New Alberta Education Business Plan Goals and Outcomes

Alberta Education's Business Plan 2012-2015 has three goals and expected outcomes for each goal. School authorities will need to develop their Three-Year Education Plans to reflect these goals and outcomes.

Requirements for School Board AERR Summaries [NEW]

In addition to producing the November 2012 Annual Education Results Reports, jurisdictions are required to produce a summary of their AERR that provides parents and community members with easy to understand information about their jurisdiction's progress. The intent of this document is to improve transparency and accountability to local stakeholders.

The specific requirements are outlined in Annual Education Results Report section of this document.

An example using provincial information is available online at:

<http://www.education.alberta.ca/admin/resources/planning/reporting2012.aspx>

Background

Structure and Purpose of Alberta's K – 12 Education System

The basic education of Alberta's children is the responsibility of the provincial government and is governed by the *School Act*. Per provisions of the *School Act*, education is delivered by a system of schools operated by school boards and Francophone, charter school and accredited private school authorities for the benefit of students. The highest priority of the K – 12 education system is the success of every child in school. Each type of school authority assures the quality of education for its students and the Ministry of Education assures the quality of education provided by school authorities. The Ministry uses school authority Accountability Pillar information to assess and provide assurance to the public and the Legislative Assembly on the quality of education in Alberta's school system.

Accountability and Transparency in Alberta's K – 12 Education System

Accountability arises from a delegation of responsibility from one party to another, in the case of Alberta's K – 12 Education system, from the provincial government to school authorities. Some discretion in how these delegated responsibilities are exercised is associated with the delegation to an accountable organization. This delegation of responsibilities also comes with an obligation to answer for and publicly report on the discharge of responsibilities, spending of public funds and results achieved by the accountable organization. This facilitates the transparency of the accountable organization. Consequences are applied to accountable organizations based on performance.

In Alberta's K – 12 education system, school authorities (school boards, Francophone education authorities, charter schools and accredited private school authorities) are considered accountable organizations. The Ministry of Education allocates funds to school authorities to fulfill their delegated responsibilities to provide education programs for Alberta's K – 12 students, which creates an accountability relationship between the Ministry and school authorities. This accountability relationship is established in legislation and regulation, as summarized below.

Note: This document applies to school boards and Francophone education authorities. Separate planning and reporting documents for charter schools and accredited-funded private schools are available online at:

<http://www.education.alberta.ca/admin/resources/planning/reporting2012.aspx>

Legislative Authority

Section 16(2) of the *Government Accountability Act* requires accountable organizations under the jurisdiction of government ministries, including school boards, to prepare business plans and annual reports for each fiscal year “in the form and at a time acceptable to the Minister.” Section 78 of the *School Act* requires school boards to develop an accountability system on any matter the Minister prescribes; to use accountability information and to report it to students, parents and electors in the manner the Minister prescribes. Section 7 of the *Education Grants Regulation* under the *Government Organization Act* requires recipients of grants from the Ministry of Education to provide the Minister, upon request, any information the Minister considers necessary for the purpose of determining whether or not the recipient has complied or is complying with the conditions of the grant. Section 13 of the *School Councils Regulation* under the *School Act* requires school boards to provide school councils in their jurisdiction with the opportunity to be involved in the development of the school’s education plan and annual results report, and requires boards to provide the school’s results and reasonable interpretation of provincial tests and other provincial measures to the school council. The full text of these sections of legislation and regulations is provided in Appendix A.

Pursuant to the *Government Organization Act* and the *School Act*, and to operationalize the accountability relationships and processes established in provincial legislation, the *Policy and Requirements for School Board Planning and Results Reporting* contains the Minister’s requirements for School Board three-year education plans and annual education results reports. The *Policy and Requirements for School Board Planning and Results Reporting* also contains the School Authority Accountability Policy.

The Minister’s requirements in the *Policy and Requirements for School Board Planning and Results Reporting* ensure that school board plans and annual education results reports are aligned with the Ministry of Education’s vision, mission, goals, outcomes and performance measures for the basic education system. In this way, the Ministry, school board and school documents help ensure that the K –12 education system is focused effectively and efficiently on meeting the educational needs of Alberta students.

At the same time, school board and school plans incorporate local strategies and may incorporate local goals, priorities, outcomes and measures that reflect the unique characteristics and circumstances of their communities. Similarly, school board and school results reports include information on local activities and results on provincial and local measures. As such, school board and school plans and annual education results reports reflect local needs and priorities within the context of provincial direction and framework.

School Authority Accountability Policy

School authorities are accountable for results achieved from carrying out their responsibilities to provide education programs to Alberta students. As accountable organizations, school authorities are required to:

- Establish a system of accountability for results that encompasses their schools.
- Interpret and report results to parents, students, the Ministry of Education and the public in a manner and at a time the Minister prescribes as part of ensuring transparency.
- Use results to improve the quality and effectiveness of education programs provided to their students and to improve student learning and achievement.

Accountability Framework for the K – 12 Education System

The Accountability Framework for the K – 12 education system is a formal structure established by the Ministry to support accountability and transparency throughout the system and to ensure alignment of school authorities and schools with provincial direction. This helps ensure the highest priority of the education system is the success of the student.

The Accountability Framework consists of:

- Three-Year Education Plans (3YEPs), which contain:
 - Measureable goals and outcomes;
 - Performance measures to provide information on achievement of outcomes;
 - Targets to improve low or declining performance levels;
 - Strategies to achieve outcomes and improve results; and
 - Implementation of strategies and programs, adjusting if necessary.
- Annual Education Results Reports (AERRs) that publicly report results, assess achievement and indicate whether improvement has taken place; and
- Answering to the Ministry for performance results over time.

Reviewing Education Plans and Annual Education Results Reports

Alberta Education staff review 3YEPs and AERRs to:

- Enhance the department's understanding of the jurisdiction's local context and priorities;
- Encourage jurisdiction improvement efforts;
- Ensure consistency between the plan and the report;
- Monitor compliance with provincial requirements; and
- Identify implications for provincial planning.

Information on Accountability Pillar

Information on planning and reporting and explanatory information on the Accountability Pillar is available separately on the Ministry website:

Three-Year Education Plan (3YEP), 2012/2013 – 2014/2015

Components and Requirements for School Board Education Plans

School board education plans must maintain a three-year time frame. School boards are required to consider their latest Accountability Pillar results when they review, adjust and roll the 3YEP forward each year.

Components of 3YEPs are in bold below and defined in Appendix B. An optional format, pre-populated with the required Accountability Pillar performance measures, will be provided to jurisdictions with the May 2012 Accountability Pillar reports to use in updating its 3YEP.

Optional **Message from Board Chair**

Required An **Accountability Statement**, signed by the board chair (see Appendix C for the wording to the Accountability Statements for 3YEPs, AERRs and the Accountability Statement to be used if the jurisdiction combines its 3YEP and AERR into one document).

Optional The **Accountability Pillar Overall Summary** in colour, as provided by Alberta Education on the Extranet.

Optional **Foundation Statements** – vision, mission, principles and beliefs.

Optional **A Profile of the Jurisdiction**

Optional **Trends and Issues**

Required **Provincial Goals, Related Outcomes, Performance Measures, Targets and Strategies.** For each outcome, include:

- Targets for each year of the plan for measures with an overall evaluation of “Issue” or “Concern”.
- At least one strategy to address the outcome.
 - Jurisdictions with an overall evaluation of “Issue” or “Concern” based on the evaluation of Accountability Pillar results are required to clearly identify their strategies for improving results for those measures.
 - Specifically for Goal 3, jurisdictions with no or very few self-identified First Nations, Métis and Inuit (FNMI) students must refer to strategies in other goals related to infusing Aboriginal perspectives, meeting the diverse needs of students or involving their parents.
 - Including strategies for students with special needs satisfies the planning component of 14.a of the *Standards for Special Education* (amended June 2004)
http://www.education.gov.ab.ca/k_12/specialneeds.

