diploma examinations and graduation requirements.

Education Delivery

Ministerial Order No. 004/98

Schools must engage students in a variety of activities that enable them to acquire the expected learnings. Schools have authority to deploy resources and may use any instructional technique acceptable to the community as long as the standards are achieved. Schools, teachers and students are encouraged to take advantage of various delivery options, including the use of technology, distance learning and the workplace.

Schools play a supportive role to families and the community in helping students develop desirable personal characteristics and the ability to make ethical decisions. Schools also help students take increasing responsibility for their learning and behaviour, develop a sense of community belonging and acquire a clearer understanding of community values and how these relate to personal values.

Students learn basic, transferable knowledge, skills and attitudes in school. Schools, in co-operation with employers, provide opportunities for students to develop and practise employability skills. The Minister of Education provides credit for off-campus learning that is approved and accepted by the school and the employer. Government works with schools, employers and post-secondary institutions to help young people make a smooth transition to work and further study.

Programming Principles

School Act, Section 39(1)

The development of programs to meet the educational needs of students involves multiple levels of planning and decision making. At the provincial level, in accordance with section 39(1) of the *School Act*, planning takes place through the development of programs of study. Programs of study identify the outcomes for the core subjects that apply to all students, as well as those that apply for optional courses or programs. Alberta Education seeks broad input from educators, business, industry and the community in planning programs of study. Programs of study are established at the provincial level and apply to all students.

At the local level, planning involves decisions about how programs of study can best be implemented with particular groups of students and with individual students. This type of planning is referred to as programming.

Programs of study are established at the provincial level and apply to all students.

Programming takes place at the local level and is concerned with effective delivery of the programs of study to the students enrolled. Programming decisions are made by school authorities, by schools, by teachers and by students. Programming involves a variety of processes for ensuring effective program implementation. These processes include:

- identifying outcomes for learning (based on programs of study and student progress)
- organizing for instruction (including the grade configuration of schools)
- selecting learning activities
- selecting learning resources
- assessing student progress
- evaluating student progress
- providing time for learning based on student progress.

Programming decisions are best made at the local level to ensure that the scope of the programs offered and the delivery of those programs is responsive to the learning needs of all students. Decision making at the local level also provides the opportunity for effective use of local resources and for local guidelines to be recognized. This is done in many different ways, for example by introducing enrichment activities, optional courses, alternative programs, work experience, mentoring and adjustments in instructional time.

General Principles for Effective Programming

Outcomes are clearly defined.

The following principles provide a general guide for programming.

Progress in learning is enhanced when the student, the parents and the teacher have a clear understanding of what is to be achieved. A shared understanding of what is expected enables the student, the parents and the teacher to work together.

The selection and setting of outcomes for student learning should be based on the programs of study. Both general and specific outcomes should be set and these should be linked to specific ways in which students can demonstrate their learning.

Outcomes are most clear when the means of determining student progress are identified and communicated to all involved.

Planning is based on assessments of student progress.

Ongoing assessment of student progress informs the student, parents and teacher of what has been achieved and of what is yet to be achieved. Learning and instruction should be consistent with student abilities and should set appropriate levels of challenge.

Learning experiences are connected.

Student learning is cumulative and takes place in a variety of formal and informal settings. Learning is enhanced when what is learned in one setting reinforces and extends what has been and is being learned in others.

- **Communication between School and Home**

Parents are the first and ongoing educators of their children. Schools should enable families to continue their involvement in their children's education. The linkage between school and home enables teachers and parents to exchange information, jointly support student learning and ensure the continuity of learning experiences.

- **Connections across Subject Areas**

There are many opportunities to connect and apply what students learn in one subject area with what they learn in other subject areas. By making these connections, student learning in each subject area is enhanced and the ability to apply learning in new situations is improved. This helps students see the world as a connected whole instead of in a fragmented way.

- Partnerships between School and Community

What students learn in school is enhanced when applied and extended in the community. Involvement in projects, community service activities, mentorship programs and job shadowing makes learning more relevant. Involvement in these activities also may provide significant role models for students and an opportunity for them to explore future career possibilities.

- Consistency between Curriculum and Assessment

Student learning is reinforced when what is taught is reflected in what is assessed. The methods used in assessing student progress, as well as mastery of the subject matter, should be consistent with the outcomes that have been communicated to students.

- Coordination between Schools

When students change schools, the coordination of programming and assessment practices between schools can help achieve a smooth transition. Disruptions can be minimized when the receiving school is provided with full information on student attainment and learning characteristics. Information on student progress should be referenced directly to programs of study.

Programming responds to the learning progress of students.

Programming involves decisions about time, resources, instructional approaches, assessment and organization for instruction. To maximize student learning, programming needs to be flexible and responsive to the learning progress of students.

Flexible programming involves:

- using time as a resource, recognizing that students learn at different rates
- grouping students according to educational needs and according to the characteristics of the learning activity
- using a broad range of learning resources, with the selection of particular resources according to learner needs and learning traits
- using a broad range of instructional strategies to provide a variety of ways for viewing subject matter as well as an opportunity for individual students to learn in their preferred modes
- using a wide variety of examples and applications of the subject matter to provide students with an opportunity to explore and discover areas of relevance and interest
- using a wide variety of assessment strategies to monitor student progress in all areas of the curriculum
- decision making about future programming based upon evaluation.

Programming responds to the developmental stages of students.

During their school years, students go through many developmental stages in their intellectual, physical, emotional and social growth. The stage of student growth in each of these areas is an important consideration in developing and implementing school programs.

Indicators of Effective Programming

School programming is effective when it responds to the learning needs and progress of students. The following characteristics and indicators provide a description of programming that recognizes and responds to the students' learning needs.

CHARACTERISTICS

INDICATORS

The learning needs and progress of each student are known.

- Parents are aware of the learning needs and educational progress of their children.
- Teachers are aware of the characteristics and learning needs of individual students.
- Teachers are aware of student progress in previous years.
- Teachers are aware of student progress in other program areas.
- Students are able to describe their learning progress, can identify what they are currently studying and can identify what they will be working on next.

Instruction is based on the student's current level of achievement.

- Students are able to complete successfully the learning activities they are assigned.
- Students show continuous growth in their learning.

Connections are made between what the student already knows and what the student learns next.

- Students can describe the relationship between what they are currently studying and what they have previously studied.
- Students are able to apply learning in situations that require a combination of knowledge, skills and attitudes from different parts of their programs.

School learning experiences provide challenge.

- Students show interest in their studies.
- Parents comment on student interest and achievement.
- Students experience a wide range of approaches to learning.
- At any given time, different students can be observed working on different tasks.
- Students use a variety of sources to complete their work.
- Students take initiative in and show responsibility for their learning.

LEGISLATIVE AND OTHER REQUIREMENTS FOR EDUCATION IN ALBERTA: Overview

This section of the *Guide* contains an overview of the legislative and other requirements for education in Alberta, with a focus on areas that relate to the implementation of education programs in schools and the operation of schools.

The overview of legislative and other requirements includes statutes, regulations, ministerial orders, directives and policies.

- The *School Act* sets out the legal parameters that govern the education of students in Alberta.

- The *Government Organization Act* creates the Department of Education under the authority of the Minister of Education.

- The *Teaching Profession Act* creates the Alberta Teachers' Association as the teachers' professional organization in Alberta.

- The *Remembrance Day Act* outlines the requirements for the observance of Remembrance Day in schools.

- Alberta regulations (A.R.) and ministerial orders are additional legal requirements.

- Directives are issued by the Minister of Education to give direction to school authorities on matters of importance.

- Policies outline the direction that Alberta Education gives to school authorities in order to provide the best possible education for all Alberta students.

A number of other Alberta Education documents contain requirements for the implementation of education programs and operation of schools. See the Requirements in Other Alberta Education Documents section in the *Guide* for a list of those documents.

Readers are advised to access current versions of the complete statutes, regulations, ministerial orders, directives and policies through the hyperlinks in the electronic version of the *Guide*.

The *School Act*

Introduction

This section contains extracts from the *School Act* that highlight the roles and responsibilities for students, teachers, principals and school councils. Extracts from the *School Act* regarding student attendance, suspension and expulsion have been included so that they may be related to the role of the student. Reference is also made to the section of the *School Act* that highlights the importance of safe and caring schools. Margin notations give the *School Act* reference and related regulations and policies where applicable.

The *School Act* is available for purchase from the Queen's Printer Bookstore, Edmonton, or online at www.qp.gov.ab.ca. Note: To view the *School Act* online, search *School Act*, select "electronic version," then click "View text of this document."

The Student

School Act, Section 12

Section 12 of the *School Act* states that a student shall conduct himself or herself so as to reasonably comply with the following code of conduct:

- (a) be diligent in pursuing the student's studies;
- (b) attend school regularly and punctually;
- (c) co-operate fully with everyone authorized by the board to provide education programs and other services;
- (d) comply with the rules of the school;
- (e) account to the student's teachers for the student's conduct;
- (f) respect the rights of others.

Independent Student
School Act, Section 1(m)

The *School Act* defines an “independent student” as a student who is:

(i) 18 years of age or older, or

(ii) 16 years of age or older and

(A) who is living independently, or

(B) who is a party to an agreement under section 57.2 of the *Child, Youth and Family Enhancement Act*.

Student Attendance
School Act, Sections 12(b), 13, 14, 60(3)(b)

Attendance at school is compulsory for eligible students who, at September 1 in a year, [are] 6 years of age or older, and [are] younger than 16 years of age [*School Act*, section 13(1)]. School authorities may make rules regarding school attendance under section 60(3)(b). Expectations for student conduct regarding school attendance are set out under section 12(b). Students may be excused from attending school for reasons described under section 13. Enforcing school attendance is described under section 14.

Attendance Board
School Act, Sections 13, 14, 15, 126–130

The Attendance Board provides a means to address and seek solutions to issues or problems regarding attendance at school. Referrals to the Attendance Board, under section 15, are made when a student who is required to attend school under section 13 does not attend school, and where attempts by the school authority to enforce school attendance under section 14 have not been effective. Under section 126, before referring a matter to the Attendance Board, a school authority shall ensure that the student has been advised of the student’s duty to attend school under section 13 and shall ensure that all reasonable efforts have been made to enforce the student’s attendance at school.

Upon hearing a matter, the Attendance Board may issue an order under section 128 directing the student and the parent to do a number of things, including directing the student to attend school, directing the parent to send the student to school and directing the student to take a program or course. An order of the Attendance Board, when filed with the Court of Queen’s Bench, has the same force and effect as if the order were an order of that Court. Failure to comply with a filed order of the Attendance Board may lead to civil contempt proceedings before the Court of Queen’s Bench.

Suspension
School Act, Sections
1(1)(hh), 24

The *School Act* outlines the requirements related to the suspension of students.

Suspension is defined in the *School Act* by section 1(1)(hh):

“suspend” means to remove a student

- (i) from school,
- (ii) from one or more class periods, courses or education programs, or
- (iii) from riding in a school bus

for a period of 10 school days or less in accordance with section 24.

24(1) A teacher or a principal may suspend a student in accordance with subsection (2) or (3) if in the opinion of the teacher or principal

- (a) the student has failed to comply with section 12, or
- (b) the student’s conduct is injurious to the physical or mental well-being of others in the school.

(2) A teacher may suspend a student from one class period.

(3) A principal may suspend a student

- (a) from school,
- (b) from one or more class periods, courses or education programs, or
- (c) from riding in a school bus.

(4) A principal may reinstate a student suspended under subsection (2) or (3).

(5) When a student is suspended under subsection (3), the principal shall

- (a) forthwith inform the student’s parent of the suspension,
- (b) report in writing to the student’s parent all the circumstances respecting the suspension, and
- (c) if requested, provide an opportunity to meet with the student’s parent, and the student if the student is 16 years of age or older, to discuss the reasonableness of the suspension.

(6) If the student is not to be reinstated within 5 school days after the date of the suspension, the principal shall

- (a) forthwith inform the board of the suspension, and

-
- (b) report in writing to the board all the circumstances respecting the suspension and the principal's recommendations,
- (7) The principal may recommend that the board expel the student if
 - (a) the student has displayed an attitude of wilful, blatant and repeated refusal to comply with section 12, or
 - (b) the student's conduct is injurious to the physical or mental well-being of others in the school.
 - (8) The board shall within 10 school days after the date of the suspension
 - (a) reinstate the student, or
 - (b) expel the student from school in accordance with section 25.
 - (9) Before the board makes a decision under subsection (8), the student and the student's parent may make representations to the board with respect to the principal's recommendation to expel the student.

Expulsion

School Act, Sections 1(1)(j), 25

The *School Act* outlines requirements related to the expulsion of students. Expulsion is defined in the *School Act* by section 1(1)(j):

“expel” means to remove a student

- (i) from school
 - (ii) from one or more courses or education programs, or
 - (iii) from riding in a school bus
- for a period of more than 10 school days in accordance with section 25.

Section 25 of the *School Act* outlines the expulsion process:

- 25(1) On considering the report provided to it under section 24(6)(b) and any representations made to it under section 24(9), the board may expel the student if
 - (a) the principal has recommended that the board expel the student, and
 - (b) the student has been offered another education program by the board.
- (2) An expulsion must be for a period of more than 10 school days.

-
- (3) When a student is expelled under this section, the board shall forthwith notify, in writing, the student's parent, and the student if the student is 16 years of age or older,
- (a) of the expulsion, and
 - (b) of the right to request a review under section 124.

(4) The board may re-enrol a student who has been expelled.

Review by the Minister

School Act, Section 124(1)(d)

Section 124(1)(d) of the *School Act* states that if a board makes a decision on an appeal to it or otherwise in respect to the expulsion of a student, the parent of a student affected by the decision or the student if the student is 16 years of age or older may request in writing that the Minister review the decision of the board.

School Act, Sections 8, 13, 45, 60

Other sections of the *School Act* that apply to expulsion are:

- Section 8 – right of access to education
- Section 13 – compulsory education
- Section 45 – responsibility to students
- Section 60 – powers of boards.

For further clarification or interpretation of the student suspension and expulsion process, please contact the Disputes Management Team Leader in Governance Support.

The Teacher

School Act,
Sections 1(1)(ii), 18

The *School Act* defines a teacher as an individual who holds a certificate of qualification as a teacher issued under the *Act*.

Section 18 of the *School Act* states that a teacher, while providing instruction or supervision, must:

- (a) provide instruction competently to students;
- (b) teach the courses of study and education programs that are prescribed, approved or authorized pursuant to this *Act*;
- (c) promote goals and standards applicable to the provision of education adopted or approved pursuant to this *Act*;
- (d) encourage and foster learning in students;
- (e) regularly evaluate students and periodically report the results of the evaluation to the students, the students' parents and the board;

-
- (f) maintain, under the direction of the principal, order and discipline among the students while they are in the school or on the school grounds and while they are attending or participating in activities sponsored or approved by the board;
 - (g) subject to any applicable collective agreement and the teacher's contract of employment, carry out those duties that are assigned to the teacher by the principal or the board.
-

The Principal

School Act, Sections 1(1)(r), 19, 20

The *School Act* defines a principal as a teacher designated as a principal or acting principal under the *Act*.

Section 20 of the *School Act* states that a principal of a school must:

- (a) provide instructional leadership in the school;
- (b) ensure that the instruction provided by the teachers employed in the school is consistent with the courses of study and education programs prescribed, approved or authorized pursuant to this Act;
- (c) evaluate or provide for the evaluation of programs offered in the school;
- (d) ensure that students in the school have the opportunity to meet the standards of education set by the Minister;
- (e) direct the management of the school;
- (f) maintain order and discipline in the school and on the school grounds and during activities sponsored or approved by the board;
- (g) promote co-operation between the school and the community that it serves;
- (h) supervise the evaluation and advancement of students;
- (i) evaluate the teachers employed in the school;
- (j) subject to any applicable collective agreement and the principal's contract of employment, carry out those duties that are assigned to the principal by the board in accordance with the regulations and the requirements of the school council and the board.

The School Council

School Act, Section 22

A.R. 113/2007

Policy 1.8.3

Section 22 of the *School Act* states:

- (1) A school council shall be established in accordance with the regulations for each school operated by a board.
- (2) The majority of the members of a school council shall be parents of students enrolled in the school.
- (3) A board of a separate school district or a division made up only of separate school districts, by resolution, may require that the parents of students enrolled in a school operated by the board who are members of the school council must also be of the same faith as those who established the separate school districts, whether Protestant or Roman Catholic.
- (4) A school council may, at its discretion,
 - (a) advise the principal and the board respecting any matter relating to the school,
 - (b) perform any duty or function delegated to it by the board in accordance with the delegation,
 - (c) consult with the principal so that the principal may ensure that students in the school have the opportunity to meet the standards of education set by the Minister,
 - (d) consult with the principal so that the principal may ensure that the fiscal management of the school is in accordance with the requirements of the board and the superintendent, and
 - (e) do anything it is authorized under the regulations to do.
- (5) Subject to the regulations, a school council may make and implement policies in the school that the council considers necessary to carry out its functions.
- (6) A school council may make bylaws governing its meetings and the conduct of its affairs.
- (7) Subject to the regulations, a board may develop and implement policies respecting school councils.
- (8) A board shall establish an appeal process or conflict resolution procedure under which the principal or the school council may apply respecting disputes on policies proposed or adopted for a school.

-
- (9) The Minister, on the request of the board, may dissolve a school council without notice at any time if the Minister is of the opinion that the school council is not carrying out its responsibilities in accordance with this Act and the regulations.
- (10) The Minister may make regulations
- (a) respecting the election or appointment of the members of a school council and the term or other conditions of election or appointment and the dissolution of a school council;
 - (b) respecting the roles of the principal and the school council of a school and their respective powers, duties and responsibilities;
 - (c) respecting any other matter the Minister considers necessary respecting school councils;
 - (d) exempting a school or class of schools from the application of this section.

The *Alberta School Council Resource Manual* provides information on the operation of school councils. See the Alberta Education Web site.

Safe and Caring Schools

School Act,
Section 45(8)

Section 45(8) of the *School Act* highlights the importance of providing a safe and caring environment for students.

A board shall ensure that each student enrolled in a school operated by the board is provided with a safe and caring environment that fosters and maintains respectful and responsible behaviours.

Remembrance Day Act

Chapter R–16 RSA 2000

HER MAJESTY, by and with the advice and consent of the Legislative Assembly of Alberta, enacts as follows:

School remembrance ceremony

- 1 (1) A board, as defined in the *School Act*, shall on Remembrance Day, with respect to each of its schools,
- (a) arrange for a remembrance ceremony that will encompass at least the time period from 11:00 a.m. to 11:05 a.m., or
 - (b) ensure the observance of 2 minutes' silence from 11:00 a.m. to 11:02 a.m.
- (2) If a ceremony referred to in subsection (1)(a) is held at a school, all pupils shall either attend the ceremony or remain in the school, silent, during the ceremony.
- (3) If Remembrance Day falls on a day on which the school is not open, the board shall comply with subsection (1) on the school day immediately preceding Remembrance Day.

Regulations

Introduction

Regulations are legal requirements. The following subsections provide a synopsis of selected regulations that are relevant to the operation of schools. Margin notations give the relevant sections of the *School Act*, the regulation number and related policy, where applicable.

All regulations are contained in the *K–12 Learning System Policy, Regulations and Forms Manual*.

School Councils Regulation

School Act, Section 22
A.R. 113/2007

The *School Councils Regulation* (113/2007) has been revised to provide clarity and flexibility for establishing school councils to accommodate local circumstances. The revised *School Councils Regulation* more accurately reflects what happens in existing school councils, provides clarity and flexibility and identifies opportunities for involving parents in meaningful activities that relate to the school.

A new section of the *School Councils Regulation* identifies responsibilities of school boards in relation to school councils. School boards are expected to review existing policies or create a new policy to ensure that their responsibilities as outlined in the new section are clearly stated and are being met.

Additional information about the *School Councils Regulation* is available in the *Alberta School Council Resource Manual*, launched in September 2006.

Private Schools Regulation

School Act, Section 28
A.R. 190/2000
as amended

This regulation addresses the application for registration and accreditation, the required programs for registered private schools, accredited private schools and accredited-funded private schools, the additional records to be kept by private schools, rules for discipline, suspension and expulsion, required notices, school policies, required insurance and financial reporting.

The regulation also requires private schools, among other obligations, to complete an Annual Operational Plan (AOP) form, keep student records and ensure student records follow the student when the student changes schools.

Home Education Regulation

School Act, Section 29
Policy 1.1.2
A.R. 145/2006
as amended

This regulation recognizes a parent's right to choose a home education program, provided the program meets the requirements of the regulation and is under the supervision of an associate board or an associate private school as defined in the regulation.

Early Childhood Services Regulation

School Act, Section 30
Policy 1.1.3
A.R. 31/2002

This regulation sets out the requirements for the operation of early childhood services programs and includes information on safety standards, programs, policies, record keeping, financial reporting and insurance.

Charter Schools Regulation

School Act, Sections 31–37
Policy 1.1.1
A.R. 212/2002

This regulation addresses the definition of and the maximum number of charter schools in the province. It also outlines the application for and approval or rejection of charter school status, contents of a proposed charter, charter renewal, charter amendment and charter repeal.

Student Record Regulation

School Act, Section 23
A.R. 225/2006
as amended

This regulation provides guidance with respect to the information that must be managed and maintained on the student record. It addresses retention periods, procedures for the transfer of student records when students change to schools within or outside of Alberta, the disposal and destruction of records and regulation compliance. It also addresses the right of access to a record and the various instances where a board may disclose information from the student record to third parties while ensuring that the disclosure of information is in accordance with the *Freedom of Information and Protection of Privacy Act* (FOIP Act). Private schools, who may also be subject to certain provisions, are referred to the *Personal Information Protection Act* (PIPA) for direction in addressing the disclosure of information in student records.

**Student
Evaluation Regulation**

School Act, Section 39(3)(c)
A.R. 177/2003
as amended

This regulation describes how provincial tests, examinations or other methods of evaluating a student's achievement are conducted. It provides for directives to be issued outlining Alberta Education's administrative and procedural requirements for evaluating students.

The regulation also covers: security of evaluation materials; eligibility of students to write provincial tests; student conduct resulting in eviction or invalidation and related objection and appeal procedures; review of evaluation results and an appeal process that may include Special Cases Committee; ministerial determination of fees or the use of evaluation results.

**Practice Review
of Teachers Regulation**

School Act, Section 94
A.R. 4/99
as amended

This regulation provides an orderly process by which complaints about the unskilled or incompetent teaching practices of a teacher can be investigated and acted upon in cases where the local process has failed. This includes conduct by teachers not subject to the discipline procedure of the *Teaching Profession Act*. The regulation includes a process for initiating complaints and conducting investigations, hearings and appeals.

Ministerial Orders

Introduction

Those responsible for the implementation of education programs and the operation of schools must be aware of the following ministerial orders that are contained in the *K–12 Learning System Policy, Regulations and Forms Manual*.

Teaching Quality Standard Applicable to the Provision of Basic Education in Alberta

Ministerial Order No. 016/97

This ministerial order applies to teacher certification, professional development, supervision and evaluation and is supported by descriptions of selected knowledge, skills and attributes (KSAs) appropriate to teachers at different stages of their careers.

Goals and Standards Applicable to the Provision of Basic Education in Alberta

Ministerial Order No. 004/98

This ministerial order sets expectations for student learning outcomes, standards for student learning and education delivery.

Standards for the Provision of Special Education to Students in Alberta

Ministerial Order No. 015/2004

This ministerial order outlines the requirements for school boards regarding the delivery of education programming and services to students with special education needs in Grade 1 to Grade 12. The document *Standards for Special Education, Amended June 2004* contains these requirements.

Directives

Introduction

Directives issued by the Minister of Education assist in the formulation of policies that protect the health and well-being of students and teachers. Those responsible for the implementation of education programs and the operation of schools must be aware of the following directives contained in the *K–12 Learning System Policy, Regulations and Forms Manual*.

HIV/AIDS in Educational Settings

Directive 4.1.1

This directive is intended to provide information and advice to school boards and regional health authorities in meeting their joint responsibility to provide educational programming to all eligible children and to protect the general public from communicable diseases. For further information, see the Program Administration section.

Human Sexuality Education

Directive 4.1.2

This directive states that every board-operated school offering grades 4, 5 and 6 Health, grades 7, 8 and 9 Health and Life Skills, and Career and Life Management shall ensure that the human sexuality component is offered to all students. Principals will exempt a student from school instruction in human sexuality education at the written request of the student's parents. For further information, see the Program Administration section in the *Guide*, the Health and Life Skills (K–9) Program of Studies and the Career and Life Management (Senior High) Program of Studies.

Policies

Introduction

Policies contained in Sections 1 and 2 of the *K–12 Learning System Policy, Regulations and Forms Manual* are the terms and conditions under which school authorities access funding. Policy requirements must be followed. Those with the responsibility for the implementation of education programs and the operation of schools must be aware of the following policies.

Types of Schools/Programs

- 1.1.1 Charter Schools
- 1.1.2 Home Education
- 1.1.3 Early Childhood Services
- 1.1.4 Outreach Programs
- 1.1.5 Alternative Programs Policy

Locally Developed Courses

- 1.2.1 Locally Developed/Acquired and Authorized Junior and Senior High School Complementary Courses
- 1.2.2 Locally Developed Religious Studies Courses

Practical Arts

- 1.4.2 Knowledge and Employability Courses
- 1.4.3 Off-campus Education

Second Languages

- 1.5.1 English as a Second Language
- 1.5.2 French as a Second Language and French Language Immersion
- 1.5.3 Languages Other than French or English

Special Education Services	1.6.1	Educational Placement of Students with Special Needs
	1.6.2	Special Education
	1.6.3	Guidance and Counselling

Community Relations	1.8.1	Services for Students and Children
	1.8.2	School-based Decision Making
	1.8.3	School Councils

Accountability in Education Policy Requirements	2.1.1	School Authority Accountability
	2.1.2	Student Evaluation
	2.1.3	Use and Reporting of Results on Provincial Assessments
	2.1.5	Teacher Growth, Supervision and Evaluation

Information Bulletins

Introduction

Information bulletins are contained in the *K–12 Learning System Policy, Regulations and Forms Manual* and clarify the department's position on a range of issues. Those with the responsibility for the implementation of education programs and the operation of schools must be aware of the following bulletins:

- 3.2.2 Learning and Teaching Resources
- 3.2.7 Information Bulletin on Student Record Regulation
- 3.3.2 Practice Review of Teachers
- 3.5.1 Review by the Minister
- 3.5.2 Special Needs Tribunal
- 3.5.3 Attendance Board
- 3.6.1 Private Schools
- 3.6.2 Public and Separate Schools

Requirements in Other Alberta Education Documents

Introduction

Those responsible for the implementation of education programs and the operation of schools must refer to the following documents that also contain requirements for schools.

Alberta Education Three-year Business Plan

The *Alberta Education Three-year Business Plan* provides an overall direction for the future of education in Alberta and identifies key goals, strategies, performance measures, results and time lines for improving the provincial system of public education.

K–12 Learning System Policy, Regulations and Forms Manual

The *K–12 Learning System Policy, Regulations and Forms Manual* is a resource for school boards, schools, school councils, private schools and private ECS operators. It contains policies, regulations and forms to guide the delivery of education.

Alberta Programs of Study

The Alberta programs of study are primarily descriptions of the expectations for student learning at the elementary, junior high and senior high school levels. The content of the programs of study is focused on what students are expected to know and be able to do in each course that has been developed for these levels.

Standards for the Provision of Early Childhood Special Education

The *Standards for the Provision of Early Childhood Special Education* outlines the requirements for school authorities regarding the delivery of high quality special education programming to children who are eligible for Alberta Education funding.

Funding Manual for School Authorities

The *Funding Manual for School Authorities* defines the terms and conditions under which a school jurisdiction, accredited-funded private school or private ECS operator may obtain funding.

All of the above documents are available on the Alberta Education Web site.

PROGRAM PLANNING

Programs of Study

School Act, Section 39(1)

The following programs of study are prescribed by order of the Minister pursuant to section 39(1) of the *School Act*.

- *Program of Studies: Elementary Schools*
- *Program of Studies: Junior High Schools*
- *Program of Studies: Senior High Schools*

Mandatory requirements for programs and courses are outlined in the programs or courses of study, each of which contains the following components:

- Program Rationale and Philosophy
- Outcomes
 - General Outcomes
 - Specific Outcomes.

French First Language (Francophone) Education

School Act, Section 10

Alberta Education develops programs of study in both English and French. Alberta Education recognizes that English and French are the official languages of Canada and that Canadian citizens belonging to the French-language minority in Alberta have the right to have their children educated in French language minority schools according to section 23 of the *Canadian Charter of Rights and Freedoms* and section 10 of the *School Act*.

School authorities should consult the Language Education Policy for Alberta, 1988 and *Affirming Francophone Education: Foundations and Directions, A Framework for French First Language Education*.

Implementation Schedule for Programs of Study and Related Activities

The *Implementation Schedule for Programs of Study and Related Activities* indicates implementation dates, revised provincial assessments and the availability of learning and teaching materials in English and French. The degree of change for each new program is indicated using a star rating system.

Learning and Teaching Resources

All authorized learning and teaching resources available for purchase are listed in the *Learning Resources Centre Resources Catalogue* (in print or CD-ROM format) or through the Learning Resources Centre (LRC) Web site. Also, all authorized resources are listed at the Alberta Education Web site under Kindergarten to Grade 12/Curriculum and Learning and Teaching Resources/Programs of Study and Learning and Teaching Resources.

First Nations, Métis and Inuit Education

To support the education of First Nations, Métis and Inuit (FNMI) learners, schools are encouraged to use learning resources that increase and strengthen knowledge and understanding among all Albertans of FNMI governance, history, treaty and Aboriginal rights, lands, cultures and languages. The development of all provincial programs of study and learning resources is guided in part by the department's *First Nations, Métis and Inuit Education Policy Framework (2002)*. The framework recognizes the specific needs of FNMI learners and acknowledges the importance of FNMI history. It provides a vision, a policy statement, framework goals, framework principles and strategies to enhance the educational opportunities of FNMI learners. The framework identifies five priority strategies: improving access to post-secondary, increasing attendance, retention and graduation rates, increasing the number of FNMI teachers, developing FNMI programs and professional development, and building relationships with FNMI communities.

FNMI perspectives are being infused into all core curricula and resources developed by Alberta Education. As new curricula and resources are developed, FNMI perspectives will be included.

The *Renewed Funding Framework's* differential funding for FNMI learners is provided to assist jurisdictions in meeting their unique educational needs.

School authorities intending to offer an FNMI language program may choose from Alberta Education programs of

study such as Cree or Blackfoot Language and Culture, or may use locally developed Aboriginal language programs such as Dene, Stoney or any other FNMI languages as per provincial policy 1.2.1. Provincial language and culture programs are developed in consideration of the *Western and Northern Canadian Protocol's Common Curriculum Framework for Aboriginal Language and Culture, Kindergarten to Grade 12*.

Alberta Education's First Nations, Métis and Inuit Services researches and compiles information about best practices in FNMI education to assist schools in increasing the achievement of FNMI learners.

The *First Nations, Métis and Inuit Education Policy Framework (2002)* and recent progress reports are available on the Alberta Education Web site.

More information on courses and resources is available from the First Nations, Métis and Inuit Services and on the Alberta Education Web site.

ECS to Grade 9

Early Childhood Services

School Act, Section 30
Policy 1.1.3
A.R. 31/2002

Early Childhood Services (ECS) programs address the developmental needs of children before they enter Grade 1. In ECS programs, young children participate as active partners in learning, build a set of shared experiences and develop knowledge, skills and attitudes that prepare them for subsequent learning.

ECS programs are voluntary programs that may be offered in accordance with section 30 of the *School Act*. If a school authority operates an ECS program, it shall accept and provide programming for all children, including those with special education needs who meet eligibility criteria and for whom programming is requested.

Kindergarten

Kindergarten, as part of the ECS programs, is intended for children in the year prior to entry into Grade 1 and shall be planned and implemented to help children achieve the expectations outlined in the *Kindergarten Program Statement* (current version).

The *Kindergarten Program Statement*, available from the Curriculum Branch or for viewing and downloading from the Alberta Education Web site, describes the learning achievement that helps prepare children for entry into Grade 1 and provides them with a foundation for later success. The statement is the basis for all ECS programs funded by the province.

Program Organization and Delivery

Access to Minimum Hours of Instruction Kindergarten

Where Kindergarten programs are offered, **approved operators/schools shall provide access to a minimum of 475 hours of instructional program activities for each child in a centre during a school year.** An ECS child who does not have identified special education needs and who lives in a remote area that has no ECS school program within a reasonable transportation distance may be served by an ECS home program. An ECS home program must be planned, delivered and evaluated by a certificated teacher and must be comprised of at least 22 visits to the home of one and half hours duration or longer.

Instructional Time Kindergarten

Instructional time includes time scheduled for purposes of instruction and other activities for children where direct child–teacher interaction and supervision are maintained.

An operator/school may use a maximum of 35 hours of instructional time for activities such as:

- visits to the child’s home^❶
- staggered entry
- small group days
- demonstration of child learning in child–parent–teacher conferences (child must be in attendance)

that promote the transition of children from home to school and encourage communication and relationship building.

Instructional time does not include:

- **teacher convention days**
- **professional development days**
- **teacher planning days**
- **staff meetings**
- **statutory and school authority-declared holidays**
- **lunch breaks**
- **recesses**
- **time taken for the registration of children.**

❶ These visits support transition from home to school, including meeting the parents/guardians and providing orientation about the program or follow-up on the child’s progress. The time dedicated to these visits to the child’s home, of 30 to 60 minutes in duration, must be cumulative and contribute to the total number of hours of instruction.

**Access to Minimum Hours
of Instruction
Grade 1 to Grade 9**
School Act, Section 39(1)(c)

To ensure equitable access of opportunity for Grade 1 to Grade 9 students, a minimum number of instructional hours are specified. The organization of schools at these grade levels is the responsibility of the school authority.

In accordance with section 39(1)(c) of the *School Act* and to allow for a balanced program that leads to the student learning outcomes indicated in the description of Basic Education, **schools are required to ensure that Grade 2 to Grade 9 students have access to a minimum of 950 hours of instruction per year in each grade. For Grade 1 students, alternative minimum times enabling a smooth transition from ECS are permissible.**

Definition of Instruction

Instruction is the process in which certificated teachers take responsibility for ensuring that learning activities for students are directed towards achieving the outcomes of approved Programs of Study and/or Individualized Program Plans through:

- **interaction with students, either face-to-face or using information and communication technology, for the purpose of teaching, assessing student achievement of outcomes and related activities, including tutorials, discussion groups and learning skill centres, and/or**
- **interaction with students who are engaged in self-directed packages, independent study, computer-assisted learning and/or classroom learning, and/or**
- **supervision of presentations for and/or by students, workplace learning and other learning activities.**

**Instructional Time
Grade 1 to Grade 9**

Instructional time includes time scheduled for purposes of instruction, examinations/testing and other student activities where direct student–teacher interaction and supervision are maintained.

Instructional time does not include:

- **teacher convention days**
- **professional development days**
- **parent–teacher interview days**
- **teacher planning days**
- **staff meetings**
- **statutory and school authority-declared holidays**
- **lunch breaks**
- **breaks between classes**
- **recesses**
- **time taken for the registration of students**
- **extracurricular activities.**

Organization of Instructional Time

The following requirements and considerations apply to the organization of instructional time.

- All students must be provided access to a minimum number of hours of instruction. See Access to Instruction Kindergarten and Access to Instruction Grade 1 to Grade 9 in this section.
- Subject to the above requirement, decisions on the organization and scheduling of instructional time are a board matter and should be flexible enough on a daily, weekly and yearly basis to meet the learning needs of students; e.g., block planning, artist in residence.
- Organization for instruction may be based on an integrated programming model in which the outcomes from two or more subject areas are addressed within a common time block.
- All students should be provided sufficient opportunity to achieve the outcomes outlined in the programs of study. To assist schools in planning, recommendations regarding the apportioning of instructional time for required and optional subjects are provided in the subsections that follow.

Elementary Program

In planning for instruction in the elementary grades, the following percentage of time allocations for the school year are recommended for required and optional subject areas. Individual students may require varying times to meet the learning outcomes in each subject area.

Percentage of Time Allocations Recommended

Grade 1 and Grade 2

Subject Areas	English Language Programming Percentage	Francophone/French Immersion Programming Percentage
English Language Arts	30%	0%–10%
French Language Arts^①	0%	20%–30%
Français^②	0%	30%
Mathematics	15%	15%
Science	10%	10%
Social Studies	10%	10%
Art and Music	10%	10%
Health and Physical Education	10%	10%
Time for other subjects; e.g., second languages, ^③ drama, religious instruction.	15%	15%

① French language arts is taught in alternative French language programs (including French immersion).

② Français is taught in Francophone schools.

③ For schools that implement provincial programs of study for French as a Second Language, Aboriginal language and culture programs, or international languages and cultures programs, the recommended time is 10%.

Note: Information and Communication Technology (ICT) learner outcomes are infused within core curricula in language arts, mathematics, science and social studies at all grade levels.

Grade 3 through Grade 6

Subject Areas	English Language Programming Percentage	Francophone/ French Immersion Programming Percentage
English Language Arts French Language Arts^①/ Français^②	25% 0%	{ 35% }
Mathematics	15%	15%
Science	15%	10%
Social Studies	10%	10%
Art and Music	10%	10%
Health and Physical Education	10%	10%
Time for other subjects; e.g., second languages, ^③ drama, religious instruction.	15%	10%

- ① French language arts is taught in alternative French language programs (including French immersion).
- ② Français is taught in Francophone schools.
- ③ For schools that implement provincial programs of study for French as a Second Language, Aboriginal language and culture programs, or international languages and cultures programs, the recommended time is 10%.

Note: Information and Communication Technology (ICT) learner outcomes are infused within core curricula in language arts, mathematics, science and social studies at all grade levels.

Languages Other than French or English

School Act, Section 11

Policy 1.5.3

According to section 11 of the *School Act*, a school board may authorize the use of a language other than English or French as a language of instruction.

Policy 1.5.3, Languages Other Than French or English, states that a partial immersion (bilingual) program means a program in which a language other than English or French is used as the language of instruction, to a maximum of 50 percent of the instructional day. In offering a partial immersion (bilingual) program, boards:

- must ensure that students also have opportunity to acquire competence in all English language arts skills to meet graduation requirements
- have the responsibility of deciding the amount of time needed in all subject areas from Kindergarten to Grade 12, providing the instructional time is consistent with the direction in the *Guide*.

Chinese language arts (Kindergarten to Grade 12), German language arts (Kindergarten to Grade 12), Spanish language arts (Kindergarten to Grade 9) and Ukrainian language arts (Kindergarten to Grade 12) programs of study are available provincially. School authorities wishing to develop a language arts program in a language other than English or French should consult *The Common Curriculum Framework for Bilingual Programming in International Languages, Kindergarten to Grade 12, 1999*.

For more information, contact the Curriculum Branch.

Information and Communication Technology

The Information and Communication Technology (ICT) curriculum identifies the technology outcomes that students should achieve by the end of grades 3, 6, 9 and 12. The outcomes provide a basic technology curriculum for students to ensure they are prepared for the workplace, further studies and lifelong learning. Proficiency with technology has become an essential skill in almost every area of human endeavour. Students need to have these basic skills along with the skills found in language arts, mathematics, science and social studies. Although the technology outcomes form a program of studies, they are not intended to be taught as a stand-alone course, but rather within the context of other subject areas studied. All school authorities are required to have an ICT curriculum implementation plan in place that takes into consideration how the ICT outcomes will be addressed within grade levels and within specific subjects.

Additional information relevant to elementary and junior high schools is contained in the Courses and Programs section of the *Guide*.

Elementary Program Optional Subjects

School Act, Section 60(2)(a)

At the elementary level, programming may include one or more optional subjects. Optional subjects are those parts of the elementary school program that are based on outcomes other than those outlined for core subjects.

Optional subjects may be developed and approved at the local level, as per section 60(2)(a) of the *School Act*. The following are optional subjects for which outcomes have been developed at the provincial level:

- Aboriginal Language and Culture courses (see the Language Courses section in the *Guide*)

- International Language and Culture courses (see the Language Courses section in the *Guide*)
- Drama
- French as a Second Language (see the French as a Second Language Courses section in the *Guide*).

Daily Physical Activity

The goal of Daily Physical Activity (DPA) is to increase students' physical activity levels. DPA is based on the belief that healthy students are better able to learn and that school communities provide supportive environments for students to develop positive habits needed for a healthy, active lifestyle. *Daily Physical Activity: A Handbook for Grades 1–9 Schools* supports the implementation of DPA.

Policy

School authorities shall ensure that all students in grades 1 to 9 are physically active for a minimum of 30 minutes daily through activities that are organized by the school.

Guiding Principles

- Schools have the responsibility of creating and nurturing a learning environment for students that supports the development of the lifelong habit for daily physical activity and for healthy lifestyles.
- Daily physical activities should:
 - vary in form and intensity
 - take into account each student's ability
 - consider resources available within the school and the larger community
 - allow for student choice.

Procedures

- School authorities have the flexibility to use instructional and/or noninstructional hours to implement DPA.
 - Physical education classes are an appropriate strategy to meet the DPA requirement.
 - DPA should be offered in as large a block of time as possible but can be offered in time segments adding up to the minimum 30 minutes per day; e.g., two fifteen minute blocks of time for a total of 30 minutes.
 - DPA can be incorporated throughout the day and integrated into other subject areas.

- School authorities will monitor the implementation of DPA to ensure that all students are active for a minimum of 30 minutes daily.
- Exemptions from DPA may be granted by the principal under the following conditions:
 - religious beliefs—upon written statement from the parent to the principal
 - medical reasons—certification to principal by a medical practitioner indicating in which activities the student is not able to participate.

Junior High Instructional Time

At the junior high level, schools must provide access to a minimum of 950 hours of instruction per year in each grade.

Junior High Program

The primary consideration that schools need to take into account when organizing for instruction is to provide their students with an opportunity to meet all of the requirements of a basic education. The junior high school program should be organized within the context of the outcomes included in the Vision, Mission and Basic Education section in the *Guide*.

A course in junior high school represents a set of specific knowledge, skills and attitudes. Most students can achieve these outcomes in the recommended time; however, it is recognized that some students can acquire the knowledge, skills and attitudes specified in a course of studies in less than the recommended time, while others may require more time.

Recommended Time Allotments for the Required Junior High School Program

<u>Subject Areas</u>	<u>Hours Per Year</u>
English Language Arts	150
French Language Arts^① and English Language Arts or Français^② and English Language Arts	{250}
Mathematics	100
Science	100
Social Studies	100
Physical Education	75
Health and Life Skills	50
Optional Courses (Time may vary.)	

For schools that implement provincial programs of study for French as a Second Language, Aboriginal language and culture programs, or international languages and cultures programs, the recommended time allocation is 95 hours.

- ① French language arts is taught in alternative French language programs (including French immersion).
- ② Français is taught in Francophone schools.

For schools offering instruction in a language other than English or French (*School Act*, section 11), the junior high school time recommendations apply for core courses. In addition to English language arts, it is recommended there be a minimum of 150 hours of language arts instruction in the language of study.

Junior High Optional Courses

Schools shall offer two provincially authorized optional courses except where instruction in a language other than English is offered, then only one other provincially authorized optional course is required.

Optional courses help students achieve the outcomes outlined in the Vision, Mission and Basic Education section of the *Guide*. Optional courses also reinforce learnings in language arts, mathematics, science and social studies, as well as provide learning opportunities in other subject areas.

Sequencing

Students should be encouraged to continue in Grade 8 and Grade 9 with at least one of the optional courses selected in Grade 7.

Optional Courses

The optional courses are categorized as follows:

Aboriginal Languages

- Blackfoot Language and Culture
- Cree Language and Culture

Career and Technology Studies

- Introductory level courses for all CTS strands are considered appropriate for junior high school students.

(For further information, see the *CTS Manual for Administrators, Counsellors and Teachers*.)

Environmental and Outdoor Education

Ethics

- This course may be offered in Grade 7, Grade 8 or Grade 9.

French as a Second Language

Fine and Performing Arts

- Art
- Drama
- Music
 - Choral
 - General
 - Instrumental

International Languages

- Chinese Language Arts
- Chinese Language and Culture
- German Language Arts
- German Language and Culture
- Italian Language and Culture
- Japanese Language and Culture
- Spanish Language Arts
- Spanish Language and Culture
- Ukrainian Language Arts
- Ukrainian Language and Culture

For more information, see the Languages Other than French or English section in the *Guide*.

Locally Developed/Acquired and Locally Authorized Courses

Religious Studies

- Religious studies may be offered at the discretion of the local school board under section 50 of the *School Act*.

School Act, Section 50

Planning Junior High Course Selections

A student's choice of courses is subject to the approval of the principal, except where a student (aged 16 or over) elects to take distance learning courses. Principals should ensure students are made aware of programs available to meet their individual educational needs and that parents understand and concur with their children's course selections.

Planning in Junior High for Senior High School Programs

Students should be provided with assistance in planning their senior high school programs. Certain courses are required for an Alberta High School Diploma or a Certificate of High School Achievement. Some Grade 10 courses are prerequisites for more advanced senior high school courses. When junior high school students are planning their Grade 10 programs, all students and parents should become familiar with the guidelines to avoid possible difficulties in the later senior high school years. Also see Student Information Needs under Senior High School in the Program Planning section.

For example, in mathematics, students need to focus on their strengths and determine what they are likely to do after Grade 12. The main difference between the applied and pure sequences in senior high school is the approach to problem solving—different concepts and methods are used to solve mathematical problems. If students have an aptitude for solving problems using numerical reasoning or geometry, they may do better in applied mathematics. If they have an aptitude for theory and algebra, they should consider pure mathematics. Some areas of post-secondary study require pure mathematics. Also see Assisting in Student Planning under Senior High School in the Program Planning section.

When assisting students in planning their programs, junior high school staff should ensure that students discuss their proposed programs with their parents and keep in mind the credit requirements for graduation from senior high school.

Career Plans

Schools are encouraged to require students to develop a program and career plan when beginning junior high school. The plan should be updated annually and signed off annually by the parents and the principal.

For more information about planning for careers, refer to *Student Learning – Career Information Booklet and Planners*.

Senior High School

Access to Minimum Hours of Instruction Grade 10 to Grade 12

Schools must ensure that students have access to a minimum of 1000 hours of instruction per school year.

Access to instruction means:

- **certificated teachers are assigned to deliver or supervise the instruction**
- **the instruction and evaluation of performance are based on the outcomes in an approved program of studies**
- **there are designated times when teachers are available to the students**
- **students know, prior to enrolling in courses, how and when they will be able to access the instructional expertise of teachers.**

Definition of Instruction

Instruction is the process in which certificated teachers take responsibility for ensuring that learning activities for students are directed towards achieving the outcomes of approved Programs of Study and/or Individualized Program Plans through:

- **interaction with students, either face-to-face or using information and communication technology, for the purpose of teaching, assessing student achievement of outcomes and related activities, including tutorials, discussion groups and learning skill centres, and/or**

-
- interaction with students who are engaged in self-directed packages, independent study, computer-assisted learning and/or classroom learning, and/or
 - supervision of presentations for and/or by students, workplace learning and other learning activities.
-

Instructional Time Grade 10 to Grade 12

Instructional time includes time scheduled for purposes of instruction, examinations/testing and other student activities where direct student–teacher interaction and supervision are maintained.

Instructional time does not include:

- teacher convention days
 - professional development days
 - parent–teacher interview days
 - teacher planning days
 - staff meetings
 - statutory and school authority-declared holidays
 - lunch breaks
 - breaks between classes
 - supervised study halls
 - time taken for the registration of students
 - extracurricular activities
 - graduation rehearsals and ceremonies.
-

School Organization

School authorities are to develop methods of school organization and instructional delivery that best meet the needs of their students. All delivery methods must ensure that the needs and the best interests of individual students are taken into consideration.

If a course is delivered in a face-to-face, classroom-based setting, the course must be timetabled for both students and teachers for 25 hours per credit. A credit at the senior high school level represents course-specific knowledge, skills and attitudes. One credit is defined as being equal to 25 hours of instruction, within which most students can achieve a credit. However, it also is recognized that some students can acquire the knowledge, skills and attitudes specified for one credit in a course of studies in less than 25 hours, while others may require more time.

School authorities are encouraged to adopt alternatives to the current Carnegie unit and organizational and scheduling model. There are various opportunities to provide flexibility in

course offerings and program delivery methods for students, while under the supervision of a certificated teacher. Examples include the following:

- A course can be delivered using a self-directed instructional package. All outcomes of the program of studies must be covered in the self-directed instructional package. The content of the self-directed instructional package must be of a similar standard to LRC or ADLC self-directed instructional package materials.
- A course can be delivered using a combination model. Some examples of combined delivery include:
 - A course can be delivered using a combination of online and classroom-based instruction. In this case, all outcomes of the program of studies must be covered in the online course materials.
 - A course can be delivered using a combination of a self-directed instructional package and classroom-based instruction. In this case, all outcomes of the program of studies must be covered in the self-directed instructional package. The content of the self-directed instructional package must be of a similar standard to LRC or ADLC self-directed instructional package materials.
- A course can be delivered in an online setting. All outcomes of the program of studies must be covered in the online course materials.
- A course can be delivered in an outreach setting using a self-directed instructional package. All outcomes of the program of studies must be covered in the self-directed instructional package.

Whatever methods of school organization are adopted, students must have access to instruction that is focused on the outcomes of the courses they have chosen and be evaluated on that basis.

Funding Manual for School Authorities

The *Funding Manual for School Authorities* states that instructional services must be timetabled for both students and teachers and must ensure that students have access to at least 25 hours of instruction per high school credit. The following exceptions to this requirement are:

- All 3-credit courses require a minimum of 62.5 hours for each course, including Work Experience 15, 25 and 35 and Special Projects 10, 20 and 30.
- Three-credit courses in Work Experience 15, 25 and 35 and Special Projects 10, 20 and 30 will be offered for 62.5 hours and funded at 2.5 credit enrollment units.

-
- Schools can deliver a block of three, 1-credit CTS courses for 62.5 hours; however, schools must ensure that students meet all of the outcomes of each 1-credit course. CTS courses will be funded at 1 credit enrollment unit for each 1-credit course.
 - Summer break, evening (6 p.m. or later) and weekend credit courses must provide access to instruction of at least 16 hours per credit. The exceptions are Work Experience 15, 25 and 35, Special Projects 10, 20 and 30 and the Registered Apprenticeship Program and Green Certificate courses, which require 25 hours of access to instruction per credit.

For further details, see the *Funding Manual for School Authorities*.

Program Organization Priorities

Priority should be given to offering a senior high school program that enables students to:

- meet Alberta high school diploma requirements (see the Senior High School Graduation Requirements section) and earn a minimum of 100 credits in three years
- have an opportunity to take optional courses
- enter post-secondary institutions or seek employment.

Assisting in Student Planning

Certain courses are mandatory to meet Alberta High School Diploma and Certificate of High School Achievement requirements. Some Grade 10 courses are prerequisites for more advanced senior high school courses. To avoid possible difficulties in later senior high school years, principals should ensure that students planning their Grade 10 programs are familiar with the guidelines.

For example, upon entry into senior high school, students registering in either Applied Mathematics 10 or Pure Mathematics 10 must have passed Mathematics 9. Students who have not been successful in Mathematics 9 can take either Mathematics 14, which leads to Mathematics 24, or register in Mathematics Preparation 10. Successful completion of Mathematics Preparation 10 leads to either Applied Mathematics 10, Pure Mathematics 10 or Mathematics 24.

