PREFACE

Budget 2008 consists of: (i) the *Fiscal Plan*, (ii) the *Government Strategic Business Plan*, (iii) *Ministry Business Plans*, (iv) the *2008-09 Offices of the Legislative Assembly Estimates* and (v) this document, the **2008-09 Government Estimates**.

A typical **Department Program Structure** is depicted on page 6, showing programs, sub-programs and elements identifying principal services, programs and cost centres.

For budget purposes, a typical **Ministry Entity Structure** is shown on page 7, showing its department and any regulated funds, provincial agencies, commercial enterprises and Crown-controlled corporations. It does not show Crown-controlled SUCH sector organizations comprising school boards, universities, colleges, technical institutes and health authorities.

The **Schedule of Amounts to be Voted** is excerpted from the *Appropriation Act, 2008*. The Legislative Assembly will be asked to appropriate funding from the General Revenue Fund and the Lottery Fund, and thus provide spending authority to departments.

Definitions of Votes

Expense and Equipment / Inventory Purchases Vote. Expense consists of program expense and debt servicing costs. Program Expense consists of salaries, supplies and services, grants, financial transactions and amortization of capital assets, which includes consumption of inventories.

Equipment / Inventory Purchases consist of consumable inventories and movable capital assets, which are routinely moved or which may be installed as a service level improvement to existing facilities, and which cost more than \$5,000, as follows:

- (i) assets such as mobile accommodation, elevators, equipment; tools; movable safety, recreation and rehabilitation equipment; attractive assets; appliances; display cases; furnishings; furniture; office equipment; shelving; and storage containers,
- (ii) consumable inventories (only for the departments of Health and Wellness, Infrastructure, Sustainable Resource Development, Transportation and Treasury Board),
- (iii) projects and equipment costing less than \$5,000,000 over one or more years, such as scientific, medical, laboratory, information technology, communication and security systems and facilities, and
- (iv) vehicles.

Capital Investment Vote. Capital Investment consists of immovable capital assets, construction equipment, equipment installed upon construction or replacement, renovations to immovable capital assets which extend their life or enhance their functionality, and major scientific or information technology acquisitions, and which cost more than \$5,000, as follows:

- (i) land; buildings; highways; roads; bridges; transportation and storage facilities; permanent accommodation, communications towers and other fixed devices; dams; water, sewage and disposal facilities; irrigation facilities; oil, gas, and electricity transmission facilities; lighting and traffic facilities; elevators; ecological reserves, parks and sports facilities; heating, ventilation and air conditioning systems; laboratories; and construction projects.
- (ii) equipment used in the construction of immovable capital assets, such as cranes, earth-moving equipment, tractors and conveyors.
- (iii) projects and equipment costing more than \$5,000,000 over one or more years, such as major scientific, medical, laboratory, information technology, communication and security systems and facilities.

Non-Budgetary Disbursements Vote. Non-Budgetary Disbursements include cash payments for the reduction of a liability, expenses to be recognized in a future year, or the acquisition of a financial asset. Alternatively financed capital projects such as schools and ring roads are reported as statutory expense and capital investment respectively. Matching liabilities are also reported, which are reduced later by payment from a future non-budgetary disbursement vote.

Lottery Fund Payments Vote. Payments are transfers of lottery proceeds to departments to fund eligible initiatives.

PREFACE - *Continued*

Primary budget information for each department and ministry includes:

A credit or recovery of spending (expense, equipment / inventory purchases or capital investment) is shown when the costs of goods or services in variable demand are recovered from internal or external sources.

During the fiscal year, the Treasury Board may increase the voted appropriation if spending and recoveries are expected to exceed the amount budgeted, pursuant to section 24(2) of the *Financial Administration Act*.

If the budgeted recoveries are not realized, spending is to be reduced by an equivalent amount.

Comparable amounts are shown for the 2006-07 Actual, the 2007-08 Forecast, and the 2007-08 Budget.

These have been restated using the government organization and budgeting methodology in effect on April 1, 2008. Major organization and methodology changes are described on page 5.

The **Comparable 2006-07 Actual** is based on the government's *2006-07 Annual Report* published on June 21, 2007.

The **Comparable 2007-08 Budget** is based on the budget tabled on April 19, 2007.

The **Comparable 2007-08 Forecast** is a "preliminary actual" amount based on the *Third Quarter Fiscal Update* released on February 19, 2008, with updates for subsequent events and decisions.

Supplementary funding authorization in 2007-08 was provided by:

- carry-over of the 2006-07 capital investment appropriation, pursuant to section 28.1 of the *Financial Administration Act*,
- spending increases related to credits or recoveries, pursuant to section 24(2) of the *Financial Administration Act*,

Funding authorization was moved between departments in 2007-08 by:

- transfers for emerging capital purposes, pursuant to section 5(1)(a) of the *Appropriation Act, 2007*, and
- transfers for infrastructure planning purposes, pursuant to section 5(4)(a) of the *Appropriation Act, 2007*.

Lists of government entities by ministry, name and type are provided, starting on page 441. Schools, universities, colleges and hospitals (known as the SUCH sector) are excluded.

Highway Rehabilitation Spending is now classified as capital investment, instead of expense, to reflect the enhanced functionality and extended useful life of provincial highways. This policy is applied to budget information reported for the fiscal years following April 1, 2007.

Debt Servicing Costs of the Alberta School Foundation Fund are now eliminated upon consolidation by the Ministry of Education, instead of the Ministry of Finance and Enterprise.

* Subject to the *Fiscal Responsibility Act*. Expense includes cash payments towards unfunded pension liabilities, which will be eliminated under a separate, legislated plan. Expense excludes annual changes in unfunded pension obligations, which are a non-cash expense and which do not affect borrowing requirements. Pursuant to the agreement with the Alberta Teachers Association, government will assume responsibility for the teachers' share of the pre-1992 unfunded pension obligations, estimated at \$2.215 billion. This amount is reported in 2007-08, when responsibility for pre-1992 teachers' pensions was transferred to Finance and Enterprise. Annual increases in the Department's unfunded obligations for its pension plans (including the teachers' pre-1992 plan) are estimated to be:
