## Population

### *Migration drives population growth*

Robust migration to Alberta held population growth at 3.5% year-over-year (y/y) for the second straight quarter. The growth was the highest among the provinces and well above the Canadian increase of 1.2%. The province welcomed 10,269 net new interprovincial and 16,436 net international migrants in the third quarter. For more information please see Treasury Board and Finance's Quarterly Population Report.

## Rental Market

Rents move higher; vacancy lower. Rental rates across the province edged higher in October 2013, as vacancy rates across the province dipped from 2.0% to 1.6% over the same time last year. The vacancy rate in Calgary dipped below 1.0%, pushing average two-bedroom rent up 7.2% y/y to \$1,224. Average two-bedroom rents in Edmonton were up 5.6% y/y to \$1,141. Monthly rents in Grande Prairie posted the largest increase in the province, up 11.9% y/y to \$1,124.

## Resale Home Market

### *Calgary market leads the way*

The resale market through November has been strong in Calgary. Prices rose 7.5% y/y in the province's largest city, pulling the provincial average resale home price up by 5%. Edmonton price growth remains subdued, up 2.4% over the same time last year. The market remains firmly in sellers' territory, with a sales-to-new-listings ratio over 0.70 in the major

markets of Edmonton and Calgary, and 0.67 for the province as a whole.

## Manufacturing Shipments

### *Machinery rebound continues*

Shipments jumped 6.8% y/y in October with strong growth from machinery (12.1%), food (18.3%), and chemical manufacturing (9.9%). Machinery shipments have experienced exceptional growth over the last three months after several months of declines. Year-to-date, manufacturing shipments are up 1.3%.

## Consumer Price Index

### *Inflation rate edges higher*

For the first time in four months year-over-year growth in consumer prices edged higher, touching

1.7% in November, up from 1.0% in October. The uptick was led by higher shelter costs, with owned accommodation costs rising 2.4% y/y, up from 2.1% in October. Nationally the inflation rate edged up to 0.9%, up slightly from October, largely due to higher shelter costs.

## Retail Sales

### *Strong growth leading into holiday shopping season*

Retail sales climbed slightly in October to \$6.22 billion from \$6.20 billion in September. On a year-over-year basis, sales growth remained strong at 6.6%, an acceleration from the 6.4% gain in October. Nationally retail sales dropped slightly from October, but were up 3.0% over the same time last year.