Principals must ensure that credits earned are recorded correctly and checked carefully at the school level.

Programming for Application and Transfer of Learning

To enhance student learning, senior high school programming and course timetabling should provide students with the opportunities to transfer their learning to other areas.

Within each course, students have opportunities to apply their learning. As well, student learning may be extended through the application of the outcomes in one course to the outcomes in other courses. Educators are encouraged to use planning and course timetabling to capitalize on opportunities for connections within and across subjects that strengthen student learning.

All senior high school courses offered to students must be appropriately timetabled, taught, assessed and reported to Alberta Education.

For funding conditions for Grades 10–12, school authorities should consult the current *Funding Manual for School Authorities*.

Focused, Articulated Programming

Some school authorities have worked in cooperation with local post-secondary institutions and employers to develop high school programming that is articulated with a variety of programs in colleges and technical institutes, as well as meeting the requirements of the Alberta High School Diploma. This programming combines a selection of interrelated CTS courses with appropriate academic courses and off-campus learning. Alberta Education encourages these types of local initiatives.

For more information, contact the Curriculum Branch.

Student Information Needs

Students need information on a number of topics to plan their senior high school programs.

- Students should be given assistance in planning their senior high school programs. Steps should also be taken to secure parents' understanding of and concurrence with their children's registrations.
- In planning a program, schools should ensure that students keep in mind the requirements for a diploma or a certificate as outlined in the *Guide*.

- In addition to graduation requirements, a student's choice of subjects in senior high school may be governed by requirements adopted by the school authority that has jurisdiction over the student, provided that these requirements do not contravene the provisions in the *Guide*.
- In providing assistance to students planning their programs, care should be taken to ensure that such programs enable each student to attain the aim of either meeting entry requirements for post-secondary programs or acquiring the knowledge, skills and attitudes that will facilitate direct career entry. Also see Focused, Articulated Programming in this section.

- Students under age 16 may take distance learning courses from the Alberta Distance Learning Centre, subject to the approval of the principal. Students aged 16 or over do not require approval of the principal to take distance learning courses. For more information about the Alberta Distance Learning Centre, see the Instructional Delivery section.

- Students should be made aware of programs that are available to meet their individual needs or the needs of their community.

School Act, Section 10

- Students eligible under section 10 of the *School Act* have the opportunity to complete all of their core and optional course work in French, with the exception of English language arts requirements.

Also see Planning in Junior High for Senior High Programs in the ECS to Grade 9 section of Program Planning.

Scholarships

All students should be made aware of the requirements for the Alexander Rutherford Scholarships for High School Achievement.

These scholarships are awarded to students achieving an average of 80% or higher in five designated subjects in each of Grade 10, Grade 11 and Grade 12. Each grade is assessed independently. CTS courses may be used to meet the eligibility requirements for Grade 10 and Grade 11 only. Also see Percentages and Letter Gradings in this section of the *Guide*.

As well, the top ten Alberta students graduating from Grade 12, as determined solely on the basis of diploma examination results in English Language Arts 30-1 or Français 30, Social Studies 30 and three other diploma examination subjects, are recognized as “Rutherford Scholars.”

For more information, contact Alberta Scholarship Programs or visit their Web site at www.alis.gov.ab.ca/scholarships.

Registered Apprenticeship Program (RAP) Scholarship

The Alberta Apprenticeship and Industry Training Board Registered Apprenticeship Program Scholarship—known as the RAP Scholarship—recognizes annually the academic and trade-related accomplishments of up to 50 senior high school students who are taking part in the Registered Apprenticeship Program. This scholarship provides \$1000 toward the costs of continuing in regular apprenticeship programs.

To qualify for the scholarship, an applicant must:

- be registered as an Alberta apprentice in a trade
- have plans to continue in a regular apprenticeship program after completing senior high school
- achieve an Alberta High School Diploma or Certificate of High School Achievement
- have completed a minimum of 250 hours of on-the-job training and work experience in the respective trade
- get a recommendation from an employer, supervisor or journeyman stating that they should continue in the apprenticeship program with the goal of becoming a Certified Journeyman.

Applicants will be asked to provide:

- a personal statement of purpose indicating why he or she is a “good fit” for a career in a trade
- a recommendation from his or her employer
- a recommendation from a senior high school teacher or counsellor.

For more information about this scholarship and its awards, contact Alberta Scholarship Programs or visit their Web site at www.alis.gov.ab.ca/scholarships. For further information, visit Apprenticeship and Industry Training at www.tradesecrets.org.

General Requirements for Admission to Post-secondary Educational Institutions

Possession of an Alberta High School Diploma or Certificate of High School Achievement does not guarantee admission to a post-secondary institution. Students who intend to enter a post-secondary institution should be advised, as early as Grade 10, to check the calendars of these institutions for admission requirements, and they should plan their senior high school programs accordingly. Information about post-secondary institutions can be found on the Alberta Learning Information Service (ALIS) Web site at www.alis.gov.ab.ca.

For information on planning high school occupational and career and technology studies programs that are articulated with Apprenticeship and Industry Training programs, see Apprenticeship Articulation under Career and Technology Studies in the Courses and Programs section and the Senior High School Graduation Requirements section.

Percentages and Letter Gradings

Marks are to be submitted to Alberta Education in percentages. Physical Education 10, taken through a home education program, may be submitted as a pass or fail.

Evaluations of course work completed outside of Alberta are to be reported in percentages that conform to the Alberta scale below, or may be reported as a pass or fail.

Percentage Scale	Letter Grading
80 – 100	A
65 – 79	B
50 – 64	C
0 – 49	F

The Alexander Rutherford Scholarships for High School Achievement require that achievement and evaluation in completed courses be reported in percentages. Subjects in which achievement is reported by a pass or fail are not considered in the calculation of averages by the scholarship program administrators.

For more information, see Scholarships in this section and/or contact Alberta Scholarship Programs.

High School Summer Break, Evening (6 p.m. or later) and Weekend Programs

Summer break, evening and weekend programs for senior high school students may be offered by boards, accredited private schools and other accredited high schools; e.g., private and public colleges.

The requirements noted in the *Guide* apply to all schools offering senior high school summer, evening and weekend programs for credit, except that instructional time may vary. Schools must provide access to instruction of at least 16 hours per credit except for Work Experience 15, 25 and 35, Special Projects 10, 20 and 30 and the Registered Apprenticeship Program courses which require 25 hours per credit even when offered in summer, evening or weekend programs.

Three-credit courses in Work Experience 15, 25 and 35 and Special Projects 10, 20 and 30 will be offered for 62.5 hours and funded at 2.5 credit enrollment units.

Courses and Programs

Introduction

This section of the *Guide* provides information primarily about senior high school courses and programs. In several instances, however, references are made to courses and programs for elementary (Kindergarten to Grade 6) and to junior high school (Grade 7 to Grade 9).

The areas pertaining to more than senior high school are:

- Career and Technology Studies
- English as a Second Language
- Alternative Language Programs
- Language Courses
- Locally Developed/Acquired and Authorized Junior and Senior High School Language Courses
- International Baccalaureate and Advanced Placement
- Information and Communication Technology
- Knowledge and Employability Courses
- Locally Developed/Acquired and Authorized Junior and Senior High School Complementary Courses
- Off-Campus Education
- Physical Education.

Career and Life Management (CALM)

Career and Life Management (CALM) may be taken by senior high school students in their Grade 10, Grade 11 or Grade 12 year.

Principals may wish to consider the option of having students take CALM in either their Grade 10 or Grade 12 year, if students plan to take three sciences as well as a fine arts or Career and Technology Studies (CTS) courses in Grade 11.

Partial Exemption from CALM

Principals will exempt a student from classroom instruction and learning activities related to human sexuality instruction at the written request of the student's parents. Schools will provide alternative learning experiences for students who have been exempted from human sexuality instruction.

Exemption from CALM Course

Principals can exempt students from the CALM course when they transfer from out-of-province into Alberta schools in Grade 12. For the purpose of this exemption, a Grade 12 student is defined as one who is to graduate in the school year the student transfers into an Alberta school. In this case, the principal exempts the student and informs Learner Records and Data Exchange by April 30.

Students can also be exempted completely from CALM because of religious beliefs. In this case, parents must write to the Minister of Education to request the exemption.

Also refer to the Grade 12 Exemptions for Transfer-in Students in the Student Assessment in Senior High School Subjects section, the Mature Students section and the Career and Life Management Program of Studies.

Career and Technology Studies (CTS)

Career and Technology Studies (CTS) is a competency-based curriculum with an integrated structure that provides increased opportunities for schools to offer programs that meet the needs of students.

CTS is organized into the following 22 strands. Strands are made up of 1-credit courses.

Agriculture	Fashion Studies
Career Transitions	Financial Management
Communication Technology	Foods
Community Health	Forestry
Construction Technologies	Information Processing
Cosmetology Studies	Legal Studies
Design Studies	Logistics
Electro-Technologies	Management and Marketing
Energy and Mines	Mechanics
Enterprise and Innovation	Tourism Studies
Fabrication Studies	Wildlife

Senior High School Credits for CTS Courses Completed in Junior High School

Some students may successfully complete all of the outcomes for individual CTS courses while in junior high school. The senior high school principal may accept a recommendation from the junior high school principal that a student has completed successfully all of the course outcomes and should be given credit. A mark of “P” for pass, or a percentage grade, may be assigned to the student by the senior high school principal. This course can then be included when reporting student achievement through the normal student records system and will appear on the student’s transcript.

Note 1: Any CTS courses completed in junior high school and recommended for credits in senior high school will not receive credit enrollment unit (CEU) funding.

Note 2: The course challenge provision does not apply to these students.

More information is available in the *Funding Manual for School Authorities*.

Reporting CTS Student Achievement

Schools are to report completed CTS courses with percentage grades.

The option of reporting a “P” for pass is available only when credit recommendation is based on course completions in junior high school. All other circumstances require the reporting of a percentage grade.

Apprenticeship Articulation

Articulation agreements have been established with the Automotive Service Technician, Cabinetmaker, Carpenter, Cook, Electrician, Hairstylist, Warehousing, Outdoor Power Equipment Technician and Welder trades. Based on these agreements and a policy on prior learning assessment developed by Apprenticeship and Industry Training, students may qualify for a portion of the in-school training component and on-the-job credit for these trades. These students are to have taken the appropriate CTS courses and successfully challenged the appropriate theory examinations in the respective trades.

Further details regarding apprenticeship articulation agreements, including correlations to CTS strands and courses, are provided in Appendix 5 of the *CTS Manual for Administrators, Counsellors and Teachers*.

A senior high school diploma is often desirable for admission into an apprenticeship program; however, students and their parents should be made aware that admission into apprenticeship programs may not require a senior high school diploma.

For more information, contact Apprenticeship and Industry Training or access their Web site at www.tradesecrets.org.

English as a Second Language

Policy 1.5.1

Senior high schools with students learning English as a second language should refer to the senior high school program of studies, the *English as a Second Language Senior High School Guide to Implementation, 2002*, and the *English as a Second Language Alberta Authorized Resource List, Grades 10–12, 2004*.

Kindergarten to Grade 9 schools should refer to the *English as a Second Language Kindergarten to Grade 9 Guide to Implementation, 2007*.

These resources are available for purchase from the Learning Resources Centre or for viewing and downloading from the Alberta Education Web site.

For more information, see the English as a Second Language Policy 1.5.1 in the *K–12 Learning System Policy, Regulations and Forms Manual* and the Language Education Policy for Alberta, 1988, or contact the Curriculum Branch.

Alternative Language Programs

School Act, Sections 11, 21

According to section 11 of the *School Act*, a board may authorize the use of French or any other language as a language of instruction. Alberta Education encourages opportunities for all Alberta students to learn French by making available programs and services for alternative French language programs (including French immersion) under section 21 of the *School Act*.

Alternative French Language Programs

Policy 1.5.2

Boards offering alternative French language programs (including French immersion) and French as a second language programs shall develop, keep current and implement written policy and procedures consistent with provincial policies and procedures.

Hours of Instruction Alternative French Language Programs

Research and experience have demonstrated clearly that student proficiency in the French language is strongly correlated to the amount of time during which French is used as the language of instruction. Recognizing that many local factors may determine the time allocated to instruction in the French language, the following ranges are recommended as supportive of the objectives of alternative French language programs (including French immersion).

Kindergarten	100%
Grades 1 – 2	90% – 100%
Grades 3 – 6	70% – 80%
Grades 7 – 9	50% – 80%
Grades 10 – 12	40% – 80%

More information is available in the *K–12 Learning System Policy, Regulations and Forms Manual*, the current *Funding Manual for School Authorities* and from the French Language Services Branch.

Funding

The following table summarizes the minimum number of instructional hours per year, using French as the language of instruction, that are required to qualify for Official Languages in Education program funding and for full-time equivalent (FTE) funding in alternative French language programs, French immersion programs and in French first language programs.

French First Language/ Alternative French Language Programs	Instructional Hours in French for Minimum Program Funding	Instructional Hours in French for Full FTE Funding
Kindergarten	238	712
Grades 1 to 6	475	712
Grades 7 to 9	380	570
Grades 10 to 12	250 (10 credits)	600

School authorities only receive funding at the rate for French as a Second Language for students who receive less than the above minimum number of instructional hours in French, i.e., less than 238 hours in Kindergarten, less than 475 hours in Grade 1 to Grade 6, less than 380 hours in Grade 7 to Grade 9, and less than 250 hours in Grade 10 to Grade 12.

For more information, see the *Funding Manual for School Authorities*.

Languages Other than French or English (Bilingual Programs)

School Act, Section 11
Policy 1.5.3

According to section 11 of the *School Act*, a school board may authorize the use of a language other than English or French as a language of instruction.

Policy 1.5.3, Languages Other than French or English, states that a partial immersion (bilingual) program means a program in which a language other than French or English is used as a language of instruction, to a maximum of 50% of the instruction day. In offering partial immersion (bilingual) programs, boards:

- must ensure that students also have the opportunity to acquire competence in all English language arts skills to meet graduation requirements
- have the responsibility of deciding the amount of time needed in all subject areas from Kindergarten to Grade 12, providing the instructional time is consistent with the direction in the *Guide*.

Chinese language arts (Kindergarten to Grade 12), German language arts (Kindergarten to Grade 12), Spanish language arts (Kindergarten to Grade 9) and Ukrainian language arts (Kindergarten to Grade 12) programs of study are available provincially. School authorities wishing to develop a language arts program in a language other than English or French should

consult *The Common Curriculum Framework for Bilingual Programming in International Languages, Kindergarten to Grade 12*, 1999.

For more information, contact the Curriculum Branch.

Language Courses

Aboriginal Language and Culture Courses

An Aboriginal language and culture course is a course in which an Aboriginal language is studied as a subject for the purpose of developing communication skills and cultural awareness.

Language and culture courses have been developed provincially for Blackfoot and Cree.

For more information, contact the Curriculum Branch.

French as a Second Language Courses

In French as a Second Language courses (FSL), the French language is often taught between 30 and 40 minutes a day as a subject. The goal of the sequence of FSL courses is to develop students' linguistic, cultural and strategic knowledge in French. Students will be able to communicate basic ideas in the language in a range of situations and will develop an understanding of Francophone cultures.

For federal funding information, see the Federal French Language section in the *Funding Manual for School Authorities*.

Elementary and Junior High Schools

The Nine-year French as a Second Language Program of Studies is available for implementation from grades 4–9 in schools that are currently offering FSL programming at the elementary and junior high school levels. The nine-year program of studies is a grade-related course sequence as opposed to a proficiency-based program of studies. This course sequence will assist in improved articulation between elementary and junior high schools.

Elementary students entering junior high school should be encouraged to continue their study of French.

Junior high school principals may offer senior high school French courses for credit. For more information on offering French 10 and/or French 20 for credit at a junior high school, refer to Senior High School Courses and Credits for Junior High School Students in the Student Placement and Promotion section in the *Guide*.

Senior High Schools

The 1992 FSL program at the senior high school level consists of seven courses.

The following courses will be phased out at the end of the school years noted below:

- French 13 (2007–2008)
- French 10 (2008–2009)
- French 20 (2009–2010)
- French 30 (2010–2011)

The following courses will continue to be available:

- French 31a
- French 31b
- French 31c

When students enter senior high school, they are to be placed in FSL courses that correspond to their levels of proficiency in FSL. For example, a student who has acquired the skills and knowledge required for Beginning Level 3 in junior high should be placed in French 20. A student who has completed the equivalent of French 20 in junior high school should be placed in French 30. To assist with the placement of students in FSL courses, see the following testing package: *French as a Second Language Evaluation Package for Junior/Senior High Schools – Beginning Level 3*. This material is available for purchase from the LRC.

It is recommended that schools offer the French 10-9Y, French 20-9Y and French 30-9Y course sequence only if students demonstrate the requisite skills, knowledge and attitudes outlined in the Grade 9 portion of the Nine-year French as a Second Language Program of Studies.

In September 2008, students who have no previous experience in French are to start in French 10-3Y.

International Language and Culture Courses

An international language and culture course is a course in which an international language is studied as a subject for the purpose of developing communication skills and cultural awareness.

Language courses have been developed provincially for Chinese, German, Italian, Japanese, Latin, Spanish and Ukrainian at a Grade 10 entry point.

Courses have also been developed for various entry points at the elementary and junior high school levels with continuing courses at the senior high school level in Chinese, German, Italian, Japanese, Spanish and Ukrainian.

For more information, contact the Curriculum Branch.

Course Challenges for Languages

In the assessment process for a language course challenge, students need to perform a number of oral, written and listening and reading comprehension tasks as well as show samples of their work that demonstrate the expected standards for the course being challenged. Student performance and quality of work are to be evaluated by a certificated teacher who has expertise in the language course being challenged. For more information on the Challenge Procedure, see Appendix 3: Course Challenge in the *Guide*.

Senior high school students with rights under section 23 of the *Charter* and currently attending a school other than one administered by a Francophone Regional authority may challenge Français 30 by first registering with the nearest Francophone Regional authority for the course. All other procedures as detailed in Appendix 3 of the *Guide* apply.

Exceptions

French 13 is excluded from the course challenge and waived prerequisite provisions.

Locally Developed/Acquired and Authorized Junior and Senior High School Language Courses

Policy 1.2.1

Locally developed/acquired and locally authorized courses in second languages are also available. See the Locally Developed/Acquired and Authorized Junior and Senior High School Complementary Course Policy 1.2.1 in the *K–12 Learning System Policy, Regulations and Forms Manual*; the Language Education Policy for Alberta, 1988; or contact the Curriculum Branch for more information.

School authorities wishing to locally develop language and culture courses should refer to *The Common Curriculum Frameworks for International Languages*, 2001. School authorities wishing to locally develop Aboriginal language and culture courses should also refer to *The Common Curriculum Framework for Aboriginal Language and Culture Programs, Kindergarten to Grade 12*.

The Government of Alberta has recognized the multicultural nature of the province through the *Human Rights, Citizenship and Multiculturalism Act* and the *Language Education Policy for Alberta*, 1988. Accordingly, Alberta Education encourages school authorities to develop second language courses to meet the needs of the local community when such courses are not available as provincially authorized courses. Guidelines and procedures for the development and authorization of these second language courses are contained in the *K–12 Learning System Policy, Regulations and Forms Manual*.

For more information, contact the Curriculum Branch.

International Baccalaureate and Advanced Placement

Schools are encouraged to challenge capable students beyond the 10–20–30 course sequences. This challenge can be provided through International Baccalaureate and Advanced Placement courses.

Schools should inform students of the acceptability of International Baccalaureate and Advanced Placement courses for credit and/or advanced placement by post-secondary institutions. Schools also should inform students that these programs do not replace the diploma requirements outlined in the Senior High School Graduation Requirements section.

Only those school authorities authorized to offer International Baccalaureate courses are permitted to teach locally developed IB courses. Only those school authorities authorized to offer Advanced Placement courses are permitted to teach locally developed AP courses.

Further information may be obtained on the International Baccalaureate Organization Web site at www.ibo.org or the Advanced Placement Web site at www.ap.ca.

Green Certificate Program

The Green Certificate Program is administered by Alberta Agriculture, Food and Rural Development. Alberta senior high school students 15 years of age or older can register in any one of the eight specializations available. Each specialization can be studied at three levels of increasing knowledge and proficiency.

The program is delivered off-campus and students may earn credits for successfully completing a Green Certificate Program by enrolling in courses in any of the eight available Green Certificate Specializations: Cow–Calf Beef Production, Dairy Production, Feedlot Beef Production, Field Crop Production, Irrigated Field Crop Production, Sheep Production, Swine Production and Bee Keeper Production. Courses in these specializations may be found in Appendix 1 of the *Guide*.

Information and Communication Technology

The Information and Communication Technology (ICT) curriculum identifies the technology outcomes that students should achieve by the end of grades 3, 6, 9 and 12. The outcomes provide a basic technology curriculum for students so that they are prepared for the workplace, further studies and lifelong learning. Proficiency with technology has become an essential skill in almost every area of human endeavour. Students need to have these basic skills along with the skills found in language arts, mathematics, science and social studies. Although the technology outcomes are presented in a program of studies, they are not intended to be taught as a stand-alone course, but rather within the context of other subject areas studied. All school authorities are required to have an ICT curriculum implementation plan in place that takes into consideration how the ICT outcomes will be addressed within grade levels and within specific subjects.

Knowledge and Employability Courses

The Knowledge and Employability courses are available to students in grades 8, 9, 10, 11 and 12 in school authorities that choose to offer the series of courses. Students may enroll in one or more Knowledge and Employability course(s) at appropriate entrance/registration dates. Students may take combinations of Knowledge and Employability courses and other junior/senior high school courses as long as they are enrolled in courses appropriate to their highest level of achievement. Students may transition in and out of Knowledge and Employability courses throughout grades 8 to 12.

Knowledge and Employability courses are designed for students who demonstrate reading, writing, mathematical and other levels of achievement two to three years below those of their age peers. These students should meet the specific student enrollment criteria as listed in Knowledge and Employability Policy 1.4.2.

Students choosing these courses typically wish to enhance their academic and occupational competencies and gain successful transition into employment and/or continuing education and training opportunities. These students may qualify for a Certificate of High School Achievement or they may continue their studies to qualify for an Alberta High School Diploma.

Students enrolled in the Integrated Occupational Program (IOP) in grades 10 to 12 as of January 2006 may choose to meet the requirements of the Certificate of Achievement (see Appendix 5) or the current Certificate of High School Achievement (see the Senior High Graduation Requirements section).

Knowledge and Employability courses include four core courses and twelve strands of occupational courses. They provide students with practical and applied opportunities to develop the competencies necessary to meet or exceed the following goals:

- earn a senior high school credential
- enter the workplace upon leaving school with employability and occupational skills that meet industry standards
- make successful transitions to other courses or to further education and training
- become responsible and contributing members of society.

Implementation of Knowledge and Employability Social Studies Grade 8 and 10-4 and the withdrawal of the corresponding IOP courses takes place in September 2007. The implementation of Knowledge and Employability Social Studies Grade 9 and 10-4 and the withdrawal of the corresponding IOP courses takes place in September 2008. Knowledge and Employability English, mathematics, science (Grades 8 to 12) were implemented in September 2006.

The Knowledge and Employability occupational courses (grades 8–12) were implemented in September 2006. The IOP occupational courses will continue to be phased out over the next year. Occupational courses at the 16 level were withdrawn in September 2006. Occupational courses at the 26 level will be withdrawn in September 2007 and occupational courses at the 36 level will be withdrawn in September 2008.

Note 1: Fabrics Grades 10–12 will be implemented in September 2007. The Fabrics Services 16 course has been withdrawn effective September 2007. The 26 level will be withdrawn in 2008 and the 36 level in 2009.

Note 2: Natural Resources Grades 10–12 will be implemented in September 2007. The Natural Resources 16 and Agricultural Production 16 courses have been withdrawn effective September 2007. The 26 level will be withdrawn in 2008 and the 36 level in 2009.

For more information, contact the Curriculum Branch. Information is also provided in the *Information Manual for Knowledge and Employability Courses, Grades 8–12, 2006*; in the *K–12 Learning System Policy, Regulations and Forms Manual*; and in the *Funding Manual for School Authorities*.

Junior High Knowledge and Employability Occupational Courses

The junior high Knowledge and Employability occupational courses consist of the following units of study: Art/Design and Communication, Auto Mechanics, Business Services, Construction: Building, Construction: Metal Fabrication, Fabrics, Foods, Horticulture, Human Care and Workplace Readiness.

Junior high Knowledge and Employability occupational courses areas of study will:

- include two to six units of study that are between 20 to 30 hours of instruction per level
- allow for delivery of two levels within each unit of study: Level 1 can be delivered in Grade 8 and Level 2 in Grade 9 or both levels can be combined in Grade 8 or Grade 9
- provide schools with an opportunity to design their own junior high courses by choosing areas of study based upon facilities, equipment and student interest.

Senior High Knowledge and Employability Courses

All Knowledge and Employability courses are designated 5-credit courses. This helps to align Knowledge and Employability courses with other senior high school courses. Some students taking Knowledge and Employability courses may wish to complete an Alberta High School Diploma rather than a Certificate of High School Achievement. These students are expected to meet the specified Alberta High School Diploma graduation requirements.

In the Knowledge and Employability senior high occupational courses there are 12 career strands in the areas of: Art/Design and Communication, Auto Mechanics, Business Services, Construction: Building, Construction: Metal Fabrication, Cosmetology, Fabrics, Foods, Horticulture, Human Care, Natural Resources and Workplace Readiness. Workplace Readiness 10-4 may be used in lieu of CTR1010 as the prerequisite for the first Work Experience course.

All courses are offered for 125 hours and 5 credits; however, courses may be combined to allow for further instruction or off-campus experiences. Marks and credits must be reported separately for each course that has been combined. For information about occupational course combinations and off-campus experiences, refer to the *Information Manual for Knowledge and Employability Courses, Grades 8–12, 2006*.