Optional Jurisdictions may include additional results or contextual information to help explain strategies and targets to parents and the public.

Required Budget Summary. This section presents summary information about the board’s budget for the 3YEP. The budget summary **must** include:

- Charts/tables that summarize budget information consistent with the board’s Fall Budget Update.
- A web link to the jurisdiction’s budget for 2012/2013.
- Key financial information about the upcoming school year. This section may refer to budgeted changes in enrolment, certificated and non-certificated staff, programs, funding, revenues and expenses, annual surpluses or deficits and accumulated surpluses.

Required Summary of Facility and Capital Plans. Include a web link to information on the jurisdiction’s facility and capital plans.

Required Parental Involvement Strategies. Indicate what the board has done to meet its obligations under Section 13 of the *School Councils Regulation* (Alberta Regulation 113/2007) to provide opportunity for school councils to be involved in updating school plans.

Requirements for School Education Plans

Each school within the school jurisdiction must maintain an education plan that reflects and aligns with the board's 3YEP. As part of its accountability system, each board outlines its own requirements for the process, content and format for school education plans. Note that Section 13 of the *School Councils Regulation* requires boards to give school councils the opportunity to provide advice on the development of school education plans.

An optional pre-populated template for the school, based on the jurisdiction 3YEP template, will be provided with the May 2012 Accountability Pillar reports. Schools may find this template useful as a starting point for preparing education plans.

Alberta Education does not routinely collect or review individual school plans. It is the responsibility of each school jurisdiction, as part of its accountability system, to ensure the following:

- Each school updates its education plan annually;
- Each school must involve the school council in updating the plan; and
- Each school must post its plan on the school's or the jurisdiction's website.

Indicate how the board met its obligations under the *School Councils Regulation* (updated 2007) to provide school councils the opportunity to be involved in school AERRs and to share school results and interpretation of Accountability Pillar measures with school councils.

Required Timelines and Communication.

School jurisdictions must post their board approved AERR for 2011/2012 on the jurisdiction website in a publicly accessible format by **November 30, 2012 and notify the Zone Director** by e-mail of the posting.

Requirements for School Board AERR Summaries [NEW]

In addition to producing the November 2012 AERR, jurisdictions are required to produce a summary of their AERR that provides parents and community members with easy to understand information about their jurisdiction's progress. The intent of this document is to improve transparency and accountability to local stakeholders. The AERR Summary should not be more than two pages in length and include the following components:

- A brief summary of the jurisdiction's priorities and accomplishments relevant to parents and the community. This should include the provincial priorities related to Inclusion and FNMI Success.
- A brief description of parental and community engagement efforts, how input is collected and how it informed decision-making or identified local priorities.
- Key highlights and challenges based on the jurisdiction's results on the required performance measures.
- Other statistical, financial or performance information relevant to parents and the community.
- A web link to the full AERR document for the jurisdiction.
- A web link to detailed financial information (as per the Summary of Financial Results component in the full AERR requirements).
- A web link to detailed performance measure results (as per the performance measure results component of the full AERR requirements).

The timelines and communication for the AERR Summary are the same as for the AERR:

- School jurisdictions must post their full AERR and the AERR Summary for 2011/2012 on the jurisdiction website by **November 30, 2012 and notify the Zone Director** of the posting by e-mail. The e-mail notice must include the permalink to the document.

An example using provincial information is available online at:

<http://www.education.alberta.ca/admin/resources/planning/reporting2012.aspx>

Requirements for School Results Reports

Schools must prepare a report of the school's results for 2011/2012. Each jurisdiction establishes requirements for the content, process and format for school annual reports as part of its accountability system. Note that Section 13 of the *School Councils Regulation* requires boards to give school councils the opportunity to provide advice on the development of school annual results reports.

Optional pre-populated templates for school annual results reports, and for combined plans/reports, will be provided with the Accountability Pillar reports in October 2012.

