Pfizer (Comirnaty®)	<ul style="list-style-type: none"> Pfizer, Moderna, Novavax, or AstraZeneca/COVISHIELD 	2 doses with at least 19 days between doses	Consider fully immunized 14 days following completion of second dose
Moderna (SpikeVax®)		2 doses with at least 21 days between doses	
Novavax (Nuvaxovid®)		2 doses with at least 21 days between doses	
AstraZeneca (Vaxzevria®)/ COVISHIELD		2 doses with at least 28 days between doses	
Janssen	N/A	1 dose	
WHO Approved (Non- Health Canada approved but accepted by the Government of Canada and Alberta)			
Sinovac (Sinovac Life Science Co., Ltd.)	<ul style="list-style-type: none"> Sinovac, Sinopharm, Covaxin, Covovax, or Novavax, AstraZeneca/COVISHIELD, Pfizer, or Moderna 	2 doses with at least 14 days between doses	Consider fully immunized 14 days following completion of second dose;
Sinopharm (SinoPharm Beijing Institute of Biological Products)		2 doses with at least 21 days between doses	
Covaxin (Bharat Biotech, India)		2 doses with at least 28 days between doses	
Novavax		2 doses with at least 21 days between doses	
Covovax (Serum Institute of India under license from Novavax)		2 doses with at least 21 days between doses	

NOTES for WHO Approved Vaccines:

- Sinopharm, Sinovac, Covaxin, Novavax and Covovax, - see [Management of COVID-19 Vaccine Administration Errors and Deviations for validity of doses](#) administered to individuals 17 years of age and younger.
- For those who have received one dose of a WHO approved vaccine – see [Management of COVID-19 Vaccine Administration Errors and Deviations](#) for series completion.
- See biological pages for recommendations for additional/third/booster doses.

Booster/additional/third doses are not part of the proof of immunization under the Restrictions Exemption Program.

History of COVID-19 infection and/or positive serology does not constitute proof of immunity.

Proof of immunization from other provinces - [immunization_record_samples_canada \(alberta.ca\)](#)