Locally Developed/Acquired and Authorized Junior and Senior High School Complementary Courses^①

Policy 1.2.1

Alberta Education is committed to ensuring that all students have access to a quality education. Locally developed/acquired junior and senior high school courses provide instructional opportunities that complement provincial programs of study. This policy enables school authorities to be innovative and responsive to local and individual needs through the development and authorization of courses at the local level.

Prior to submitting a senior high school course to the school authority for approval, the course outline will be forwarded to the Director of the Curriculum Branch for review regarding overlap with provincial curriculum.

School authorities shall forward all **completed**^② authorizations and course outlines of credit courses (including second language courses) to the Director of the Curriculum Branch by:

- May 31 for implementation in the first semester of the following school year, or
- December 31 for implementation in the second semester of the same school year.

① The waiver prerequisite provision does not apply to any locally developed/acquired and authorized senior high school complementary courses.

② Completed authorizations for senior high school credit courses include the board motion—which is requested from the local board/authority after Alberta Education has reviewed the course outline for significant overlap with provincial courses/programs of study—the final version of the locally developed and authorized course outline, and, if a course is acquired from another authority, a letter of permission from the developing board granting permission to your authority to use or adapt their course. Please allow six weeks for Alberta Education to review.

Locally developed/acquired courses must be locally authorized before being offered to students.

For procedures and criteria for meeting the expectations of locally developed/acquired and authorized courses, refer to Policy 1.2.1 – Locally Developed/Acquired and Authorized Junior and Senior High School Complementary Courses in the *K–12 Learning System Policy, Regulations and Forms Manual*.

Information on Courses

For current information on what locally developed/acquired and locally authorized courses are being offered in the province, contact the Curriculum Branch.

International Baccalaureate and Advanced Placement

School authorities offering the International Baccalaureate (IB) or Advanced Placement (AP) courses as locally developed courses must have them reviewed by Alberta Education. Only those school authorities authorized to offer International Baccalaureate courses are permitted to teach locally developed IB courses. Only those schools authorized to offer Advanced Placement are permitted to teach locally developed AP courses.

Religious Studies

School Act, Section 50
Policy 1.2.1
Policy 1.2.2

Religious studies may be offered at the discretion of the school board under section 50 of the *School Act*.

School authorities developing or acquiring religious studies courses are to continue to follow Locally Developed Religious Studies Courses Policy 1.2.2 and Locally Developed/Acquired Policy 1.2.1. To be authorized, courses must be submitted to the Director of Curriculum Branch for review before a course code will be provided.

All school authorities wishing to continue offering locally developed religious studies courses for credit need to submit their requests for reauthorization to the Director of Curriculum Branch every three years.

For more information on locally developed/acquired and locally authorized junior and senior high school complementary courses, refer to the *K–12 Learning System Policy, Regulations and Forms Manual*.

Mathematics

Calculator Policy for Mathematics

To ensure compatibility in Alberta's programs of study for senior high school mathematics, Alberta Education expects students to use calculators in their day-to-day studies as well as when writing diploma examinations in mathematics and sciences.

In 1996, Alberta Education informed schools that the two new senior high school programs—Applied Mathematics 10–20–30 and Pure Mathematics 10–20–30—require graphing calculators. School authorities decide whether to have students purchase calculators, make rental calculators available like textbooks, provide class sets or loan calculators through the school library.

For further information, see the *General Information Bulletin: Diploma Examinations Program*, or contact Learner Assessment.

Mathematics Preparation 10

Mathematics Preparation 10 can be offered in senior high school to those students who have not experienced success in Grade 9 mathematics. Mathematics Preparation 10 leads to both the applied and pure mathematics sequences and may be offered for 3 or 5 credits. A 3-credit course may be offered for 62.5 hours of instruction and will be funded at 2.5 CEUs.

Music— Private Study

When a student requests music credits for private study, in voice or an instrument, a principal may grant 5 credits for each of:

- Choral Music 10 for voice or Instrumental Music 10 for an instrument
- Choral Music 20 for voice or Instrumental Music 20 for an instrument
- Choral Music 30 for voice or Instrumental Music 30 for an instrument.

Students are not to receive credits for both school music and music by private study when those programs are both instrumental or both choral [voice]. The maximum credits a student can earn in either a Choral Music 10–20–30 program or an Instrumental Music 10–20–30 program is fifteen. For example, a student cannot earn 15 credits in instrumental school music and another 15 credits in instrumental private study. This does not affect locally developed/acquired and locally authorized courses.

Credits for work in private music study completed in previous years may be applied to courses in advance of the student's current grade level.

If a student presents an official transcript verifying that he or she has achieved the outcomes required for the equivalent of a 30-level credit, the principal is to recommend the awarding of a maximum of 15 credits in music (5 each for 10-level, 20-level and 30-level), whether or not the student has documentation for all the required components for equivalent credits for the 10 and 20 levels.

Similarly, if a student has achieved the outcomes required for 20-level equivalency, the principal is to recommend the awarding of 10 credits in music (5 for the 10-level and 5 for the 20-level). The chart on the following page provides the information necessary for principals to recommend credits for music taken by private study.

The principal is to evaluate the documents and submit a course mark evaluation record for each course to Learner Records and Data Exchange. Electronic submission of this information using Edulink is encouraged; however, a High School Evaluation form can also be forwarded to Learner Records and Data Exchange. Evaluation forms can be obtained from the Alberta Education Extranet Web site under Tools and Software.

To obtain credit, students are to have passed both the practical and theory components listed in the chart for that course level. Marks submitted by schools to Alberta Education should be calculated for each course level as follows:

Practical Component (Course Level) – 70% of mark submitted
Other Components (Theory) – 30% of mark submitted

Principals are to recommend credits only on the basis of official transcripts as issued by Conservatory Canada, the Royal Conservatory of Music or Mount Royal College, Calgary. Diplomas, photocopies of diplomas or photocopies of transcripts are themselves insufficient for evaluation purposes.

In those instances where a student does not provide an official transcript for each lower course level being evaluated, the principal is to report a mark of “P” for pass, rather than a percentage score, when recommending the awarding of waived credits.

**COURSES FOR WHICH CREDITS MAY BE RECOMMENDED
FOR MUSIC TAKEN BY PRIVATE STUDY
Revised 2003**

		10-level Courses	20-level Courses	30-level Courses
Conservatory Canada	Voice ^①	Grade 6 + Theory II	Grade 7 + Theory III	Grade 8 + Theory IV
	Electronic Organ, Pipe Organ, Organ	Grade 6 + Theory II	Grade 7 + Theory III	Grade 8 + Theory IV
	Piano, Strings, Guitar ^②	Grade 6 + Theory II	Grade 7 + Theory III	Grade 8 + Theory IV
	Woodwind, ^③ Brass ^④	Grade 6 + Theory II	Grade 7 + Theory III	Grade 8 + Theory IV
Royal Conservatory of Music	Voice ^①	Grade 6 + Theory I	Grade 7 + Theory II	Grade 8 + Theory II
	Piano, Strings, ^② Accordion, Guitar, Organ	Grade 6 + Theory I	Grade 7 + Theory II	Grade 8 + Theory II
	Woodwind, ^③ Brass, ^④ Percussion, Recorder	Grade 4 + Theory I	Grade 6 + Theory II	Grade 8 + Theory II
Mount Royal College, Calgary	Voice ^①	Grade 4 + Theory I	Grade 6 + Theory II	Grade 8 + Theory II
	Piano, Strings ^②	Grade 6 + Theory I	Grade 7 + Theory II	Grade 8 + Theory II
	Woodwind, ^③ Brass, ^④ Percussion	Grade 4 + Theory I	Grade 6 + Theory II	Grade 8 + Theory II

① All voice courses count as Choral Music 10–20–30 respectively for senior high school credits. All other courses are to be used for Instrumental Music 10–20–30 respectively.

② Strings include violin, viola, violoncello and double bass only.

③ Woodwind includes flute, oboe, bassoon, clarinet and saxophone only.

④ Brass includes trumpet, horn (French horn), trombone, euphonium and tuba only.

Off-campus Education

Policy 1.4.3

Alberta Education's three-year business plan encourages schools and teachers to take advantage of different delivery options, such as distance education and workplace learning. The Off-campus Education Policy 1.4.3 supports efforts made to enhance and expand learning through the use of community resources. The policy includes a number of programs and a range of instructional and delivery strategies. The Off-campus Education Policy supports:

- the use of off-campus initiatives across the curriculum; that is, courses and course components in both core and optional subject areas
- the issuing of senior high school credit for workplace learning that is approved by the school and by the employer.

Specific procedures and legislation about off-campus education programs are provided in the *Off-campus Education Guide for Administrators, Counsellors and Teachers, 2000* and the *K–12 Learning System Policy, Regulations and Forms Manual*.

The Off-campus Education Policy should be referred to when programming for:

- Integrated Occupational Program courses
- Knowledge and Employability courses
- Registered Apprenticeship Program
- Work Experience 15, 25 and 35
- Green Certificate
- Career and Technology Studies.

Program components include:

- community partnerships
- job shadowing
- mentorships
- work study.

Registered Apprenticeship Program

The Registered Apprenticeship Program (RAP) is a program for students, 15 years of age or older, in which they spend part of their time in school and part of their time in industry as registered apprentices in one of Alberta's 50 designated trades.

Students enrolled in the Registered Apprenticeship Program are paid by their employers. Students enrolled in Work Experience Courses may be paid by the employer at the employer's discretion.

Information about RAP may be obtained from the *Registered Apprenticeship Program: Information Manual*, from the Curriculum Branch or from the nearest Apprenticeship and Industry Training Office, Alberta Advanced Education.

Additional information, course sequences and course codes and names for RAP are contained in Appendix 2 of the *Guide*.

Work Experience 15, 25 and 35 Policy 1.4.3

Work Experience is available to students 15 years of age or older. Work experience education is addressed in the Off-campus Education Policy 1.4.3.

1. Each of the Work Experience 15, 25 and 35 courses, at each level, may be offered for 3, 4, 5, 6, 7, 8, 9 or 10 credits. Students may earn any number of credits in work experience, but only 15 credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.
2. Career Readiness courses are available within the Career Transitions strand of the Career and Technology Studies program. These courses are linked to the Work Experience 15, 25 and 35 courses, as follows.
 - The introductory course, CTR1010: Job Preparation, is a required course for the first work experience course taken by a student. Students enrolled in Knowledge and Employability courses may use Workplace Readiness 10-4 in lieu of CTR1010 as the prerequisite.
 - The intermediate course, CTR2010: Job Maintenance, is a recommended course for the second work experience course taken by a student.
 - The advanced course, CTR3010: Preparing for Change, is a recommended course for the third work experience course taken by a student.

The following procedures associated with previous work experience education courses are retained:

- Each work experience course is to be time-based; i.e., 25 hours per credit. The exception is that 3-credit courses are to be offered for 62.5 hours and will be funded at 2.5 credit enrollment units.
- A student may enroll in Work Experience 35 without having completed Work Experience 15 and/or Work Experience 25.

-
- A student completing Work Experience 35 for 10 credits will have met the “10 credits in any 30-level courses” graduation requirement for the Alberta High School Diploma.
 - The provision of credits for waived prerequisite courses, as outlined in the *Guide*, does not apply to Work Experience 15, 25 and 35. Nor does the course challenge provision apply.

The board shall be responsible for ensuring that course content, where available, is followed and where necessary, developed and that off-campus education courses approved by the board shall specify outcomes for each student, as covered in Procedure 4 and Procedure 5 of the Off-campus Education Policy.

It is recommended that learning plans be developed for students enrolled in a work experience course through consultations among the teacher, student and employer.

A summary of competencies for each participating student outlines for employers the expectations that go along with participation in the program. It is recommended that the teacher sit down with the on-site supervisor and attempt to identify the tasks the student is expected to perform. These tasks will form the basis of the student assessment by the on-site supervisor with the teacher.

 Sample Learning Plan Templates are provided in the *Off-campus Education Guide for Administrators, Counsellors and Teachers*, 2000.

Reporting Work Experience Credits

 When schools report work experience marks and credits to Learner Records and Data Exchange, they are to report the marks and credits given for career transitions courses separately as career and technology studies. For example, a student who took work experience for a total of 6 credits, which included the required CTR1010 course, should be reported as having taken a 1-credit CTS course and a 5-credit Work Experience 15 course.

Work Study/ Community Partnerships

Work study and community partnerships are components of other courses and are integrated into the teaching and experiential learning activities under the cooperative supervision of teacher–coordinators and employers.

Work Study

Work study education provides an opportunity for junior and senior high school students to apply the knowledge, skills and attitudes they have acquired in course work to real-life situations through a school–community partnership arrangement.

Work study includes experiential learning activities undertaken by a student as an integral part of an approved school course or program and under the cooperative supervision of the subject area teacher–coordinator and the employer.

It is recommended that junior high school work study take place between 8:30 a.m. and 4:30 p.m., Monday through Friday.

Community Partnerships

Community partnerships are based on the belief that educators can enhance student learning experiences by bringing the community into the school and by placing students out in the community.

Using the expertise, talent and resources of community-based service organizations and agencies, and of business, industry, citizen groups and parents, schools can enrich the educational experiences of students. School authorities are encouraged to develop policies respecting community partnerships and business involvement in education. For more information, see Partnerships between School and Community under the General Principles for Effective Programming in the Vision, Mission and Basic Education section.

Students may be introduced to the concept of community partnerships through such activities as:

- inviting members of the community into the school as guest speakers or to give demonstrations
- involving community members in special events, such as career days or education week
- touring local businesses and industries
- sharing resources, such as films, videos, booklets, pamphlets, equipment or specialized laboratory facilities
- participating in programs, such as work study, job shadowing or mentorships
- participating in community service activities.

Community partnerships included in the Knowledge and Employability courses are addressed in the *Information Manual for Knowledge and Employability Courses, Grades 8–12, 2006*.

Physical Education

The aim of the Kindergarten to Grade 12 physical education program is to enable individuals to develop knowledge, skills and attitudes necessary to lead an active, healthy lifestyle.

Exemptions

To meet the aim of the physical education program, it is recommended that a variety of movement experiences be provided in all dimensions (i.e., alternative environment, dance, games, types of gymnastics and individual activities). In the following specified circumstances, exemptions may be warranted from one or more dimensions and/or a physical education course.

Category	Conditions for Exemption	Procedures	Other Experiences
INDIVIDUAL	Religious beliefs	<ul style="list-style-type: none"> Statement in writing from parent to principal 	<ul style="list-style-type: none"> When exemption is granted, other activities consistent with the aim and outcomes of the program should be substituted, where appropriate.
INDIVIDUAL	Medical	<ul style="list-style-type: none"> Certification to principal by medical practitioner with statement of activities in which the student is not able to participate 	
INDIVIDUAL	Out-of-province Grade 12 student who is to graduate in the school year the student transfers into an Alberta school	<ul style="list-style-type: none"> Principal reports exemption to Learner Records and Data Exchange by April 30 in the year of the student's anticipated graduation 	
CLASS, GRADE OR SCHOOL	Access to facilities	<ul style="list-style-type: none"> Initiated by school authority or parent Approved by school authority 	

When a Grade 10 student is unable to meet the requirement for Physical Education 10 for medical reasons, every effort should be made to meet this requirement during the Grade 11 or Grade 12 year.

Notice of a student's exemption from Physical Education 10 is to be reported by the principal to Learner Records and Data Exchange by April 30 in the year of the student's anticipated graduation.

Students exempted from the Physical Education 10 requirement are still to acquire the total number of credits required for graduation.

Home Education Regulation

School Act, Section 29

A.R. 145/2006

Policy 1.1.2

The results for Physical Education 10, taken through a home education program, may be submitted to Alberta Education as a pass or fail, in accordance with section 6 of the Home Education Regulation.

Special Projects Credits

Special projects credits are designed for work undertaken by students on an individual or small group basis and should not be used as a means of offering credits for unapproved courses. Students may enroll in Special Projects 10, 20 or 30. Special Projects 20 and Special Projects 30 do not have prerequisites.

Purpose

Special projects serve two major functions:

- Students become involved in the selection, planning and organization of their own programs.
 - Students pursue activities in which they have considerable interest or ability but which are not within the scope of the regular curriculum or the programs being offered in the school.
-

Requirements

The requirements for special projects credits are outlined below^❶.

- **Each project shall be carried out under the supervision of a staff teacher in the school.**
- **Students are required to submit a clearly planned proposal to the principal for approval**, which should include:
 - description or outline of the project
 - number of hours of work expected to complete the project
 - method by which the project is to be carried out
 - description of expected learner outcomes
 - evaluation procedures as outlined by a teacher
 - completion date expected
 - name of the supervising teacher.
- **The principal shall retain a copy of each special project proposal.**
- **The content of the special project need not be related to a specific school subject.**
- **If a special project is related to a specific school subject, the content of the project shall be distinct from, and in addition to, regular course requirements.**

❶ 4-H projects may qualify as special projects as long as they meet the requirements indicated. A student may not present a 4-H finished project for credit without following the requirements indicated.

- Projects shall be completed and reported to the principal prior to the conclusion of the semester or full term.
- Where a project takes a student off campus, the provisions of the Off-campus Education policy shall apply (see *K–12 Learning System Policy, Regulations and Forms Manual*).
- Students who successfully complete projects are granted 3 credits for 62.5 hours of work or 5 credits for 125 hours of work in any one semester, or full term, on the approval of the principal. Three-credit special projects courses will be funded at 2.5 credit enrollment units (CEUs).
- Special projects also may be offered for 1, 2 or 4 credits. Credits will be awarded for successful completion in any one semester, or full term, on approval of the principal. These special projects courses will be funded at 1 credit enrollment unit, per course credit, for each 25 hours of instruction.
- School authorities shall develop policies to ensure overall consistency and standardization of procedures governing special projects in their schools. Evaluation and reporting procedures should be included in the policy.
- Special projects credits may be applied toward the Alberta High School Diploma. A student completing Special Projects 30 may use these credits to partially fulfill the “10 credits in any 30-level courses” graduation requirement for the Alberta High School Diploma.

A number of restrictions apply to special projects. Examples where special project credits cannot be earned include:

- **student activities that would be considered a normal part of extracurricular or cocurricular activities generally offered by a school; e.g., school team sports, school newspaper, yearbook, field trips**
- **in-school work experience**
- **teacher-developed projects**
- **instances where a student enrolls in more than one special project, credits shall not be approved unless the projects vary substantially from year to year or demonstrate increased levels of proficiency.**

Transfer Points (Recommended) and Course Sequences

Provincially developed programs are designed to accommodate transfer between course sequences at particular points. Also see Course Sequence Transfer in the Awarding Course Credits section.

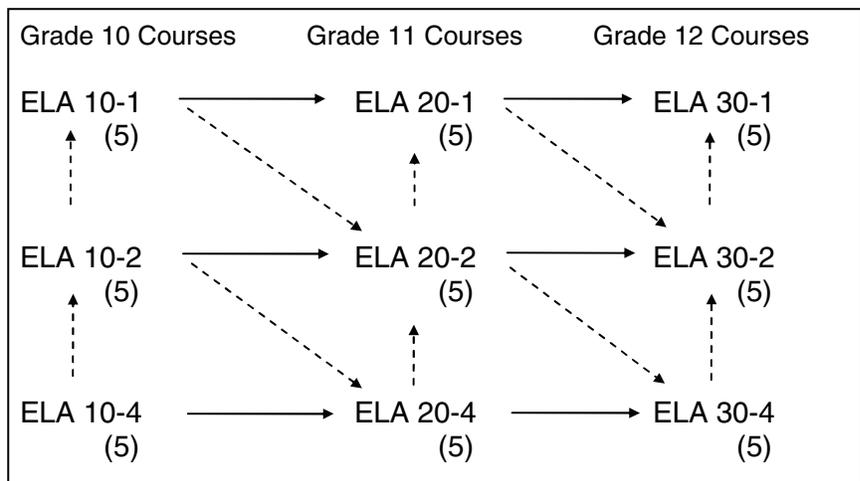

Special circumstances may warrant student transfer at other points in the curriculum; however, the standard transfer points are as follows for:

- English Language Arts Program
- Français Program
- French Language Arts Program
- French as a Second Language Program
- Mathematics Program
- Science Program
- Social Studies Program
- Knowledge and Employability occupational courses to Career and Technology Studies courses.

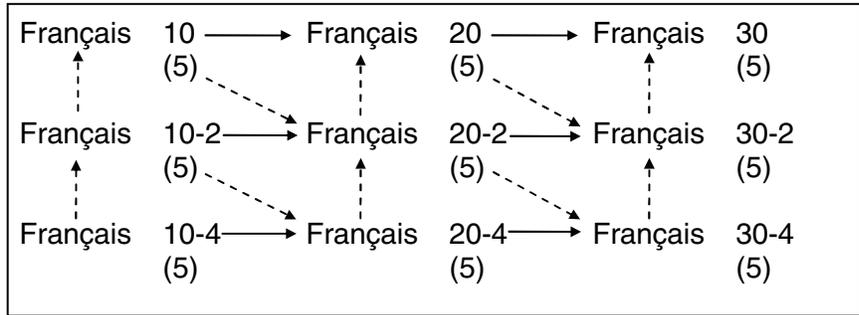

Students generally take the prerequisite in a course sequence, e.g., English Language Arts 10-1, 20-1, 30-1. This route is designated by solid arrows. However, Alberta Education recognizes that students may transfer between course sequences and these recommended routes are designated by broken arrows.

The school authority shall have a policy that clearly states the criteria to be met by a student who wishes to change program routes.

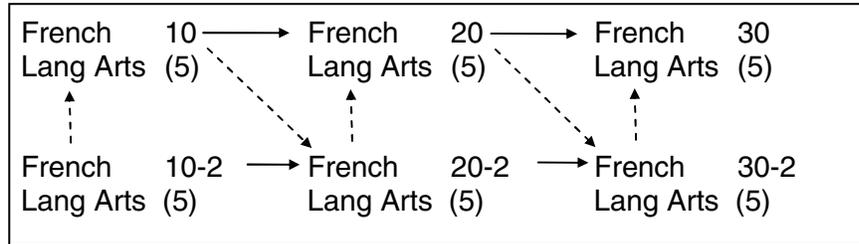

English Language Arts (ELA) Program

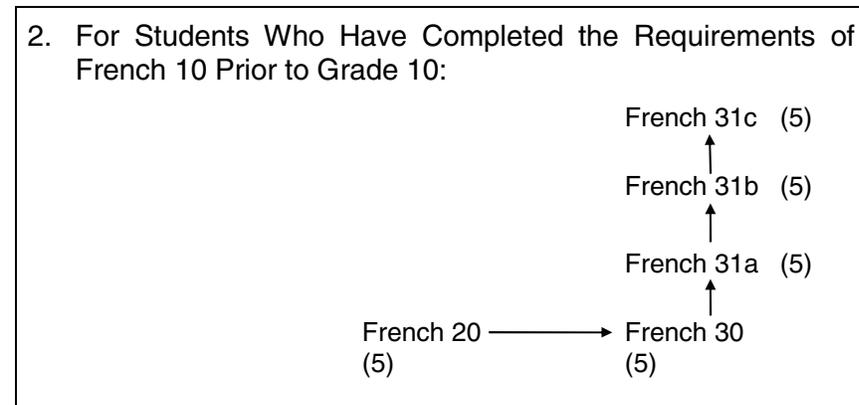

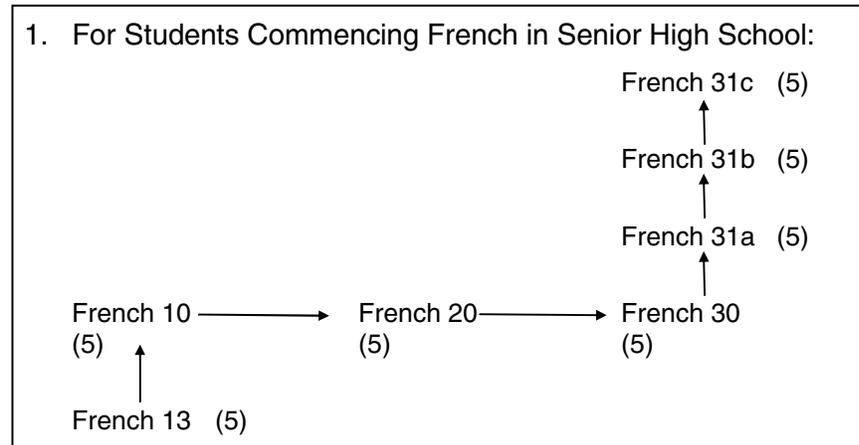

**Français Program
(Francophone Schools)**

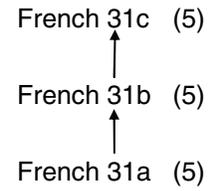

**French Language
Arts Program
(French Immersion Schools)**

**French as a Second
Language Program**

3. For Students Who Have Completed the Requirements of French 30 Prior to Grade 10:

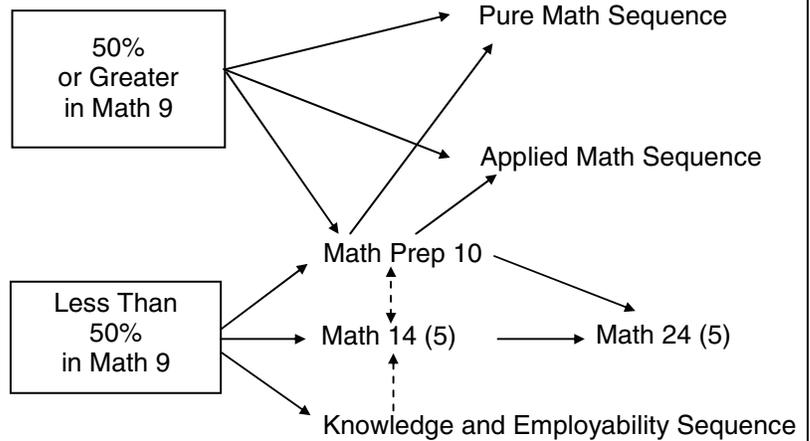

4. For Students Who Have Completed Grade 9 French Upon Entering Grade 10

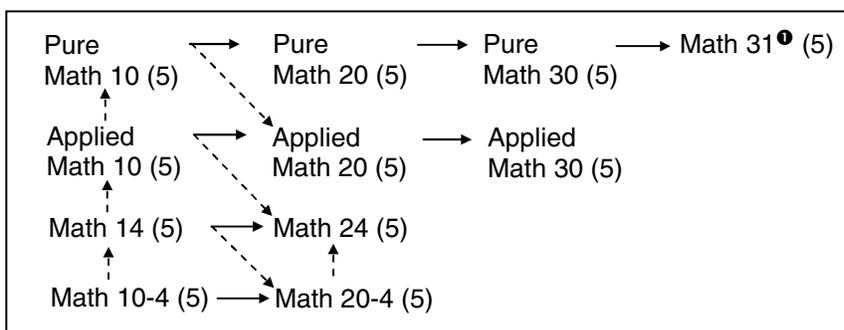

Mathematics Program

Possible Sequences

For Students Who Entered Grade 10 in September 1998 or Subsequent School Years:

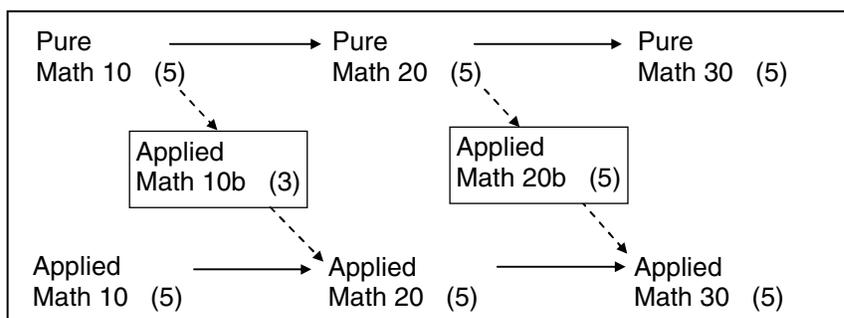

Mathematics Course Sequences

● Pure Mathematics 30 is a prerequisite or corequisite for Mathematics 31.