Alberta Education does not routinely collect or review the annual results reports prepared by individual schools. It is the responsibility of school jurisdictions to ensure through their accountability system that:

- Each school prepares its education report annually;
- Each school involves the school council in preparing the report; and
- Each school posts its report on the school's or the jurisdiction's website.

Appendix B – Glossary of Planning and Accountability Terms

Accountability: An obligation to answer or account for assigned (delegated) responsibilities, e.g., for use of funds, results achieved and for taking action to make continuous improvement and achieve desired results. Accountability arises when one party delegates responsibility to another party. Some discretion on how responsibilities are carried out is associated with the delegation of responsibility to accountable organizations. In the public sector, accountability involves transparent public reporting of results as well as reporting to the organization, such as a government ministry, that delegated responsibilities and provided funding to an accountable organization. Consequences for performance are conferred by the delegating party.

Accountability Framework: A well-designed structure to ensure accountability within organizations and between governing bodies and delegated organizations (accountable parties). An accountability framework consists of measurable goals, performance measures that provide information on progress toward and achievement of outcomes, targets that indicate a desired level of performance, strategies that are implemented and adjusted as necessary to improve results over time, evaluation of results achieved, including whether improvement has taken place, public performance reports and consequences for the performance of accountable organizations.

Continuous Improvement: Using performance results to adjust strategies and practices so that improvement in performance is achieved over time.

Goals: Broad statements that look towards the long term and steer organizations in the direction of realizing their vision. Goals are typically expressed as desired conditions or aims.

Issues: Conditions that may affect the organization's ability to fulfill its mandate or achieve its goals.

Mission Statement: A clear, concise description of an organization's overall purpose and role. It gives direction to the programs and services that the school authority provides for its students.

Outcomes: Measurable statements of what an organization seeks to achieve. In broad terms, they answer the question, “What will this look like when we get to where we want to be?”

Performance Measures: Performance measures provide information on important, quantifiable aspects of the education system. They enable school authorities to assess progress toward achieving goals and outcomes.

Principles and Beliefs: Principles and beliefs guide decision-making and provide a foundation for developing mission, vision and goals.

Profile: A profile is a brief description of the school authority that gives context for the plan. Profiles include such information as characteristics of communities, students, programs, size and location.

Strategies: Strategies are actions that school authorities take to achieve goals and desired outcomes that meet the needs of all their students. They address local circumstances, issues, trends and opportunities.

Targets: Targets show desired levels of performance to be attained by a certain time. Targets are expressed quantitatively.

Trend: A trend shows a direction of data over time, e.g., enrolment growth.

Vision: A vision describes a possible and desired future state for the organization, grounded in reality, which inspires and guides decisions and actions.

Terms Related to the Accountability Pillar Evaluation *(in logical, rather than alphabetical order)*

Accountability Pillar: The Accountability Pillar is one of the three pillars of the Renewed Funding Framework and enhances school authority accountability for results in return for greater flexibility in the allocation of resources. The Accountability Pillar places increased emphasis on the achievement of specific outcomes by evaluating and reporting results on a common set of measures and, where results are low or declining, taking action to improve student programs and results in subsequent years.

The focus of the Accountability Pillar is on improving school authority results and attaining high levels of achievement.

Accountability Pillar Performance Measures: The Accountability Pillar performance measures are a required, consistent set of measures, each of which is calculated on a comparable basis for all jurisdictions. School authorities are required to include this common set of performance measures and evaluations in their plans and report the results and updated evaluations for these measures in their AERRs. The measures draw from various kinds of data, including:

- Results of provincial testing programs;
- Student outcomes, such as dropout and high school completion rates, calculated from administrative data; and
- Student, parent and teacher perceptions from surveys.

Category: Accountability Pillar measures are grouped into seven categories that represent key aspects of education that are important to parents and the public:

- Safe and caring schools,
- Student learning opportunities,
- Student learning achievement (Grades K to 9),
- Student learning achievement (Grades 10 to 12),
- Preparation for lifelong learning, employment and citizenship,
- Parental involvement, and
- Continuous improvement.