Note: To transfer between Pure Mathematics and Applied Mathematics sequences, see diagrams below.

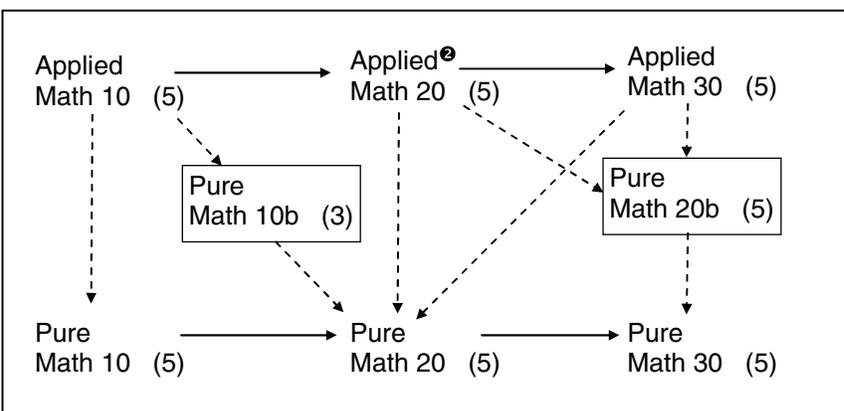

Transferring from Pure to Applied

Note: A minimum of three courses is always required to complete the sequence to the 30-level.

Although the recommended transfers from pure mathematics to applied mathematics are through bridging courses, in some cases, students may move directly from the lower level of pure mathematics to the next level of applied mathematics, as serves the student's best interests.

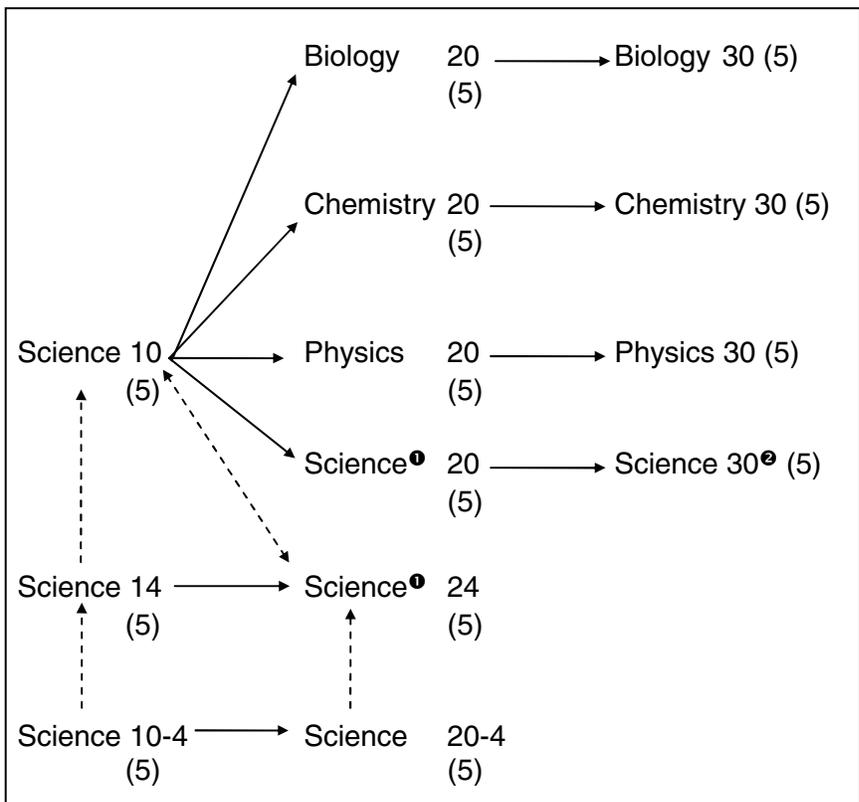

Transferring from Applied to Pure

● A mark of 75% or greater in Applied Mathematics 20 is recommended for students transferring to Pure Mathematics 20.

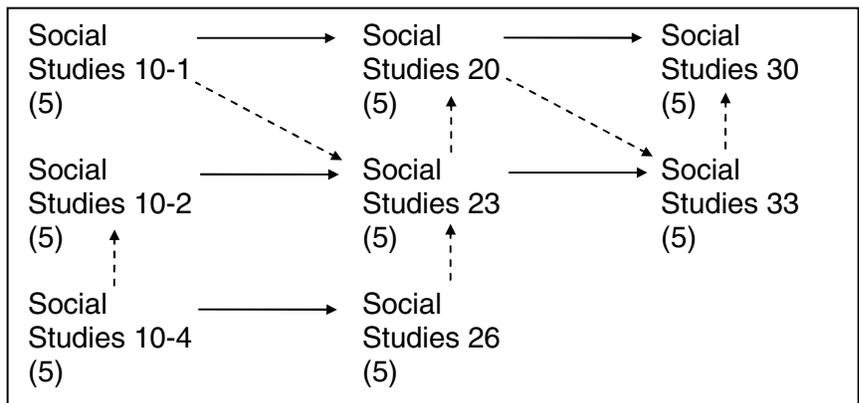

Note: A minimum of four courses is always required to complete the sequence to the 30-level.

Science Program

- ❶ Although the recommended transfer point from Science 24 is to Science 10, in exceptional cases students may be placed by the principal in 20-level courses, as serves the student's best interests.
- ❷ Students who have passed Biology 20, Chemistry 20, Physics 20 or Science 20 (50% or greater) may enroll in Science 30.

Social Studies Program

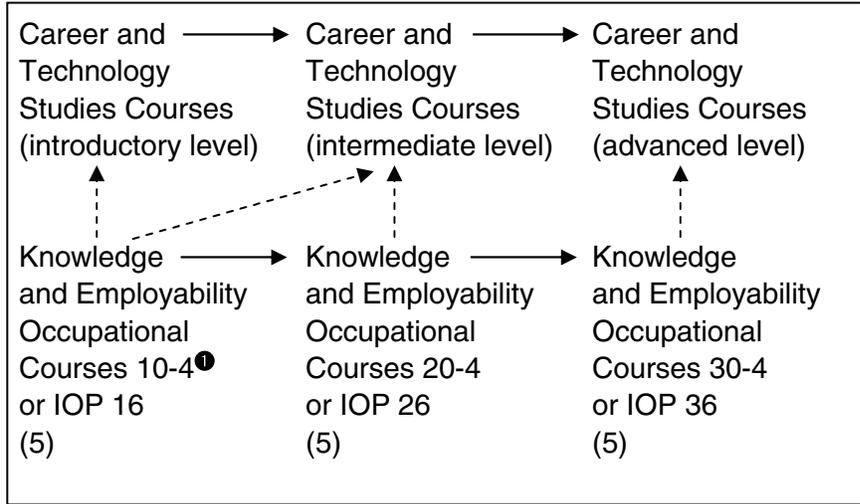

Note 1: Social Studies 30 and Social Studies 33 may be taken in the same semester. If this occurs, it is the responsibility of the student to ensure that appropriate arrangements are made to write both diploma examinations.

Note 2: The implementation schedule for Social Studies 20-1, 20-2, 20-4, 30-1, 30-2 and 30-4 can be accessed on the Alberta Education Web site.

Knowledge and Employability Courses to Career and Technology Studies Courses

- ❶ Transfer from a 10-4 Knowledge and Employability occupational course or 16-level IOP occupational course directly to an intermediate-level career and technology studies course may be considered where there is content relevancy and prerequisite requirements are met.

Administrators may refer to the Senior High School Graduation Requirements section for more information regarding student transfer to the Alberta High School Diploma route.

PROGRAM ADMINISTRATION:

Instructional Delivery

Introduction

Various forms of instructional delivery are available to meet the educational needs of children and students. Information in this section is presented under two headings, Instructional Delivery Options and Considerations for Instructional Delivery. Instructional Delivery Options includes information on programs of choice. Considerations for Instructional Delivery Options includes information on guidance and counselling, school library programs and special education. The section concludes with a number of directives that relate to the provision of safe and caring schools.

Instructional Delivery Options

Choice is an important principle in Alberta's educational system. School authorities have the flexibility to deploy resources and use any method of instructional delivery as long as Alberta Education standards are achieved. School authorities are encouraged to take advantage of the resulting programs of choice as well as the use of technology, distance learning and the workplace. Parents can access a number of instructional delivery options for their children. Programs of choice such as alternative programs, blended programs, charter schools, distance learning, home education, online delivery and outreach programs are highlighted in this section.

Alternative Programs

School Act,
Section 10, 21(1)(4)
Policy 1.1.5

Section 21(1) of the *School Act* states that an alternative program is an education program that:

(a) emphasizes a particular language, culture, religion or subject-matter, or

(b) uses a particular teaching philosophy,

but is not a special education program, a program referred to in section 10 or a program of religious education offered by a separate school board.

Section 21(4) states that boards may charge parents enrolling a student in the alternative program a fee to defray all or a portion of any non-instructional costs that the board may incur by offering the alternative program and that are in addition to the board's regular education program costs.

For further information on alternative programs, see the *Alternative Programs Handbook* or contact Field Services.

Blended Program

School Act, Section 29
A.R. 145/2006
Policy 1.1.2

A funded blended program is an education program that consists of two distinct parts:

- Part 1: a school provided program where a teacher employed by a school board or accredited-funded private school is responsible for providing the planning, resource selection, instructional delivery, assessment and evaluation of student progress in selected courses that follow the Alberta Programs of Study.
 - In grades 1 to 9, the courses must amount to at least 50% of the student's program.
 - In grades 10 to 12, the courses must amount to at least 20% of the student's program.
- Part 2: a home education program that meets the requirements of the Home Education Regulation.

School boards, or accredited-funded private schools, are not required to offer blended programs. The offering of blended programs is optional.

For more information on the requirements for the home education portion of the program, see the Home Education section of the *Guide*.

For further information on blended programs, contact Field Services.

Charter Schools

School Act, Sections 31–37

A.R. 212/2002

Policy 1.1.1

A charter school is a public school that provides innovative or enhanced means of delivering education to improve student learning. The proposed method of educational delivery that improves student learning must be supported by research. A charter school must have characteristics that set it apart from other public schools. A charter school is designed to meet the needs of a specific group of students through a specific program or approach. Charters are granted by the Minister and are term-specific.

A group interested in a charter school must first approach their local school board to determine if the group and the board can establish the innovative approach as an alternative program.

For further information on charter schools, see the *Charter Schools Handbook* or contact Field Services.

Distance Learning

Alberta Education designs, develops and produces distance learning courses and courseware through the Learning Technologies Branch (LTB). These are available for purchase from the Learning Resources Centre.

The Alberta Distance Learning Centre (ADLC) is operated by Pembina Hills Regional Division No. 7. Information on programs and services may be obtained directly from ADLC or found on their Web site at www.adlc.ca.

Home Education

School Act, Section 29

A.R. 145/2006

Policy 1.1.2

Home education is a program of choice and recognizes a parent's right to provide home education to his or her children.

A parent wishing to home educate his or her child must notify any school board or an accredited-funded private school of his or her intent to home educate and request that the board or accredited-funded private school supervise the home education program. Notification of the intent to home educate can be made at any time during a school year.

A board that consents to supervise a home education program is referred to as an associate board. An accredited-funded private school that consents to supervise a home education program is referred to as an associate private school. An associate board or associate private school will review the completed notification form and the education plan developed by the parent and make a decision within 15 school days.

Associate boards or associate private schools must notify parents of any implications that a home education program may have on a student's eligibility to be granted high school credits. Associate boards and associate private schools must develop a policy that includes guidelines for a home education student's participation in school and extracurricular activities.

Home education must be based on a program that is prescribed, authorized or approved by the Minister or a program designed by the parent. Parents can choose curriculum resources and methodology that are consistent with the family's religious and conscientiously held beliefs. If the parent designs a program that does not follow the Alberta Programs of Study, the parent must declare that the program is consistent with the student learning outcomes listed in the schedule in the Home Education Regulation. Parents may ask the associate board or associate private school for assistance in developing a home education plan or program.

Teachers are to be assigned to home education to facilitate student learning by offering assistance and advice to the parent. Teachers are required to conduct at least two evaluations in each school year, including a review of the student portfolio with the parent at least twice a year. Associate boards and associate private schools are required to provide a written report of the student's progress. This written report is included in the student's record. Grade 3, 6 or 9 home education students must be offered the opportunity to write the appropriate provincial achievement tests.

If an associate board or associate private school terminates a home education program, it is responsible for the student's education for the remainder of the school year and must make suitable arrangements for the student's access to an education program.

For further information on home education, contact Field Services.

Online Delivery

An online program is a structured learning environment in which students access educational programs electronically. The planning, implementation and assessment of instruction is the responsibility of certificated teachers employed by a school board or by an accredited private school. Online program providers must ensure elementary and junior high school students have access to a minimum of 950 hours of instruction and senior high school students have access to a minimum of 1000 hours of instruction for Alberta courses and programs of study.

School authorities providing instruction through online delivery should develop policies and/or procedures on a variety of issues prior to program implementation. Specifically, school authorities should consider:

- how student attendance is to be defined
- the role of parents in instruction, assessment and supervision of student work
- staffing levels
- time frames for student access to the instructional expertise of teachers
- student evaluation practices
- requirements for program access by students living outside Alberta
- program decisions; e.g., self-paced or teacher controlled
- how to deliver all outcomes of Alberta programs of study
- provision for writing achievement tests and diploma examinations
- program and teacher evaluation
- how to provide alternative forms of program delivery for non-resident students who are experiencing difficulty in the online environment.

Outreach Program

Policy 1.1.4

An outreach program provides an educational alternative for students who, due to individual circumstances, find that the traditional school setting does not meet their needs. The program allows students to access resources that improve their ability to succeed academically and socially. A flexible approach is taken to teaching and learning in recognition of individual student needs.

Outreach programs serve students of junior and senior high school age. For complete funding information, see the *Funding Manual for School Authorities*.

Outreach programs must be offered in a stand-alone facility, separate from a building already in use as a school. The facility must meet Alberta building, health and safety standards for school buildings. The school board must ensure that its liability insurance extends to the stand-alone facility for the Outreach Program.

A school board motion must grant approval to the school to offer the program. To support implementation, the school board must develop a written policy addressing, at a minimum, student eligibility, attendance requirements and performance expectations.

The Outreach Program must provide students with educational services that are in addition to distance learning courses and materials. Examples of such services are personal and career counselling, conflict resolution, anger management training, time management training and study skills.

School authorities choosing to run their Outreach Program as a school will be required to meet the legislative and policy requirements associated with operating a school; e.g., designating a school principal, establishing a school council, preparing annually a school three-year education plan and a school annual results report, following the school closure regulation and other regulations.

Applications for approval to begin new outreach programs must be submitted by March 31 to the appropriate Zone Services Branch Director using the form provided in the *Funding Manual for School Authorities*. Alberta Education may not approve all applications. Once granted, funding is ongoing.

Considerations for Instructional Delivery

A number of programs and services exist in schools to help students meet their developmental and learning needs. This section highlights guidance and counselling, school library programs and special education. Those responsible for the implementation of education programs and the operation of schools must consider a number of matters related to the provision of a safe and caring learning environment for students. Information is given about controversial issues, HIV/AIDS in educational settings and the use of human tissue and fluid in educational programming.

School Guidance and Counselling Programs and Services

The comprehensive school guidance and counselling program is centred on helping individual students meet their growth and developmental needs—educational, personal, social and career. Delivery of these programs is collaborative and multidisciplinary, involving the school counsellor and other school staff. Program success is based on a close partnership among school, home and community. The four components of the comprehensive approach are:

- developmental guidance instruction
- individual student planning
- responsive services
- school/community support.

School boards, accredited-funded private schools and charter schools are expected to implement the *Comprehensive School Guidance & Counselling Programs and Services: Guidelines for Practice—A Program Development and Validation Checklist*, 1997, which reflects the content of the comprehensive approach to guidance and counselling in schools. Schools and school authorities are expected to use the guidelines to monitor and evaluate their guidance and counselling programs and services.

School Library Program

Students in Alberta schools should have access to an effective school library program that is integrated with instructional programs. Such library programs improve student opportunities for achieving a basic education.

Student learning experiences should integrate information retrieval and research skills. These skills are learned best within the curricula. To promote integration, opportunities for cooperative planning between teachers and teacher-librarians should be provided.

In an integrated school library program, the services and activities are not peripheral or supplementary to the school's instructional program; they are an essential and dynamic part of it. The integrated library program widens, deepens and personalizes learning by involving students in the planned and purposeful use of resources. Library resources are designed to help students expand their abilities to find, generate, evaluate and apply information. Developing these information skills will, in turn, prepare students to function effectively as individuals and as full participants in society.

An integrated school library program attends not only to its formal instructional role, but also to its function as a centre for informal learning. As a resource centre, the school library should be a place where students can pursue their individual educational interests.

For more information, see *Focus on Inquiry: A Teacher's Guide to Implementing Inquiry-based Learning*, 2004.

Early Childhood Special Education

School Act, Section 30

A.R. 31/2002

Policy 1.1.3

Standards for the Provision of Early Childhood Special Education (2006)

Alberta Education supports the education of children with special education needs. Section 30(1) of the *School Act* states that a board or, with the approval of the Minister, a person may provide an early childhood services program to a child who, as of September 1, is younger than 6 years of age, if the parent of the child agrees, or a student, if the parent of the student and the board are of the opinion that the program will benefit the student.

Children with mild, moderate and severe special education needs, including those who are gifted and talented, require specialized learning opportunities to achieve their full potential. The *Standards for the Provision of Early Childhood Special Education* (2006) outlines school authority program delivery requirements and expectations that support Alberta Education's objective of providing consistent direction while supporting flexibility and discretion at the local school authority level.

A child attending an ECS program is not considered a resident of the board, or entitled to any of the rights or benefits given to a student under the *Act*.

Early Childhood Service Policy 1.1.3 (10) requires a school authority operating an ECS program to accept and organize programming for all children with special education needs who meet eligibility criteria, and for whom special education programming is requested.

A special education program:

- is based on an individualized program plan (IPP); all children with special education needs, including children who are gifted and talented, require IPPs
- provides parents with opportunities to participate in decisions affecting their children's ongoing education programming
- may be provided in a variety of settings

-
- is based on the results of continuous assessment and evaluation
 - provides for programming that is individually and developmentally appropriate
 - includes a collaborative approach to ensure coordinated service delivery when other agencies and service providers are involved.

For more information regarding special education programs for children with special education needs, contact Special Programs Branch.

Special Education for Students

School Act, Sections 45, 47
Ministerial
Order No. 015/2004

Students with mild, moderate and severe special education needs and those who are gifted and talented, require specialized learning opportunities to achieve their full potential. The *Standards for Special Education, Amended June 2004* is a ministerial order that applies to public and separate school boards and designated special education private schools. It outlines program delivery requirements and expectations that support Alberta's objective of providing consistent direction while supporting flexibility and discretion at the local level.

Alberta Education supports the education of students with special education needs. Sections 45 and 47 of the *School Act* outline board responsibilities related to students and special education programs. School boards are responsible for assessing student needs and identifying appropriate programs. Parents have a right and responsibility to work with boards to ensure their children's special education needs are met subject to limitations based upon reasonableness in each circumstance.

A special education program:

- is based on an individualized program plan (IPP); all students with special education needs, including students who are gifted and talented, require IPPs
- may be provided in a variety of settings
- is based on, and modified by, the results of continuous assessment and evaluation
- provides for instruction appropriate to individual learning needs.

Students with special education needs taking curriculum courses for credit are expected to meet those course requirements.

For more information regarding special education programs and resources, contact the Special Programs Branch.

Requirements for Special Education in Accredited-Funded Private Schools

Private school operators in Alberta are not obligated to admit every student who seeks admission. However, once a private school decides to enroll a student with special education needs, Alberta Education requires the operator to provide appropriate programming for the school year in which the student is enrolled. *Requirements for Special Education in Accredited-Funded Private Schools* describes Alberta Education requirements for providing educational programming to students with special education needs in accredited-funded private schools.

Special Education Programming Information

Alberta Education has produced a number of special education resources that include information about the nature of special education needs and practical suggestions for the preparation of individualized program plans, instructional strategies and classroom management.

The resources include:

- *The Programming for Students With Special Needs* series
- *The Learning Team: A Handbook for Parents of Children with Special Needs*
- *Standards for Special Education, Amended June 2004*
- *Standards for the Provision of Early Childhood Special Education*
- *Requirements for Special Education in Accredited-Funded Private Schools*
- *Special Education Coding Criteria* (current version)
- *Handbook for the Identification and Review of Students with Severe Disabilities* (current version)
- *Essential Components of Educational Programming for Students with Autism Spectrum Disorders*
- *Essential Components of Educational Programming for Students with Behaviour Disabilities*
- *Essential Components of Educational Programming for Students Who Are Blind or Visually Impaired*
- *Early Childhood Services Program Unit Funding Handbook*
- *Standards for Psycho-Educational Assessment*

These resources are available for downloading from the Alberta Education Web site or purchase from the Learning Resources Centre.

Controversial Issues

Controversial issues are those topics that are publicly sensitive and upon which there is no consensus of values or beliefs. They include topics on which reasonable people may sincerely disagree. Opportunities to deal with these issues are an integral part of student learning in Alberta.

Studying controversial issues is important in preparing students to participate responsibly in a democratic and pluralistic society. Such study provides opportunities to develop the ability to think clearly, to reason logically, to open-mindedly and respectfully examine different points of view and to make sound judgements.

Teachers, students and others participating in studies or discussions of controversial issues shall exercise sensitivity to ensure that students and others are not ridiculed, embarrassed or intimidated for positions that they hold on controversial issues.

Controversial issues:

- represent alternative points of view, subject to the condition that information presented is not restricted by any federal or provincial law
- reflect the maturity, capabilities and educational needs of the students
- meet the requirements of provincially prescribed and approved courses and programs of study and education programs
- reflect the neighbourhood and community in which the school is located, as well as provincial, national and international contexts.

Controversial issues that have been anticipated by the teacher, and those that may arise incidentally during instruction, should be used by the teacher to promote critical inquiry and/or to teach thinking skills.

The school plays a supportive role to parents in the areas of values and moral development and shall handle parental decisions in regard to controversial issues with respect and sensitivity.

Directives

HIV/AIDS in Educational Settings Directive 4.1.1

This directive provides information and advice to school boards and regional health authorities in meeting their joint responsibility to provide educational programming to all eligible children and to protect the general public from communicable diseases.

Guidelines

Guidelines regarding HIV/AIDS are covered under the Communicable Diseases Regulation of the *Alberta Public Health Act*, and there is no legal basis on which to prevent children infected with HIV/AIDS from attending school.

A mechanism for ongoing communication between school boards and regional health authorities should be established. School authorities, with the assistance of local public health personnel, should develop policies consistent with provincial guidelines regarding HIV/AIDS and other infectious diseases. Such policies should be reviewed regularly by school boards and local health authorities, and regular communication should be maintained on all health matters.

Additional information on HIV/AIDS, or other health-related matters, is available from local health authorities located throughout the province.

Human Sexuality Education Directive 4.1.2

Human sexuality is taught at several levels in Alberta, including the Grade 4 to Grade 9 Health and Life Skills program and the senior high school Career and Life Management (CALM) course. The learning outcomes to be achieved by students are prescribed by Alberta Education through the programs of study.

Exemption from Human Sexuality Instruction

Principals will exempt students by parental request from Health and Life Skills and CALM classroom instruction and activities that involve learning outcomes specifically related to human sexuality sections of these courses.

For further information, see the Health and Life Skills Program of Studies (K–9), the Career and Life Management Program of Studies or contact the Curriculum Branch.

Use of Human Tissue and Fluid in Educational Programs

Alberta Education firmly believes that the safety and well-being of students, teachers and other school staff should be a first consideration in the selection of materials for study. Therefore, all activities involving the extraction and analysis of samples of human fluid or tissue are prohibited in Alberta schools.

For more information, refer to the document *Safety in the Science Classroom* (current version) available on the Alberta Education Web site, or contact the Learning and Teaching Resources Branch.

Student Assessment

ECS to Grade 9

Purpose of Assessment

A comprehensive assessment program provides relevant data for all important educational decisions related to learning: instruction, program improvement and public accountability. It includes a variety of assessments for different purposes.

The assessment of student progress in relation to the outcomes outlined in programs of study is important for the following reasons:

- The information on student progress is essential so that teachers can change or refine instructional plans to ensure learning activities are appropriate for all students.
- The information is required for reporting student progress clearly to students and parents.
- The information is used in making decisions regarding student placement.
- The information is required for the evaluation of program effectiveness and for the revision of programs to improve student learning.

Assessment as a Guide for Learning and Instruction

The assessment of student progress serves as a guide for learning and instruction. Knowledge about each student's current level of achievement is essential for planning learning activities to meet his or her learning needs.

This information should be collected in a variety of ways to provide feedback that is useful to student and teacher alike. To be most useful, the classroom assessment should have the following characteristics:

- It should be part of instruction and should clearly reveal to students what is expected of them.
- It should be an ongoing process rather than a set of isolated events, with the methods and instruments varied and used in a variety of contexts.
- It should focus on a broad range of outcomes, reflecting multiple dimensions of skill development.
- The measures should be appropriate to the student's development and cultural background.
- It should be constructive. It should focus on what a student can do, clearly identifying both strengths and areas of difficulty. It should encourage improvement in areas of difficulty, linking new learning to what a student already knows and can do.
- It should involve students in their own assessment. This gives them responsibility for their own learning and fosters lifelong learning.

Diagnostic Approaches to Instruction

The terms “diagnostic instruction” and “diagnostic teaching cycle” are often used to refer to instruction that is closely linked to assessment. Diagnostic instruction provides a means to ensure that learning difficulties are recognized early and that students receive the help they need. It also provides a means of confirming student learning so that more challenging activities can be provided as students become ready.

To assist teachers in applying diagnostic techniques, Alberta Education has developed the following materials that are available for purchase from the Learning Resources Centre:

- *Diagnostic Reading Program* (Grade 1 to Grade 6, 1986)
Resource materials include assessment instruments and descriptions of evaluation and instructional strategies.
- *Diagnostic Mathematics Program* (Grade 1 to Grade 6, 1990)
Resource materials provide guidance in the use of manipulatives, individual interviews and small group activities. The activities serve as a basis for both evaluation and instruction.
- *Evaluating Students' Learning and Communication Processes* (Grade 7 to Grade 10, 1993)
Resource materials provide a strategy for evaluating student skills in six communication processes: exploring, narrating, imagining, empathizing, abstracting and monitoring. To demonstrate these processes, diagnostic teaching units are included for language arts (Grade 7), science (Grade 7 and Science 14) and social studies (Grade 7, Grade 8 and Grade 9).

Assessment as the Basis for Communicating Individual Student Achievement

When students are placed in age appropriate groups for instruction, parents can become confused about the distinction between the grade in which their child is placed (the instructional group) and the grade level at which their child is actually working in various subjects; e.g., the child is placed in a Grade 4 class but is working at approximately the Grade 3 level in language arts. Where such confusion exists, parents can misinterpret information regarding their child's progress. They may think that indications of satisfactory progress are made with reference to the instructional group the child is in rather than to the grade level at which the child is working. The provision for Assessment as the Basis for Communicating Individual Student Achievement is intended to reduce this type of confusion and to support the professional responsibilities of teachers to provide clear communication in describing student progress.

Teachers shall ensure that information is effectively communicated to parents about:

- **what their child knows and can do in the courses being studied**
- **how well their child is doing in those courses**
- **the grade level(s) the child has achieved in relation to the grade levels of the provincial programs of study for language arts, mathematics, science and social studies.**

The provision does not restrict the communication of achievement to written reports, nor does it require schools to use a particular type of instructional grouping or placement policy.

Teachers must communicate the grade levels at which they judge a student to be working, in at least the four specified subject areas of the curriculum. The basis for their professional judgement in these matters also needs to be clear so that parents can readily understand how student learning has been assessed.

Principals determine how to implement this provision, in consultation with teachers, parents and school councils and in a manner consistent with any related school jurisdiction policies. The communication can take place in a wide variety of ways, including parent-teacher conferences, assessment portfolios, report cards or student work samples. An

individualized program plan (IPP) is often implemented by teachers when there is a gap between a student's level of achievement and the student's grade placement. Whatever methods are chosen for implementing this provision, often face-to-face methods are the most successful for achieving clear and open communication.

All assessment information should be shared, not only with parents, but also with students when it is in the students' best interest to do so. Communicating with students about their levels of achievement is particularly important when students are planning their future courses and making program choices.

To assist teachers in assessing student achievement in relation to provincial standards, Alberta Education has developed classroom assessment materials, in English and in French, for teachers' discretionary use in language arts, mathematics, science and social studies in grades 1, 2, 4, 5, 7 and 8. There also are science assessment materials for Grade 3. These materials were supplied to all schools. Additional classroom assessment materials are available for purchase from the Learning Resources Centre.

Provincial Achievement Testing Program

The provincial achievement tests measure knowledge and skills in language arts, mathematics, science and social studies. The tests reflect a common provincial standard for students in a grade. They are based on what students are expected to know and be able to do as set out in the programs of study.

All students in the appropriate grades are expected to write the annually administered achievement tests. English language arts and mathematics are assessed at grades 3, 6 and 9. Science and social studies are assessed at grades 6 and 9.

Accommodations are available for students with special education needs for writing achievement tests.

There are French versions of the achievement tests in mathematics (grades 3, 6 and 9), science (grades 6 and 9), and social studies (grades 6 and 9). As well, there are French language arts tests for students in Grade 6 and Grade 9 alternative French language programs (includes French immersion), and Français for Grade 6 and Grade 9 Francophone students.

Every effort is made to ensure that the tests show respect for cultural diversity and do not bias the performance of particular groups of students.

Results are reported in such a way as to encourage improved learning, while minimizing possible harmful effects of testing for individual students. The numbers of students who achieve the acceptable standard and the standard of excellence are reported to facilitate interpretation of local results and to enable comparisons of local results to provincial and local targets. Group results for fewer than six students are reported to the jurisdiction and the school but are not reported publicly. Alberta Education encourages comparisons of local results with local targets, not comparisons of individual scores with other students' scores.

 Schedules for administering achievement tests are mandated by the province and communicated to schools in the November update to the *General Information Bulletin: Achievement Testing Program*, prior to the school year in which they are to be implemented. Information about student achievement is provided to schools and school authorities, parents and the public so that they may know how well students in their schools are meeting local targets and provincial outcomes. The document *Guidelines for Interpreting the Results of Achievement Tests* is provided along with the results.

For more information on provincial achievement testing, see the following documents sent to schools or provided electronically each year:

-  • *General Information Bulletin: Achievement Testing Program*
- Information bulletins about the tests in Grade 3, Grade 6 and Grade 9 are available on the Alberta Education Web site
-  • *Parent Guide to Provincial Achievement Testing* for Grade 3, Grade 6 and Grade 9.

Individual Student Profile

For each student who writes achievement tests, an Individual Student Profile for the student's education record is provided electronically to the school through the secured Extranet site. The profile shows the student's test results in relation to the standards in the courses tested. A second copy of the student's profile is provided to the school for the student's parent or guardian.

Senior High School Graduation Requirements

Introduction

Students who entered Grade 10 in the 1994–1995 and subsequent school years are eligible to receive the Alberta High School Diploma, the High School Equivalency Diploma, the Certificate of Achievement or the Certificate of High School Achievement upon completion of graduation requirements.

The diplomas and certificates certify that the holder has successfully completed a prescribed program of instruction; however, possession of a diploma or certificate does not necessarily guarantee admission to a post-secondary institution. Students should be advised to check the calendars of post-secondary institutions for admission requirements.

The Alberta High School Diploma graduation requirements are included in this section.

The current Certificate of High School Achievement requirements outlining the specific eligible courses, the required credits and information on the phasing in of the certificate are included in this section. Students who enrolled in Grade 10 level Knowledge and Employability courses as of September 2006 will work toward meeting the current Certificate of High School Achievement requirements.

The Certificate of Achievement can be obtained by students enrolled in Grade 10 to Grade 12 in the Integrated Occupational Program (IOP) as of January 2006. See Appendix 5 for these requirements.

The High School Equivalency Diploma requirements can be found in the Mature Students section.

Diploma Graduation
Requirements
(English)**

ALBERTA HIGH SCHOOL DIPLOMA GRADUATION REQUIREMENTS (ENGLISH)
The requirements indicated in this chart are the <u>minimum</u> requirements for a student to attain an Alberta High School Diploma. The requirements for entry into post-secondary institutions and workplaces may require additional and/or specific courses.
100 CREDITS including the following:
ENGLISH LANGUAGE ARTS – 30 LEVEL (English Language Arts 30-1, 30-2) ^①
SOCIAL STUDIES – 30 LEVEL (Social Studies 30 or 33)
MATHEMATICS – 20 LEVEL ^② (Pure Mathematics 20, Applied Mathematics 20 or Mathematics 24)
SCIENCE – 20 LEVEL ^③ (Science 20, Science 24, Biology 20, Chemistry 20 or Physics 20)
PHYSICAL EDUCATION 10 (3 CREDITS) ^④
CAREER AND LIFE MANAGEMENT (3 CREDITS) ^⑤
10 CREDITS IN ANY COMBINATION FROM:
<ul style="list-style-type: none"> • Career and Technology Studies (CTS) • Fine Arts • Second Languages ^⑥ • Physical Education 20 and/or 30 ^⑦ • Locally developed/acquired and locally authorized courses in CTS, fine arts, second languages, Knowledge and Employability or IOP occupational courses • Knowledge and Employability or IOP occupational courses • Registered Apprenticeship Program
10 CREDITS IN ANY 30-LEVEL COURSE (IN ADDITION TO A 30-LEVEL ENGLISH LANGUAGE ARTS AND A 30-LEVEL SOCIAL STUDIES COURSE AS SPECIFIED ABOVE) ^⑧
<p>These courses may include:</p> <ul style="list-style-type: none"> • 35-level Locally developed/acquired and locally authorized courses • 3000 Series; Advanced Level in Career and Technology Studies Courses • 35-level Work Experience ^⑨ • 30-4 level Knowledge and Employability course or 36-level IOP course • 35-level Registered Apprenticeship Program • 30-level Green Certificate Specialization

(continued)

(continued)

- ❶ English Language Arts 30 and 33 can be used to meet this requirement.
- ❷ For students who entered Grade 10 before September 1998, the mathematics requirement—Mathematics 20 or 23 or 24—may also be met with any 10-credit combination of mathematics courses that includes either Mathematics 13 or Mathematics 10; e.g., Mathematics 10 and Mathematics 14. Students may also use Pure Mathematics 10, Applied Mathematics 10, Mathematics Preparation 10 (5 credits) in conjunction with Mathematics 10 or Mathematics 13 to meet this requirement.
- ❸ The science requirement—Science 20 or 24, Biology 20, Chemistry 20 or Physics 20—may also be met with the 10-credit combination of Science 10 and Science 14.
- ❹ See information on exemption from the physical education requirement in the Physical Education section of the *Guide*.
- ❺ See information on exemption from the CALM requirement in the CALM section of the *Guide*.
- ❻ Students may earn any number of credits in the study of second languages, but only a maximum of 25 language credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.
- ❼ Students entering Grade 10 in the 1998–1999 school year and subsequent school years will be able to use Physical Education 20 and/or 30 to meet this 10-credit requirement.
- ❽ 30-level English or 30-level social studies courses from a different course sequence may not be used to meet the 30-level course requirement.
- ❾ Students may earn any number of credits in work experience, but only 15 credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.

FURTHER NOTES:

- For 30-level courses that have a diploma examination, the final course mark consists of an average of the school-awarded mark and the diploma examination mark.
- Students in Francophone programs should consult the Alberta High School Diploma Graduation Requirements for French First Language–Francophone in the *Guide*.
- Mature students should consult the Mature Students section in the *Guide* for applicable graduation requirements.

ALBERTA HIGH SCHOOL DIPLOMA GRADUATION REQUIREMENTS (FRENCH FIRST LANGUAGE–FRANCOPHONE)
The requirements indicated in this chart are the <u>minimum</u> requirements for a student to attain an Alberta High School Diploma. The requirements for entry into post-secondary institutions and workplaces may require additional and specific courses.
100 CREDITS including the following:
FRANÇAIS 30 OR 30-2
ENGLISH LANGUAGE ARTS – 30 LEVEL^① (English Language Arts 30-1, 30-2)
SOCIAL STUDIES – 30 LEVEL (Social Studies 30 or 33)
MATHEMATICS – 20 LEVEL^② (Pure Mathematics 20, Applied Mathematics 20 or Mathematics 24)
SCIENCE – 20 LEVEL^③ (Science 20, Science 24, Biology 20, Chemistry 20 or Physics 20)
PHYSICAL EDUCATION 10 (3 CREDITS)^④
CAREER AND LIFE MANAGEMENT (3 CREDITS)^⑤
10 CREDITS IN ANY COMBINATION FROM:
<ul style="list-style-type: none"> • Career and Technology Studies (CTS) • Fine Arts • Second Languages^⑥ • Physical Education 20 and/or 30^⑦ • Locally developed/acquired and locally authorized courses in CTS, fine arts, second languages, Knowledge and Employability or IOP occupational courses • Knowledge and Employability or IOP occupational courses • Registered Apprenticeship Program
10 CREDITS IN ANY 30-LEVEL COURSE (<u>IN ADDITION TO</u> A 30-LEVEL ENGLISH LANGUAGE ARTS, A 30-LEVEL FRANÇAIS AND A 30-LEVEL SOCIAL STUDIES COURSE AS SPECIFIED ABOVE)^⑧
<p>These courses may include:</p> <ul style="list-style-type: none"> • 35-level locally developed/acquired and locally authorized courses • 3000 Series; Advanced Level in Career and Technology Studies Courses • 35-level Work Experience^⑨ • 30-4 level Knowledge and Employability course or 36-level IOP course • 35-level Registered Apprenticeship Program • 30-level Green Certificate Specialization

(continued)

(continued)

- ❶ English Language Arts 30 and 33 can be used to meet this requirement. There is an exception for Canadian and immigrant unilingual Francophone students who enter the Alberta school system within three years of their graduating year. Refer to the section on Evaluation of Out-of-Province Educational Documents in the *Guide*.
- ❷ For students who entered Grade 10 before September 1998, the mathematics requirement—Mathematics 20 or 23 or 24—may also be met with any 10-credit combination of mathematics courses that includes either Mathematics 13 or Mathematics 10; e.g., Mathematics 10 and Mathematics 14. Students may also use Pure Mathematics 10, Applied Mathematics 10, Mathematics Preparation 10 (5 credits) in conjunction with Mathematics 10 or Mathematics 13 to meet this requirement.
- ❸ The science requirement—Science 20 or 24, Biology 20, Chemistry 20 or Physics 20—may also be met with the 10-credit combination of Science 10 and Science 14.
- ❹ See information on exemption from the physical education requirement in the Physical Education section of the *Guide*.
- ❺ See information on exemption from the CALM requirement in the CALM section of the *Guide*.
- ❻ Students may earn any number of credits in the study of second languages, but only a maximum of 25 language credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.
- ❼ Students entering Grade 10 in the 1998–1999 school year and subsequent school years will be able to use Physical Education 20 and/or 30 to meet this 10-credit requirement.
- ❽ 30-level English Language Arts or 30-level social studies courses from a different course sequence may not be used to meet the 30-level course requirement.
- ❾ Students may earn any number of credits in work experience, but only 15 credits may be used to meet the 100-credit requirement for the Alberta High School Diploma.

FURTHER NOTES:

- For 30-level courses that have a diploma examination, the final course mark consists of an average of the school-awarded mark and the diploma examination mark.
- Mature students should consult the Mature Students section in the *Guide* for applicable graduation requirements.

Certificate of High School Achievement

REQUIREMENTS FOR A CERTIFICATE OF HIGH SCHOOL ACHIEVEMENT^①
The requirements indicated in this chart are the <u>minimum</u> requirements for a student to attain a Certificate of High School Achievement. The requirements for entry into post-secondary institutions and workplaces may require additional and/or specific courses.
80 CREDITS^② including the following:
ENGLISH LANGUAGE ARTS 20-2 OR 30-4
MATHEMATICS 14 OR 20-4
SCIENCE 14 OR 20-4
SOCIAL STUDIES 10-2 OR 26
PHYSICAL EDUCATION 10 (3 CREDITS)^③
CAREER AND LIFE MANAGEMENT (3 CREDITS)^④
5 CREDITS IN^⑤
<ul style="list-style-type: none"> • 30-level Knowledge and Employability Occupational course, or • 30-level Career and Technology Studies (CTS), or • 30-level Locally developed course with an occupational focus
AND
5 CREDITS IN
<ul style="list-style-type: none"> • 30-level Knowledge and Employability Workplace Practicum course, or • 30-level Work Experience course^⑥, or • 30-level Green Certificate course^⑦
OR
5 CREDITS IN
30-level Registered Apprenticeship Program (RAP) course ^⑧

- ① Students enrolled in senior high IOP as of January 2006 may choose to complete the requirements for the Certificate of High School Achievement or the Certificate of Achievement (Appendix 5).
- ② To qualify for a Certificate of High School Achievement, students must successfully complete a minimum of one academic Knowledge and Employability course.
- ③ See information on exemption from the physical education requirement in the Physical Education section of the *Guide*.
- ④ See information on exemption from the CALM requirement in the CALM section of the *Guide*.
- ⑤ To transition to the new Certificate of High School Achievement, 36-level IOP Occupational courses may be used in lieu of 30-4-level Knowledge and Employability Occupational courses.
- ⑥ Refer to the *Off-campus Education Guide for Administrators, Counsellors and Teachers*, 2000 for additional information.
- ⑦ Refer to the Alberta Education Web site for additional Green Certificate information.
- ⑧ Refer to the Registered Apprenticeship Program Information Manual, 2004 for additional information.

Student Placement and Promotion

Placement and Promotion

Placement and promotion of a student from one grade or course to another is determined by the school principal, subject to policies of the school authority and to provisions in the *Guide*.

Grade 10 Students

For the purpose of determining a student's graduation requirements, the following is to apply: Upon promotion from Grade 9 and subsequent placement in Grade 10, the student's Grade 10 year is the school year in which the student receives the first mark (between 0% and 100%) in a senior high school course, as reported to Alberta Education, or the student is registered in a noncredit English as a Second Language course. Also see the Mature Students section for information regarding those who entered senior high school before the 1994/1995 school year.

Senior High School Courses and Credits for Junior High School Students

Secondary education programs recognize and accommodate the wide range of developmental needs and abilities that exist among students.

The opportunity to take senior high school courses for diploma credits during a junior high school's regular instructional day may be offered as a privilege to an eligible student, as identified by the principal of a junior high school.

An eligible student is one who, in the opinion of the junior high school principal, has satisfied the general and specific outcomes for each core course of the junior high school program to the extent of his or her potential, has achieved acceptably in all enrolled optional courses, and shows special interest and signs of high potential in subject areas that are part of a senior high school graduation program.

A decision to extend this privilege to a student follows appropriate consultation with and approval of a parent or guardian and the senior high school principal.

A student may be offered an opportunity to take one or more senior high school courses at the junior high school or by attending a senior high school part time.

The opportunity to access advanced level instruction applies to those course sequences that are continuous with junior high school programs and that extend beyond the challenges of Grade 9 courses. The following are examples of course sequences that meet these criteria:

- English Language Arts 10-1, 20-1, 30-1
- Français 10–20–30
- French Language Arts 10–20–30
- Applied Mathematics 10–20–30
- Pure Mathematics 10–20–30
- Science 10–20–30
- Social Studies 10–20–30.

Where senior high school courses are offered at the junior high school level, the planning for such courses should be based on collaboration between junior high schools and senior high schools. Junior high school teachers challenging students with senior high school courses should consult with senior high school teachers to establish procedures that ensure consistency in implementing course outcomes and assessment standards.

Schools offering senior high school courses to junior high school students shall ensure that the approved programs of study for the senior high school courses are followed.

A junior high school student receives credits and marks for successfully completed senior high school courses. Upon promotion to Grade 10, the junior high school principal forwards the student's final marks to the principal of the receiving senior high school. The senior high school is to report these marks to Learner Records and Data Exchange.

Schools whose students take courses for senior high school credits while in junior high school, including CTS 1-credit courses and heritage language credit courses, will not receive credit enrollment unit funding for those courses completed. For more information, see the *Funding Manual for School Authorities*.

Senior High School Credits for Post-secondary Courses

Post-secondary courses, taken at an institution either inside or outside Alberta, are not equated to credits for the Alberta High School Diploma but may be evaluated for and applied toward the High School Equivalency Diploma.

Evaluation of Out-of-province Educational Documents

Students entering an Alberta senior high school from outside Alberta should submit transcripts, or other official statements of previous standing, to the school they plan to attend. The principal is to evaluate these documents in relation to approved senior high school courses or designate unassigned credits. This assessment is to be based on the number of credits assigned and should take into consideration the best interests of the student. The assessment establishes the specific requirements needed to obtain a senior high school diploma, as outlined in the Senior High School Graduation Requirements section.

Former students of a Francophone education program, entering an Alberta non-Francophone high school from outside Alberta, may be granted credits for either French as a Second Language or French Language Arts but not for Français. Only a Francophone school can offer credit for Français.

Schools must not use the following when evaluating out-of-province documents:

- Special Projects 10, 20, 30
- Work Experience 15, 25, 35
- locally developed courses unless the courses are authorized by their boards.

School authorities must be authorized to offer senior high school locally developed/acquired courses to report marks and credits for these courses.

A transfer guide designed to assist in the placement of students has been authored by the Council of Ministers of Education, Canada (CMEC). *Secondary Education in Canada: A Student Transfer Guide* can be viewed from the CMEC Web site at www.cmec.ca. For further information, contact the Curriculum Branch.

A list of reference materials that may be purchased by schools is available to assist principals in the evaluation of out-of-country documentation. The Teacher Development and Certification Branch also may be contacted for a list of reference materials to assist principals in the evaluation of out-of-country high school educational documents.

An Alberta High School Diploma is not to be issued solely on the basis of the evaluation of out-of-Alberta credentials. A student in this category who wishes to obtain an Alberta High School Diploma is required to complete a minimum of 5 approved credits as prescribed by a school principal.

The required credits are to be completed in one or more of the subject areas specified under the diploma requirements, exclusive of physical education, and at a level equal to that of the highest Alberta course equivalent granted through credential evaluation.

The results of the senior high school evaluation are to be forwarded to Learner Records and Data Exchange.

In the case of a dispute over the number of senior high school credits to be awarded that cannot be resolved at the level of the school authority, the student has the right to appeal to the Special Cases Committee. This committee, which is the final procedural level in the appeal process, deals with all matters requiring the interpretation and application of policy relative to individual students.

The Special Cases Committee may be contacted by writing to the Executive Secretary, Special Cases Committee, Learner Assessment, Alberta Education.

Students planning to enter directly into a post-secondary institution in Alberta should submit their out-of-province documents to the post-secondary institution of their choice. There are no appeal procedures to Alberta Education in these instances.

Students who use Français 30 or Français 30-2 to meet the language arts requirements for an Alberta High School Diploma must also complete English Language Arts 30-1 or 30-2.

For more information, refer to the Senior High School Graduation Requirements section. The principal of a Francophone school may exempt a student enrolled in a Francophone school from meeting the English Language Arts 30-1 or 30-2 Alberta High School Diploma graduation requirement provided that the student entered the Alberta school system within three years of the anticipated graduation year and does not demonstrate sufficient English language proficiency to successfully complete English Language Arts 30-1 or 30-2. The principal must report the exemption to Learner Records and Data Exchange by April 30 of the anticipated graduation year. The exempted student must be enrolled in English as a Second Language or English Language Arts courses. The student must meet the Français 30 or 30-2 requirement and is still required to achieve the necessary minimum requirement of 100 credits to earn an Alberta High School Diploma.

Visiting or Exchange Students

Visiting or exchange students from another province or country who wish to complete a course for credit should be registered with Learner Records and Data Exchange.

Any formal statement of academic achievement required by the school of origin would be issued by Alberta Education in the form of the High School Transcript of Achievement and would reflect only the courses the student actually completed in an Alberta school.

Visiting or exchange students seeking Alberta high school credits in a diploma examination course must write a diploma examination on the same terms as any Alberta student.

For further information, see the *General Information Bulletin: Diploma Examinations Program*.

Visiting or exchange students may not write diploma examinations in any language other than English or French. The English Language Arts 30-1 and 30-2 diploma examinations must be written in English. The Français 30 and French Language Arts 30 diploma examinations must be written in French. The diploma examinations in Social Studies 30, Social Studies 33, Applied Mathematics 30, Pure Mathematics 30, Biology 30, Chemistry 30, Physics 30 and Science 30 must be written in either English or French.

For information regarding fees, see Eligibility to Write in the Student Assessment in Senior High School Subjects section.

Contact the International and Federal/Provincial Relations Branch for information about registering students from another province or country, including topics such as study permits, right of access and reciprocal student exchanges.

Student Assessment in Senior High School

Introduction

School Act, Section 39(3)(c)
A.R. 177/2003
Policy 2.1.2

The Student Evaluation Regulation A.R. 177/2003 governing the evaluation of students has been developed under section 39(3)(c) of the *School Act*. This regulation may be found in the *K–12 Learning System Policy, Regulations and Forms Manual*.

The provincial Student Evaluation Policy 2.1.2 states that each school authority shall develop and implement a student evaluation policy.