Evaluation Methodology: The evaluation methodology assesses each measure in the Accountability Pillar in terms of achievement and improvement, then combines the achievement and improvement evaluations to calculate overall evaluations for measures and categories.

Achievement Evaluation: The achievement evaluation is based on comparing the current jurisdiction result against a set of provincial standards that are expected to be fixed for 7 – 10 years. The achievement evaluation results in one of the following five achievement levels: Very High, High, Intermediate, Low and Very Low.

Standard: A standard is an established, quantifiable level of performance that is commonly understood and agreed upon, and is the basis for judging actual performance. The standards for each Accountability Pillar measure are calculated from baseline data (based on the distribution of results for all school boards at a fixed point in time).

The 5th, 25th, 75th and 95th percentiles of the distribution of the baseline results are used to establish the five achievement evaluation levels (listed above under “Achievement Evaluation”).

Baseline: Baseline data constitute a starting point for comparisons of results against standards. Baseline data for each Accountability Pillar measure are established by averaging each school board’s results across the three years to create a three-year average. The three years that form the baseline for calculating standards differ among measure types, depending on data availability:

- For student achievement measures (i.e., Provincial Achievement Tests and Diploma Examinations), the baseline three-year average uses data from school years 2001/2002, 2002/2003, and 2003/2004.
- For the student outcome measures (dropout, Diploma Examination participation, high school completion and post-secondary transition rates), the baseline three-year average uses data from the 2000/2001, 2001/2002 and 2002/2003 school years, except for the Rutherford Scholarship eligibility rates, which, starting with the 2007/08 results provided in May 2009, uses data from 2004/2005, 2005/2006 and 2006/2007 for the baseline three-year average.
- For survey measures, the baseline three-year average uses results from 2003/2004, 2004/2005 and 2005/2006.

Improvement Evaluation: The improvement evaluation focuses on improvement over time. Improvement is evaluated by comparing the jurisdiction’s current result against the authority’s previous three-year average using chi-square. (Chi square is a statistical test to determine the probability that there is no significant difference between an observed outcome and the expected outcome. In the case of the Accountability Pillar improvement evaluation, the chi square test is used to determine the probability that there is no significant difference between a jurisdiction’s current result on a measure and its prior three-year average for that measure.) The improvement evaluation results in one of the following five improvement levels: Improved Significantly, Improved, Maintained, Declined and Declined Significantly.

Overall Measure Evaluation: Once the improvement and achievement levels have been calculated for a measure, an overall measure evaluation is calculated, which reflects both the achievement evaluation and the improvement evaluation. The overall measure evaluation is reported on a five point scale: Excellent, Good, Acceptable, Issue and Concern.

Category Evaluation: For each category of Accountability Pillar measures, the overall evaluations for each measure within that group are averaged to provide an evaluation for that category. The averaging is done by assigning the following numbers to the overall evaluation for each measure: Excellent: 2; Good: 1; Acceptable: 0; Issue: -1, and Concern: -2. These values are averaged and rounded to the nearest whole number. This result is then compared with the above list of assigned numerical values for each of the five evaluation ratings to determine the evaluation for the category.

Improvement/Decline: Improvement or decline for an Accountability Pillar measure is determined by comparing the current result against the previous three-year average using the chi-square test of statistical significance. Using the chi-square test:

- An **improvement or decline** occurs when the current result is at least one standard deviation above or below the previous three-year average, but less than two standard deviations.
- A **significant improvement or decline** (at the 5% level of confidence, or 19 times out of 20) occurs when the current result is approximately two or more standard deviations above or below the previous three-year average.

Target: Targets related to achievement standards are set for each year of the plan when the evaluation of results for a measure is “Issue” or “Concern”. These targets for Accountability Pillar measures:

- Have a higher numerical value each year than the current result (except for dropout rates, where a lower result shows improvement).
- Show reasonable progress toward or move into the next higher achievement standard over the three years.

Making gains over time toward the next achievement level or attaining it will be reflected in the improvement evaluation as well. At minimum the improvement evaluation would be “Maintained,” and could be “Improved” or “Improved Significantly.”