To assist teachers in assessing student achievement in relation to provincial standards, Alberta Education has developed classroom assessment materials (CAMP) for teachers' discretionary use. These materials are available for purchase from the Learning Resources Centre.

Reporting Student Achievement in Senior High School Courses

Alberta Education maintains an individual student record for each Alberta student. The record for a senior high school student is used to provide a complete and accurate reflection of the student's senior high school achievement, inclusive of courses reported as pass or fail.

Schools must use one of the following designations when submitting the results of student achievement in either a regular (including diploma examination) or a Career and Technology Studies (CTS) course to Learner Records and Data Exchange.

Reporting Course Completion Status

Designation	Course Completion Status	Mark
<ul style="list-style-type: none"> • COM (complete) 	<ul style="list-style-type: none"> • A “complete” (COM) status should be used: <ul style="list-style-type: none"> – when a student finishes a regular course with a mark of 0–100%, or – when a student successfully completes a CTS course with a mark of not less than 50%. • A course completion status of COM may be used for all courses. 	<ul style="list-style-type: none"> • A mark is submitted to Alberta Education. • The course appears on the student transcript.
<ul style="list-style-type: none"> • WDR (withdrawal) 	<ul style="list-style-type: none"> • A “withdrawal” (WDR) status should be used when a student chooses not to complete a course and the school agrees to remove the student from the course. • A course completion status of WDR may be used for all courses. 	<ul style="list-style-type: none"> • No mark is submitted to Alberta Education. • The course does not appear on the student transcript.
<ul style="list-style-type: none"> • INC (incomplete) 	<ul style="list-style-type: none"> • An “incomplete” (INC) status should be used when a student does not withdraw from a CTS course, yet does not demonstrate mastery of all the learner expectations identified in the program of studies. • A course completion status of INC may be used only for CTS courses. 	<ul style="list-style-type: none"> • No mark is submitted to Alberta Education. • The course does not appear on the student transcript.

Achievement in all completed senior high school credit courses is to be reported, with the appropriate designation, to Learner Records and Data Exchange.

When a course is reported as eligible for funding, all funding conditions must be met and all supporting documentation maintained regardless of the completion status reported. For further information, see the *Funding Manual for School Authorities* (current version).

Only one mark per course in any reporting period will be accepted and added to a student's record; consequently, principals and/or students must withdraw duplicate or multiple registrations in the same reporting period prior to the time lines established for marks reporting.

Once reported to Alberta Education, final marks in all completed courses, whether the course is passed or failed, shall not subsequently be deleted from the student's record. In those instances where a principal discovers an error has been made in reporting a course, credits or mark, an adjustment may be submitted to Learner Records and Data Exchange.

School-awarded marks in diploma examination courses shall be reported to Learner Records and Data Exchange, as directed.^❶ For due dates, schools are advised to reference the Schedule of Activities documentation available from Learner Records and Data Exchange.

School-awarded marks in all non-diploma examination courses shall be reported no later than two weeks following the completion of the respective diploma examination session. Schools will receive additional instructions, as required, throughout the year.

Reporting CTS Courses

Students must be individually assessed and graded on each 1-credit CTS course taken.

Schools are to report all successfully completed CTS courses to Learner Records and Data Exchange, along with an awarded mark not less than 50% for each 1-credit course. Successful completion of a CTS course at the senior high school level is based on demonstrating all of the general outcomes for any given course to the standard defined for each competency. This means that the student must be individually assessed on each of the general outcomes defined for the course in the program of studies.

Schools also report CTS courses in which the student has an incomplete or withdrawal status. See Reporting Course Completion Status in this section.

❶ Dates are specified in the Schedules and Significant Dates section of the *General Information Bulletin: Diploma Examinations Program*.

Challenged CTS courses and those CTS courses given credit through evaluation by the senior high school principal but taken in junior high school are also to be reported. See Course Challenge in the Awarding Course Credits section in the *Guide*.

The waiver of prerequisite provisions does not apply to CTS courses. See Exceptions in the Waiver of Prerequisites and Credits for Waived Prerequisite Courses in the Awarding Course Credits section of the *Guide*.

Further information about CTS course completion, reporting processes and funding eligibility is provided in the:

- *Funding Manual for School Authorities*
- *CTS Manual for Administrators, Counsellors and Teachers*, Appendix 6: Policies and Guidelines for Implementing CTS Courses in Senior High Schools.

Grade 12 Validation Statement

Alberta Education confirms the accuracy of each student's senior high school record by issuing a Student Record Validation Statement to each Grade 12 student. This validation statement is produced from the Alberta Education student record. The statement shows the student's complete senior high school achievement record, at the time of issuance, and lists all courses completed, passed or failed. See the Schedule of Activities documentation available from Learner Records and Data Exchange.

Grade 12 Exemptions for Transfer-in Students

Out-of-province Grade 12 students who transfer into Alberta schools at the beginning of, or any time during, the school year should be exempted from Career and Life Management and Physical Education 10. These students are still required to achieve the necessary minimum requirement of 100 credits to earn an Alberta High School Diploma.

For the purpose of this exemption, a Grade 12 student is defined as one who is to graduate in the school year the student transfers into an Alberta school.

Notice of a student's exemption is to be reported by the principal to Learner Records and Data Exchange by April 30 prior to the student's anticipated graduation year.

Diploma Examinations Program

The Diploma Examinations Program consists of course-specific examinations based on the *Program of Studies: Senior High Schools*. Students are required to write diploma examinations in the following courses:

Applied Mathematics 30	French Language Arts 30
Biology 30	Physics 30
Chemistry 30	Pure Mathematics 30
English Language Arts 30-1	Science 30
English Language Arts 30-2	Social Studies 30
Français 30	Social Studies 33

The final mark for diploma examination courses is determined by averaging the diploma examination mark with the school-awarded mark. To obtain credit in a diploma examination course, students are to write the appropriate diploma examination and obtain a final mark in the course of 50% or higher. All diploma examinations are available in the French language, except for English Language Arts 30-1 and 30-2. Students may elect to write either the French or English language version of the respective examination.

For more information on diploma examinations, see the following documents available on the Alberta Education Web site at www.education.gov.ab.ca/k_12/testing.

- *General Information Bulletin: Diploma Examinations Program*
- *Information for Students*—a newsprint flyer for Alberta students and teachers sent to all schools
- *Information for Parents*—a newsprint flyer for parents and school councils sent to all schools
- subject information bulletins for each course in which a diploma examination, as listed above, is administered.

January and June Diploma Examinations

Examinations are written at all senior high schools offering the diploma examination courses. All students currently enrolled in diploma examination courses are to be registered for the examinations with Learner Records and Data Exchange by their senior high school principals.

Students not currently enrolled in a diploma examination course but who wish to write must register with Alberta Education. This can be achieved by completing a diploma examination registration form, available through senior high

school principals, Learner Assessment, Learner Records and Data Exchange or the Alberta Education Web site. The registration form is to be forwarded to Alberta Education by the due date, as published in the *General Information Bulletin: Diploma Examinations Program*.

Special writing centres outside Alberta may be authorized for the January and June examination sessions upon application to and approval by the Special Cases Committee.

August Diploma Examinations

August diploma examinations are written only at a selected number of centres and summer schools throughout the province.

For the August administration, students not registered through a summer school will register at the time of writing their examinations.

Special writing centres outside Alberta may be authorized for the August examination session upon application to and approval by the Special Cases Committee.

November and April Diploma Examinations

November and April diploma examinations are available only to students in schools that have been approved by the Minister of Education to administer these examinations. Approvals are coordinated through Learner Assessment.

Special writing centres outside Alberta may be authorized for the November and April examination sessions upon application to and approval by the Special Cases Committee.

Diploma Examinations Schedules

For information on diploma examinations schedules, consult the current *General Information Bulletin: Diploma Examinations Program*, available in all senior high schools or from the Alberta Education Web site.

Eligibility to Write

Students who are registered in Alberta senior high schools to receive instruction in a diploma examination course are permitted to write the diploma examination in that course at their schools of registration.

Students currently enrolled in a diploma examination course are required to write the diploma examination in that course before credits are awarded.

Students who have been awarded credit previously for the course may register to write the diploma examination. A student rewriting a diploma examination is required to pay a rewrite fee (see Rewrite Fees on this page).

Mature students, as defined in the Mature Students section of the *Guide*, may register to write the diploma examination without taking instruction.

Students who are not funded by Alberta Education or are not on a reciprocal exchange are required to pay a fee to write a diploma examination. See the *General Information Bulletin: Diploma Examinations Program* for further information.

Students who are in a Home Education Program are eligible to write diploma examinations.

Rewrite Fees

Students who intend to rewrite a diploma examination are required to submit a registration form and pay a rewrite fee for each examination, directly to Alberta Education. This applies whether or not students are receiving instruction in the course through day classes, evening classes, summer school or distance learning.

Students who have unpaid rewrite fees from prior examination sessions will have current payments credited toward the outstanding debts. Students are required to clear any outstanding debt before their current examination marks appear on their senior high school records.

Students are charged a rewrite fee for a diploma examination if the students have written examinations in this course within the current or previous two school years.

Some diploma examinations may not be available for rewrite during certain administrations. See the *General Information Bulletin: Diploma Examinations Program* for further information.

Accommodations for Students with Special Diploma Examination Writing Needs

Student Evaluation Regulation
A.R. 177/2003

Students with special diploma examination writing needs may require accommodations to write a diploma examination and may request approval for:

- an examination to be provided in Braille, large print or CD format
- variation in writing time and place or mode of response
- other adjustments.

 Administrators are directed to the policy Accommodations for Students with Special Diploma Examination Writing Needs contained in the *General Information Bulletin: Diploma Examinations Program*. The school principal shall make application, together with the required documentation, to the Special Cases Committee, Learner Assessment, Alberta Education, according to the dates specified in the *General Information Bulletin: Diploma Examinations Program*.

 Accommodations are applied for and granted for a specific examination administration. A renewed application for any accommodation must be made, in writing, for any subsequent administration. Documentation is required only for the initial application.

Exemption from Writing Diploma Examinations

 Under specific circumstances, the school-awarded mark may be accepted as the final mark upon application to and approval by the Special Cases Committee. See the *General Information Bulletin: Diploma Examinations Program* for more information.

Diploma Examination Results Statement

Following each diploma examination period, each student who has written one or more diploma examinations receives a Diploma Examination Results Statement. The statement shows the current diploma examination mark, the most recent school-awarded mark and the final mark for each course.

Students who have unpaid examination rewrite fees are required to clear this debt before any current examination marks will appear on their senior high school records.

For students who may have two or more school-awarded marks, or two or more diploma examination marks in the same course, the final mark, for official transcript purposes, is a blend of the highest school-awarded mark and the highest diploma examination mark achieved in the course within the current and previous two school years.

Reporting to the Public

Policy 2.1.3

School authorities and schools are expected to report annually to the public. They are expected to report on the percentage of students who achieve the acceptable standard and the percentage of students who achieve the standard of excellence on diploma examinations, as well as student participation in diploma examination courses. Student results based on school marks and final marks can also be reported.

Provincial results for diploma examination courses are released annually by the Minister in the fall. Prior to this release, an annual summary report containing combined results for all diploma examination administrations is provided to schools and school authorities. Summary results for the school year are provided on Alberta Education's Web site. For further information, schools can also refer to Policy 2.1.3, Use and Reporting of Results on Provincial Assessments, and the *Guide for Education Planning and Results Reporting*.

Appeal Procedures

School-awarded Course Marks

School principals should inform students of appeal procedures. A student who is dissatisfied with a school-awarded mark may:

- appeal under the policies set by the school authority, or
- take the course again.

Changes to non-diploma examination course marks shall be received no later than October 31 of the current school year for marks originating in the previous school year.

Formal notifications of school-awarded mark changes in diploma examination courses shall be submitted to Learner Records and Data Exchange before the official release dates of Results Statements. These dates are published in the annual *General Information Bulletin: Diploma Examinations Program*.

Requests to change school-awarded marks in diploma examination courses after the published dates shall be submitted to Learner Records and Data Exchange for approval.

Diploma Examination Marks

A student who believes that his or her diploma examination mark does not appropriately reflect his or her achievement may:

- submit a written request for a rescore to Learner Assessment, in accordance with the terms and date specified on the appropriate results statement, or
- rewrite the examination at a later administration date. Some diploma examinations may not be available for rewrite during certain administrations. See the *General Information Bulletin: Diploma Examinations Program* for further information.

Rescoring a Diploma Examination

- A student who wishes to have a diploma examination rescored is required to submit an application form and pay a rescore fee, per examination, directly to Alberta Education. This fee is refunded if the examination mark is raised by 5% or more.
- The mark resulting from rescoring becomes the final diploma examination mark, whether it is lowered, raised or remains the same.

High School Diplomas, Certificates of High School Achievement and Transcripts

Learner Records and Data Exchange issues the Alberta High School Diploma, the High School Equivalency Diploma, the Certificate of High School Achievement or the Certificate of Achievement to students who meet the graduation requirements. A Statement of Courses and Marks containing the entire senior high school record accompanies the diploma or certificate and is available free to students and schools.

For a fee, students may request that an Alberta High School Transcript of Achievement be sent to themselves, an employer or a post-secondary institution. The transcript is produced from the student's Alberta Education student record. Courses deemed incomplete for any reason are not reported. It is the responsibility of the student to request an updated transcript when additional courses are completed following initial graduation, or as required.

Language Versions

Diplomas, certificates, transcripts and statements of courses and marks are issued in the English language. Principals of schools with alternative French language programs (including French immersion) are expected to advise their students that they can request a French version of their Alberta High School Diplomas. Principals should submit a letter to Learner Records and Data Exchange naming those students wanting French diplomas and transcripts. For students registered in a Francophone school, diplomas and certificates are issued in French. Transcripts in English or French may be requested.

All students receive a Statement of Courses and Marks in English only.

Provisions for Mature Students

Mature students may earn senior high school credits without holding credits for the prerequisite courses. See the Mature Students section for more information.

Credits for Private School Instruction

When a registered private school is approved as an accredited private school, students enrolled in the school prior to the change in classification may be awarded senior high school credits for courses successfully completed, prior to the change of classification, at the discretion of the principal of the accredited private school.

When a student transfers to a school authority from a registered Alberta private school or other non-accredited school, the student may be awarded credits for previous instruction at the discretion of the principal of the receiving school. In these instances, the student is responsible for providing the principal with a record of the final mark awarded and an outline of each course.

When credits for previous instruction are awarded, the principal is expected to submit a “P” for pass, not a grade or percentage score.

Awarding Course Credits

Introduction

After each semester or school year, students shall be awarded credits by Alberta Education on the recommendation of the principal, subject to the following departmental requirements:

- instruction is provided by qualified teachers holding valid Alberta teaching certificates
- instructional time allocated to each subject meets the minimum times specified by Alberta Education
- the content of each subject follows that outlined in the *Senior High Schools Program of Studies* and/or course(s) approved by the Minister and/or by the school authority
- the senior high school is operating in accordance with the *Guide to Education: ECS to Grade 12*
- student evaluation is carried out in accordance with school authority policy and is consistent with provincial policy
- school-awarded marks in diploma examination subjects and final marks in all other senior high school subjects are endorsed by the principal in accordance with school authority policy. School-awarded marks are subsequently submitted to Alberta Education for recording at a time and in a manner determined by the Minister.

Rules Governing Awarding of Credits

- To earn the credits attached to all senior high school courses, a student shall achieve at least 50% (“C” standing) in each course.
 - Credits will not be granted for courses that a student has previously passed and been awarded credits. In the case of a student repeating a course, the higher mark will appear on the transcript.
-

Number of Senior High School Credits in French and Other Languages

Senior high school students in Alberta are encouraged to take a wide range of courses. In keeping with this principle, no more than 25 credits may be presented in any one second language, including French, for Alberta High School Diploma purposes; however, for purposes other than the Alberta High School Diploma such as preparation for the workplace, students may earn any number of credits in each second language, including French.

Course Sequence Transfer

The provision for course sequence transfer enables students to change course sequences, when necessary, to more appropriate levels of challenge. The recommended transfer routes for each program area are given under Transfer Points (Recommended) and Course Sequences in the Courses and Programs section.

Students may transfer from a lower level sequence to a higher level sequence. For example, in senior high school social studies, students may transfer from the 13–23–33 sequence to the 10–20–30 sequence. For specific course sequences, refer to the transfer sequence charts under Transfer Points (Recommended) and Course Sequences in the Courses and Programs section.

Students who transfer from a 10–20–30 sequence to a 13–23–33 sequence, or from a 13–23–33 sequence to a 14–24 sequence, should transfer into the sequence at the next grade level; e.g., Social Studies 10 to Social Studies 23. Students will not receive waived credits for the lower-level course in the new sequence. For example, students who successfully complete Social Studies 10 and then transfer to Social Studies 23 will not receive credits for Social Studies 13.

When a student transfers into a less challenging academic sequence, the principal may admit the student with less than a 50% standing. See Retroactive Credits in this section.

Students who successfully complete the first course in a sequence, and then transfer to another sequence and are waived to the highest level in that sequence, should receive credits for the middle course in the new sequence, upon successful completion of the highest level course. For example, students who successfully complete Social Studies 10, then successfully complete Social Studies 33 should receive waived credits for Social Studies 23 and earned credits for Social Studies 33.

Circumstances that should be considered when counselling a student to use the course sequence transfer provision include:

- language proficiency; as the student's language proficiency increases, a more academic sequence may provide a more appropriate level of challenge
- the school's ability to schedule the appropriate course route
- the student's ability and motivation.

The school authority shall have a policy that states clearly the criteria to be met by a student who wishes to change program routes.

Course Level Transfer in Diploma Examination Courses

To ensure fairness, consistency and equity, school authorities and schools must have procedures in place to govern the assignment of school-awarded marks for students who transfer their diploma course level registration.

Students taking course instruction in diploma examination courses must be registered for their diploma examinations by the dates specified by Alberta Education. Changes in diploma examination registration from one level to another (for example, Social Studies 30 to Social Studies 33) after these registration dates should occur only if there is sufficient time for school staff to assess the student's achievement in the course and adequate time for the student to prepare for the examination. Consultation among the school staff, student and, where applicable, parents or guardians is an important component of the course transfer process.

Students who transfer course level registration in diploma examination courses must receive a final school-awarded mark based on the knowledge, skills and attitudes of the course into which they transfer. The process of evaluation of a student's achievement in this situation would be very similar to that used to evaluate a student's achievement through the Course Challenge provision outlined in this section. See the *General Information Bulletin: Diploma Examinations Program* for further information.

Prerequisite Standing

School Act, Section 39
Ministerial Order No. 004/98

In accordance with the Minister's authority under section 39 of the *School Act*, as set out in Ministerial Order No. 004/98 – Goals and Standards Applicable to the Provision of Basic Education in Alberta, a student who has achieved a mark of 50% or higher in a given course shall be eligible to take the next or higher ranking high school course in that sequence. See Appendix 1 in the *Guide*.

Course Challenge

Course challenge is a provision that allows senior high school students to challenge the outcomes of a course, including 1-credit career and technology studies courses, through a formal assessment process.

Course challenges are intended to:

- meet the diverse needs of students
- encourage students' ownership of their learning
- acknowledge the learning that students acquire in a variety of settings, not necessarily limited to schools.

Students challenging a course will be given a final course mark, except in diploma examination courses, and, if successful, credits in that course.

This provision applies to the non-diploma examination courses and only to the school-awarded mark component of diploma examination courses. Credit in diploma examination courses can be achieved only through combination of the school-awarded mark (50%) and the diploma examination mark (50%).

The course challenge process must assess a student's achievement of the depth and breadth of the outcomes for the course. Assessment procedures for course challenges shall include a variety of formats and strategies.

Any student who is registered in senior high school and who believes that he or she already possesses the knowledge, skills and attitudes prescribed by the program of studies for a course shall be allowed to demonstrate these learnings through special assessment opportunities.

For additional information regarding procedures, see Course Challenge in Appendix 3 of the *Guide*.

Exceptions

Since the course challenge policy applies only to students who believe they have the knowledge, skills and attitudes as defined by the program of studies for a given course, they would not be able to challenge courses that do not have specifically defined content in the program of studies.

The following are excluded from the course challenge provision:

- French 13
- Mathematics Preparation 10
- All RAP courses
- Special Projects 10, 20 and 30
- Work Experience 15, 25 and 35
- CTS courses completed in grades 7, 8 and 9.

Waiver of Prerequisites and Credits for Waived Prerequisite Courses

Prerequisites shown in Appendix 1 of the *Guide* may be waived by the principal.

If the principal waives a prerequisite, the following conditions must be met:

- **the student possesses the knowledge, skills and attitudes identified in the waived course or program of studies**
- **judgements are made on an individual basis, not for an entire class of students**
- **it is in the student's best interest.**

For example:

- A student who is waived into English Language Arts 30-1 and successfully completes the course receives 5 earned course credits for English Language Arts 30-1 plus waived credits for English Language Arts 10-1 and English Language Arts 20-1, for a total of 15 credits.
- A student successfully completing English Language Arts 10-2, 20-2, 30-2 and English Language Arts 30-1 receives 20 credits; however, waived credits are not granted for English Language Arts 10-1 and English Language Arts 20-1 because the student transferred from a lower-level course to a higher-level course sequence. The student was not waived into English Language Arts 30-1.
- A student who successfully completes English Language Arts 10-1 then earns credits for English Language Arts 30-2 should receive waived credits for English Language Arts 20-2.

Upon successful completion of the next or higher ranking course in a given sequence, the principal shall report to Learner Records and Data Exchange. Credits are then granted for the waived prerequisite course or courses, and a “P” for pass is recorded on the student’s record and transcript.^❶ The credits awarded for each prerequisite course are the same as the number of credits achieved for the course completed, unless otherwise specified by the principal.

When it is in the best interest of the student to receive both credits and a mark for a course (other than a “P” for pass), schools can use the flexibility now available through alternatives to the Carnegie Unit organizational model (see School Organization in the Senior High School section) to provide the instruction necessary to complete the course requirements. The student may then be evaluated to determine a percentage mark.

Exceptions

The waiver provision outlined in the previous section does not apply to the following courses:

- all CTS Courses (except as outlined below)
- French 13
- Locally Developed/Acquired and Authorized Complementary Courses (all)
- Mathematics Preparation 10
- Physical Education 10
- Registered Apprenticeship Program 15–25–35
- Special Projects 10, 20 and 30
- Work Experience 15, 25 and 35.

Career and Technology Studies

Students may challenge courses in CTS. See Course Challenge in this section. The waiver provision does not apply to CTS and, as such, the student would receive credits only for courses successfully challenged, regardless of level (introductory, intermediate or advanced). The student would not receive waived credits.

For a student to be given advanced standing when entering senior high school with the necessary competencies in a 1-credit CTS course achieved in junior high school, the student may need to have a prerequisite waived. The only time in which a CTS 1-credit course may be waived is when the senior high school principal accepts the recommendation of a junior high school principal to place a Grade 10 student into a higher level 1-credit course that requires a prerequisite. In this

^❶ A “P” for pass mark is not taken into consideration in the calculation of averages for the Alexander Rutherford Scholarships for High School Achievement or for post-secondary entrance.

case, the senior high school principal would place the student in the higher level 1-credit course, in effect waiving the lower level 1-credit course. Upon successful completion of the next or higher ranking course in a given sequence, the principal shall report to Learner Records and Data Exchange. The student would then receive credit for the waived course and a mark and credit for the 1-credit course. This is the only way in which a CTS prerequisite may be waived.

Retroactive Credits

This section applies to all students except mature students. See the criteria for mature students in the Mature Students section.

Students not achieving at least 50% in a course may repeat the course or, subject to the approval of the school principal, take a course in an alternative sequence. Students who successfully complete the next higher level course in an alternative sequence shall be granted credit for the prerequisite course in that alternative sequence.

The following chart presents the only courses toward which retroactive credits may be applied.

COURSES ELIGIBLE FOR RETROACTIVE CREDITS^①

Registered Course Reported Failed Semester/School Year: A	Alternative Course Passed Semester/School Year: B	Alternative Retroactive Credits Semester/School Year: B
<u>English Language Arts</u> English Language Arts 20-1 English Language Arts 10-1 English Language Arts 10-2	English Language Arts 30-2 English Language Arts 20-2 English Language Arts 20-4	English Language Arts 20-2 English Language Arts 10-2 English Language Arts 10-4
<u>Français</u> Français 10 Français 20 Français 10-2	Français 20-2 Français 30-2 Français 20-4	Français 10-2 Français 20-2 Français 10-4
<u>French</u> French Language Arts 10 French 31a	French 31a French 30	French 30, 20, 10 French 20, 10
<u>French Language Arts (FLA)</u> FLA 10 FLA 20	FLA 20-2 FLA 30-2	FLA 10-2 FLA 20-2
<u>Mathematics</u> Applied Mathematics 10 Pure Mathematics 10 Pure Mathematics 10 Pure Mathematics 20 Mathematics 14 Mathematics Preparation 10 <u>Social Studies</u> Social Studies 10 (10-1) Social Studies 20 Social Studies 13 (10-2)	Mathematics 24 Applied Mathematics 20 Mathematics 24 Applied Mathematics 30 Mathematics 20-4 Mathematics 24 Social Studies 23 Social Studies 33 Social Studies 26	Mathematics 14 Applied Mathematics 10 Mathematics 14 Applied Mathematics 20 Mathematics 10-4 Mathematics 14 Social Studies 13 (10-2) Social Studies 23 Social Studies 16 (10-4)
<u>Science</u> Science 10 Science 14	Science 24 (5 credits) Science 20-4	Science 14 Science 10-4
① The references to Semester/School Year “A” and Semester/School Year “B” are to emphasize that sequential registration and instruction are required.		

Courses for which retroactive credits have been granted will be recorded as “P” for pass on the student’s record and transcript.

A student shall be awarded retroactive credits automatically by Alberta Education when all of the following criteria are met:

- The student is registered by the principal in an approved course and receives instruction in the course in Semester “A” or School Year “A.”

-
- At the end of Semester “A” or School Year “A,” the principal reports that the student has failed in the registered course. A mark of less than 50% must be reported and recorded on the student’s file for the student to be eligible for retroactive credits in the following years.
 - Pursuant to a specific school authority promotion policy, the student is registered, by the principal, in the next higher level course in an alternative sequence in the following Semester “B” or School Year “B.”
 -  The principal subsequently submits to Learner Records and Data Exchange, in the appropriate reporting period for Semester “B” or School Year “B,” a pass mark in the higher level alternative course completed.

Mature Students

Mature Student Status

Mature Student Status is granted effective September 1 for the subsequent school year. All the necessary criteria are to be satisfied prior to September 1.

- **A mature student, for Alberta High School Diploma purposes, is one who, as of September 1 of the current school year, is:**
 - 19 years of age or older; or
 - the holder of a previously awarded high school diploma from the province of Alberta; or an equivalent high school diploma from a jurisdiction acceptable to the Minister.
- **The privileges afforded by the granting of Mature Student Status are not applied retroactively to a student's completed course work on file with Alberta Education. The application of Mature Student Status is conditional upon the completion of new course work subsequent to September 1 of the school year in which the status becomes effective.**
- If a dispute or uncertainty as to whether or not a person qualifies for Mature Student Status still exists after all avenues of appeal have been explored at the jurisdictional or school authority level, cases may be submitted, in writing, to the Executive Secretary, Special Cases Committee, Alberta Education.

- **Mature students enrolled in credit courses must be registered with Learner Records and Data Exchange.**
- **A mature student may earn senior high school credits after successfully completing:**
 - **courses offered in a regular accredited school**
 - **courses offered under extension programs**
 - **courses offered by the Alberta Distance Learning Centre**
 - **a diploma examination conducted by Alberta Education with or without formal course instruction.**
- **A mature student is eligible to enroll in any course at the senior high school level or to write a diploma examination without holding the required prerequisite courses.**
- **A mature student who has achieved a standing of 50% or higher in a senior high school course, by any of the alternatives noted above, will automatically be awarded credits by Alberta Education in the normal prerequisite(s) for the course(s) completed. The credits awarded for each prerequisite course will be the same as the number of credits achieved for the course completed unless otherwise specified by the principal. However, a mature student who completes a lower-level sequence and transfers to the highest course in a higher-level sequence will receive credits only for the courses completed. For example, a mature student completing Social Studies 13–23–33 and Social Studies 30 will receive 20 credits. See Waiver of Prerequisites and Credits for Waived Prerequisite Courses, second example, in the Awarding Course Credits section.**
- **Mature students are eligible to receive the Alberta High School Diploma, the Certificate of Achievement or the Certificate of High School Achievement upon completing the specified requirements. They are not, however, required to complete Physical Education 10 or Career and Life Management.**

Many school authorities offer comprehensive programs for mature students in both credit and noncredit areas. Interested mature students should consult their school authority for details about such programs.

Mature students who enroll in senior high school courses may earn the Alberta High School Diploma under the current diploma requirements. See the Alberta High School Diploma Graduation Requirements in the *Guide*.

Mature students who have not previously attended senior high school are expected to meet the current requirements, except for Physical Education 10 and CALM, to earn an Alberta High School Diploma.

Mature students who entered senior high school prior to 1994/95 may meet the current requirements or the requirements that were in effect the year they entered high school. Appendix 4 contains a chart that outlines the requirements for years prior to 1994/1995.

Principals will notify Learner Records and Data Exchange when they have programmed students to meet the graduation requirements for years prior to 1994/1995.

Also see Grade 10 Students in the Student Placement and Promotion section.

High School Equivalency Diploma

There are two alternatives for achieving a High School Equivalency Diploma.

Alternative 1

A person, 18 years or older as of September 1 of the current school year, who is deficient in the credits needed for an Alberta High School Diploma and who has been out of school for at least 10 consecutive months and who wishes to obtain a High School Equivalency Diploma should apply to the principal of a senior high school in the community. The principal will forward the High School Equivalency Form to Learner Records and Data Exchange indicating that the following requirements have been met. Copies of all necessary documents should be retained by the principal in accordance with school authority policy.

The candidate shall obtain 100 school credits as set forth below:

- **A minimum of 60 credits must be gained through classroom instruction in a school or other institution accredited by or acceptable to Alberta Education (for out-of-province students), offering approved senior high school courses, as follows:**

- a high school course in mathematics 5 credits
 - a high school course in science 3 credits
 - English Language Arts 30-1 or 30-2 or English Language Arts 30 or 33 5 credits
 - one other 30-level course, other than English Language Arts 5 credits
 - additional high school courses 42 credits
- Additional credits which, when added to those gained according to the above, total at least 100, as follows:
 - additional high school courses
 - additional approved adult education courses under recognized agencies; e.g., public colleges, institutes of technology, extension divisions of universities, adult evening classes
 - AND/OR
 - a maximum of 15 credits for maturity, according to the following scale:
 - age 21–24 (inclusive) 5 credits
 - age 25–29 (inclusive) 10 credits
 - age 30 and over 15 credits
 - a maximum of 5 credits for extensive travel
 - a maximum of 5 credits for extensive reading or private study.

For more information about Alternative 1, contact Learner Records and Data Exchange.

Alternative 2

A person, 18 years or older, who has been out of school for at least 10 consecutive months, who passes all five tests in the General Educational Development (GED) test battery with a minimum standard score of 450^① or better in each test and meets the eligibility requirements will be granted a High School Equivalency Diploma.

For more information about Alternative 2 and the GED program, contact the Provincial GED Administrator, Learner Assessment.

① The GED standard has not changed. The reporting of the standard was changed from a 2-digit system to a 3-digit system effective January 2002.

Special Cases Committee

Frame of Reference of the Committee

Student Evaluation Regulation
A.R. 177/2003

The Minister under Section 12 of the Student Evaluation Regulation, A.R. 177/2003, appoints members of the Special Cases Committee. The Committee addresses matters that require the interpretation and application of policy relative to an individual's program.

The Special Cases Committee is the final procedural level in the appeal process before one can ask the Minister of Education to review a decision. All other avenues of appeal are to be explored at their school authority level before making an appeal to this provincial body.

Membership of the Committee

The Minister appoints members of the Special Cases Committee. The Committee is chaired by the Director, Examination Administration, Learner Assessment, and is comprised of four other directors of Alberta Education, or their designates, as approved by the chair.

Responsibilities of the Committee

The Committee is responsible for hearing appeals from decisions on matters, including the following:

- determining the number of high school credits to be awarded to out-of-province students who have appealed an Alberta school evaluation
- ruling on disputed evaluation or diploma requirements where no policy or precedent exists

-
- determining mature student status of individuals
 - reviewing disputed retroactive credits
 - determining permitted practice variations for students writing diploma examinations
 - reviewing any other decision that the Special Cases Committee considers appropriate under the circumstances.
-

Directions for Contacting the Committee

Individuals who have explored all other avenues of appeal at their school authority level may apply, in writing, for their case to be reviewed by the Special Cases Committee. The written submission should provide reasons for the appeal and a rationale in support of the appeal.

Individuals making an appeal to the Special Cases Committee must advise the principal of the school and the superintendent of the school authority where the student received instruction.

Upon receiving notice of an appeal to the Special Cases Committee, the principal of the school must submit a written report to the Special Cases Committee outlining recommendations related to the appeal.

Students shall be informed of their right of appeal to the Special Cases Committee.

For more information on the Special Cases Committee, contact the Executive Secretary, Special Cases Committee, Learner Assessment.

RESOURCES AND SERVICES:

Learning Resources

Introduction

Learning and Teaching Resources
Policy 3.2.2

In terms of provincial policy, Learning and Teaching Resources Policy 3.2.2, learning resources are those print, nonprint and digital materials used by teachers or students to facilitate teaching and learning. Many learning resources, publisher developed, Alberta Education developed and Alberta teacher published, are available for use in implementing school programs. Decisions about the selection and use of resources are a local matter and should take into account student skill levels, interests, motivations and stages of development.

Alberta Education authorizes learning resources in three categories:

- student basic resources
- student support resources
- teaching resources.

Authorization indicates that the resources meet Alberta Education's evaluation criteria (e.g., curriculum congruency, instructional design, Respecting Diversity and Promoting Respect (RDPR), preference for Canadian content); however, the authorization of these resources does not require their use in program delivery.

A database of all authorized learning resources is available on the Alberta Education Web site. Most authorized learning resources are available for purchase from the Learning Resources Centre (LRC) of Alberta Education.

Accessibility, availability, pricing and ordering information for all authorized learning resources is available from the LRC, as listed in the *Learning Resources Centre Resources Catalogue*.

Learning Resources Credit Allocation

The Learning Resources Credit Allocation (LRCA) is applicable to all products purchased from the LRC. The credit allocation is available, up to a specified dollar limit, through the LRC to eligible or approved Alberta school authorities for the purchase of any learning resource carried by the LRC. Further information for the present allocation is provided at the LRC Web site, in the LRC School Information Package and by calling the LRC.

Student Basic Resources

Student basic resources are high quality learning resources intended for students in Kindergarten to Grade 12. These resources best meet the evaluation criteria and address the majority of general and specific outcomes of a course(s), substantial components of a course(s) or general outcomes across two or more grades, subject areas or programs, as outlined in the provincial programs of study. Student basic resources may include any resource format, such as print, computer software, audio, video, digital or manipulatives.

Student Support Resources

Student support resources are high quality learning resources intended for students in Kindergarten to Grade 12. These resources best meet the evaluation criteria and address some of the general or specific outcomes of a course(s) or components of a course(s), or address the general or specific outcomes across two or more grades, subject areas or programs, as outlined in the provincial programs of study. Student support resources may include any resource format, such as print, computer software, audio, video, digital or manipulatives.

Learning Resources for Students with Visual Impairments

The Learning Resources for the Visually Impaired, through LRC's Materials Resource Unit (MRU), provides alternative formats for curriculum materials, such as braille, large print and audiotape/CDs, as well as equipment and kits for visually impaired students in Alberta. Materials available for students who are visually impaired can be useful for students with perceptual disabilities.

The MRU currently loans to school authorities the following:

- braille, audiotape/CD and large print curriculum and leisure reading resources
- kits including sensory, concept and skills development materials, tactile games and maps
- professional resources for the use of educators of the visually impaired
- specialized equipment including brailers, braille notetakers, 4-track cassette recorders, talking calculators, closed circuit televisions, large print calculators, large print typewriters and electronic dictionaries.

For more information, contact the MRU at the Learning Resources Centre.

**Locally Developed/
Acquired Student
Learning Resources**
*School Act, Sections 39
60(2)(b)*

A school board may develop or acquire instructional materials for use in programs or in schools under section 60(2)(b) of the *School Act* subject to the provisions of section 39.

In developing/acquiring instructional materials, the school board should take into account such criteria as curriculum fit, the criteria for promoting respect and understanding, appropriateness for student developmental stages and the criteria for instructional design.

**Teacher Resources to
Support Curriculum
Implementation**

The provision for curriculum support is a responsibility shared by school authorities and Alberta Education. Materials and activities are designed to help teachers implement the course or program of studies. Resources to support teachers in curriculum implementation include print, multimedia and online resources such as guides to implementation and CD-ROMs.

Many teacher resources that support curriculum implementation are posted on the Alberta Education Web site; some are available for purchase from the Learning Resources Centre.

Information about resources to support teachers in curriculum implementation is available from the Learning and Teaching Resources Branch of Alberta Education.

For all French language program curriculum support resources, please contact the French Language Services Branch.

**Authorized
Teaching
Resources**

Authorized teaching resources are high quality resources intended for teachers. Alberta Education produces a number of teaching resources, such as guides to implementation, diagnostic programs and monographs.

In exceptional circumstances, a teaching resource may be given basic teaching status.

**Resource Materials from
Learner Assessment**

Learner Assessment provides a variety of materials to support teachers and students. For more information, see the *General Information Bulletin: Diploma Examinations Program* or the *General Information Bulletin: Achievement Testing Program*.

Learning Resources Centre Resources Catalogue

The *Learning Resources Centre Resources Catalogue*, on the LRC Web site, provides a comprehensive list of all student and teaching resources authorized by Alberta Education for use in Alberta schools. The LRC carries almost all resources authorized by Alberta Education and provides affordable access to resources in English, French and other International and Aboriginal languages. The LRC has online Web ordering services available for all customers 24 hours a day, seven days a week.

All resources available from the LRC are sold on a not-for-profit basis. In addition, LRC's ordering, pricing and business practices are available in its *Learning Resources Centre Resources Catalogue*, on the Web site or by calling LRC. As well, for each resource carried in stock, the LRC provides such product information as:

- grade and subject of intended use
- authorization status
- language of content
- title
- publisher
- edition
- author
- publication year
- ISBN
- LRC product order number
- LRC selling price.

The LRC carries the following categories of learning resources for school purchase:

- student basic learning resources, print and nonprint
- student support learning resources, print and nonprint
- authorized teaching resources
- distance education print and some nonprint course material
- English, French and other languages instructional materials
- Alberta Education legal and information/service publications, such as programs of study, guides to education and Western and Northern Canadian Protocol framework documents
- some preadministered Grade 12 diploma examinations
- some standardized test materials
- additional learning resources that do not go through review or evaluation by Alberta Education but may be listed by LRC for school purchase due to high demand and usage by schools.

Learning Resources from Distributed Learning Resources Branch

The Distributed Learning Resources Branch is responsible for the development and delivery of provincially authorized distributed learning resources for Grades 1–12. Print and digital courseware are designed for distance learning environments and can be used in a variety of settings (e.g., distance, home education, classroom, blended). The learning materials in distributed learning courses normally comprise student modules, assignment booklets, home instructor's guides, teacher guides and multimedia CDs. In addition, archived multimedia and PDF files of all distributed learning packages are made available to registered teachers in Alberta on the Tools4Teachers Web site at www.tools4teachers.ca.

LearnAlberta.ca

The LearnAlberta.ca Web site at www.learnalberta.ca offers engaging digital learning resources for students, parents and teachers in Alberta's Kindergarten to Grade 12 community. These multimedia learning resources can be accessed at school, at home or from any computer with an Internet connection.

Contacts

Alberta Education Branch Contacts

Alberta Education can be contacted in a number of ways.

Telephone

To be connected by telephone toll free from inside Alberta, dial 310-0000 and ask the operator for the desired number.	
Communications Branch	Telephone: 780-422-4495 Fax: 780-422-1263

The electronic address (URL) for Alberta Education on the Internet is www.education.gov.ab.ca.

Appendix 1

Provincially Authorized Senior High School Courses, Course Codes and Course Names

Courses within each category are listed in the sequential numerical order of the course codes. Prerequisite courses are indicated by their linear arrangement across the page, or by the line symbol  used to indicate a prerequisite that leads to more than one course. Course credits are shown in parentheses.

Prerequisite courses for Career and Technology Studies (CTS) are identified in the program of studies for each CTS strand.

Implementation years are noted in the table of contents of the *Program of Studies: Senior High Schools* and further documented in the footers of individual courses and programs of study.

Note: For courses and course codes approved after the printing of the *Guide*, check the online version of the *Guide to Education: ECS to Grade 12*. The newly approved courses and course codes will be shown with a colour-shaded background in the online version.

- ❶ Each course, at each level, may be offered for 3, 4, 5, 6, 7, 8, 9 or 10 credits. Beginning in the 1994–1995 school year, the maximum total that can be credited toward the 100-credit graduation requirement is 15 credits. The course challenge and waiver of prerequisite provisions do not apply to work experience courses.
- ❷ Each course, at each level, may be offered for 1, 2, 3, 4 or 5 credits. The course challenge and waiver of prerequisite provisions do not apply to special projects courses.
- ❸ There is significant content overlap between Field Crop Production courses and Irrigated Field Crop Production courses. Students can, therefore, earn credits in either:
- Land Preparation and Planting 33 **OR** Field and Crop Preparation 33
 - Harvesting Operations 33 **OR** Field Crop and Forage Harvesting 33.
- ★ The computer system accepts only 25 characters for a course name, including spaces, and that is how courses appear on the Student Profile statement on transcripts. These 1-credit courses are rolled up under strand names.

Appendix 2

Registered Apprenticeship Program (RAP) Course Codes and Course Names

The Registered Apprenticeship Program (RAP) is a program in which students spend part of their time in school and part in industry as registered apprentices in one of the designated trades. Students enrolled in RAP courses are counted as full-time high school students and as registered apprentices.

To enter the program, students must be in senior high school and meet the grade entrance requirement to the selected trade or pass the trade entrance examination. Students enrolling in RAP must be registered with both the Curriculum Branch and Apprenticeship and Industry Training. Complete details about apprenticeship can be found on the Web site at www.tradesecrets.org.

Registered Apprenticeship Program courses are classified as locally developed courses. School authorities intending to offer this program should refer to the following policy and service documents:

- Off-campus Education policy found in the *K–12 Learning System Policy, Regulations and Forms Manual*
- *Off-campus Education Guide for Administrators, Counsellors and Teachers, 2000*
- *Registered Apprenticeship Program: Information Manual, February 2003.*

Note: For courses and course codes approved after the printing of the *Guide*, check the online version of the *Guide to Education: ECS to Grade 12*. The newly approved courses and course codes will be shown with a colour-shaded background in the online version.

Appendix 3

Course Challenge

General Information

Français 30 Course Challenge Procedure

Exceptions

School authorities are required to act in accordance with Appendix 3.

Course challenge is a provision that allows senior high school students to challenge the outcomes of a course by participating in a formal assessment process, rather than taking the course.

Assessment process is the process of a student performing a number of tasks and showing samples of work that demonstrate the degree to which the student has achieved the expected standards for the outcomes of the course. The student's performance and the quality of his or her work are evaluated by a certificated teacher who has expertise in the subject/course in question.

Course refers to a course at any level in a course sequence. There are some exceptions. The course challenge does not apply to courses having no specifically defined content in the program of studies; e.g., Special Projects 10, 20 and 30 and Work Experience 15, 25 and 35.

Senior high school students with rights under section 23 of the *Charter* and currently attending a school other than one administered by a Francophone Regional authority may challenge Français 30 by first registering with the nearest Francophone Regional authority for the course. All other procedures as detailed in Appendix 3 of the *Guide* apply.

The following courses are also excluded from the challenge provision:

- French 13
- Mathematics Preparation 10
- all RAP courses
- CTS courses completed in grades 7, 8 and 9.

Course challenge is a provision that allows senior high school students who believe that they have acquired the knowledge, skills and attitudes as defined by the program of studies for a given course (and are ready to demonstrate that achievement) to participate in a summative assessment/evaluation process, be given a final course mark, and, if successful, credits in that course.

Course challenge in diploma examination courses applies only to the school-awarded mark component of the course, and therefore will NOT result in a final course mark or in credits until after the student successfully completes the diploma examination for that course.

Course sequence refers to a sequence of courses that together comprise a complete set of prerequisites; e.g., French Language Arts 10–20–30.

School authority includes a school board, a charter school or an accredited private school.

Summative evaluation means final evaluation of learning outcomes.

Procedures

The following procedures are mandated by Alberta Education.

The course challenge process shall be available to any senior high school student in Alberta who believes that he or she possesses the knowledge, skills and attitudes for a senior high school course as specified in the program of studies, and is ready to demonstrate that achievement through a formal, summative assessment. For diploma examination courses, this applies only to the school-awarded mark component.

Students

The student shall initiate the course challenge process and shall take the responsibility for providing evidence of readiness to challenge a course; e.g., a portfolio, other collection, documentation of work and/or experience, a recommendation from a junior high school teacher.

A student may not initiate a course challenge for a course in a lower level sequence if the student has already completed a course in a higher level sequence. For example, a student who has earned credits for Pure Mathematics 30 may not challenge Mathematics 24; however, a student who has been waived to a higher level course in a sequence may challenge the lower level course(s) in that sequence. For example, a student who is waived into Pure Mathematics 30 may challenge Pure Mathematics 20.

A student who successfully completes a course challenge of the school-awarded mark component of a diploma examination course must write the diploma examination to be eligible for a final course mark and credit in that course.

High School Principal

- Course challenges shall be administered by the senior high school according to its policy, only after the student is enrolled in the senior high school.

-
- A student's readiness for course challenge shall be determined through consultation that includes the senior high school principal, student, parent(s) and the course teacher(s). The consultation shall include discussion of the student's chance of successfully meeting the acceptable standard for the course and the student's apparent capacity to handle successfully the course at the next level.
 - The senior high school principal shall make the final decision about the student's readiness for the course challenge. The principal shall base this decision on the consultation with the student, parent(s) and the course teacher.
 - The senior high school principal shall ensure that assessment for course challenges includes strategies that will assess the breadth and scope of the learning expectations for the course as outlined in the program of studies, in a timely and practical manner.
 - The senior high school principal shall assign the administration and evaluation of assessment for a course challenge to a certificated teacher who has taught the course.

Marks, Credits, Reporting

- The senior high school principal shall report a student's achievement in a course challenge according to the directive under Reporting Student Achievement in Senior High School in the Student Assessment in Senior High School section.
- A student who successfully demonstrates through the course challenge process that he or she possesses the outcomes for the course to at least the acceptable standard, shall be awarded a final course mark and credits for the course challenged, except in diploma examination courses, which require the school-awarded mark to be blended with the diploma examination mark before a final course mark or credit is possible.
- Upon a student's successful completion of a course challenge, waived prerequisite credits and a "P" for pass for courses lower in the course sequence shall be reported by the principal. A course challenge is to be reported upon completion.

Funding

- A school shall not charge funded senior high school students or their families a fee for administering course challenges. Schools shall receive 20% of the full credit enrollment unit funding for a student who completes a course challenge and who does not choose to take the course in that semester.
- A student who challenges the course, either successfully or unsuccessfully, may subsequently choose to take the course.
- If a student chooses to take a course in the same semester in which he or she attempts a course challenge either successfully or unsuccessfully, the school shall submit only the course mark. That is, in such circumstances any mark achieved through the course challenge process is invalid, and the school will be funded for the full credit enrollment unit.
- A student shall attempt a particular course challenge only once. If the student is unsuccessful, but wants credit in the course or wishes to raise his or her mark, the student is required to take the course.

School Authorities

- Each school authority shall have a policy that governs the administration of course challenges in the senior high schools under the jurisdiction of that authority.
- Each school authority shall establish procedures to communicate to parents and students the availability of, and procedures for, course challenges.
- A school authority shall make arrangements to provide appropriate course challenge assessments for the full range of senior high school courses offered by the school authority, other than for those exceptions noted under General Information at the beginning of this appendix. Also see the Awarding Course Credits section.
- A school authority may choose to provide for requests to challenge courses not offered by the school authority by arranging with other school authorities for such challenges. A student who undertakes such a course challenge shall assume all expenses, other than those normally assumed by a school for assessment; e.g., personal transportation.

Appendix 4

Alberta High School Diploma Graduation Requirements Prior to 1994–1995

General High School Diploma Requirements	1987–1988 and prior	1988–1989	1989–1990 through 1993–1994

- ❶ Students in Francophone programs may present Français 30 as the Category A diploma requirement. For these students, the Category C requirement is English 10–20–30. French immersion students may apply French Language Arts 10–20–30 toward the Category C requirement.

Appendix 5

Certificate of Achievement

Knowledge and Employability courses may be used in lieu of the corresponding IOP courses to meet the requirements of the Certificate of Achievement.

To qualify for a Certificate of Achievement, Integrated Occupational Program students must earn a minimum of 80 credits.

Subject	Minimum Credits	Minimum Course(s)	Eligible Courses and Credits ^①
English Language Arts ^②	8/9	2/3	Eng Lang Arts 16(3) 26(3) 36(3) ^③ OR Eng Lang Arts 16(3) 26(3) and 20-2(5) OR Eng Lang Arts 16(3) and 20-2(5)
Social Studies	5/6	1/2	Social Studies 16(3) 26(3) OR Social Studies 13(5) OR Social Studies 16(3) 23(5)
Mathematics	3	1	Mathematics 16(3) OR Mathematics 14(5) OR Mathematics Preparation 10 (3, 5)
Science	3	1	Science 16(3) OR Science 14(5)
Physical Education	3	1	Physical Education 10(3, 4, 5)
Career and Life Management	3	1	CALM (3)
Core Courses	25/27^④		
Courses selected from the Occupational Clusters ^{⑤ ⑥}	40	2	Occupational courses 16 level – recommended minimum of 10 credits
• Agribusiness • Business and Office Operations • Construction and Fabrication		2	26 level – recommended minimum of 20 credits
• Creative Arts • Natural Resources • Personal and Public Services • Tourism and Hospitality • Transportation		1	36 level – required minimum of 10 credits
	65/67 Specified Credits ^④		13/15 Unspecified Credits ^④

① Credits are indicated in parentheses.

② To be considered for a Certificate of Achievement, a student must complete successfully the English Language Arts requirements.

③ Francophone students in IOP are encouraged to take Français 16(3), Français 26(3) and Français 36(3), in addition to the English Language Arts courses indicated above.

④ Minimum credits may vary depending upon the Eligible Courses and Credits options chosen.

⑤ One 36-level course (10 credits) from any occupational cluster or one 35-level locally developed IOP course (10 credits) is acceptable for students transferring from the Integrated Occupational Program to the Alberta High School Diploma program to meet the 10-credit requirements.

⑥ Students may meet the 40-credit occupational course requirement by completing:

- IOP occupational courses from among the clusters listed above, AND/OR
- 40 credits in CTS courses including 10 credits in advanced-level courses, AND/OR
- 40 credits in RAP including two 35-level RAP courses, AND/OR
- 40 credits in any combination of any level IOP occupational courses, RAP courses and two 30-level Green Certificate courses in any specialization, AND/OR
- any 40-credit combination of IOP occupational courses, CTS courses, RAP courses or Green Certificate courses that include a minimum of 10 credits in 35-level RAP courses, or 36-level occupational courses, or ten advanced-level CTS courses.
