PREFACE

Information Presented in this Volume

The **2011-12 Offices of the Legislative Assembly Estimates** presents the budget plans for the Legislative Assembly and its Offices.

The **Schedule of Amounts to be Voted** shows the estimate amounts for the Legislative Assembly and each Office as presented in the *Appropriation Act, 2011*. The Legislative Assembly will be asked to appropriate these amounts from the General Revenue Fund to fund the spending of the Assembly and its Offices.

The **Expense and Capital Investment by Office** shows estimate and comparable historical amounts for total voted Expense and Capital Investment.

The **Amounts Not Required to be Voted by Office** shows estimate and comparable historical amounts for those amounts which require no appropriation authority because no cash disbursement is required to fund them.

Expense by Object for All Offices consists of the total salaries, supplies and services, grants, payments to Members of the Legislative Assembly and amortization of capital assets incurred by the Assembly and all of its Offices. As noted below, the amortization estimate is \$0 for the Support to the Legislative Assembly.

Full-Time Equivalent Employment is shown for the Legislative Assembly and each Office for 2011-12, as well as 2010-11.

Details of the Offices of the Legislative Assembly Estimates provide details on the estimates of the Assembly and each of its Offices. Each set of detailed estimates provides a statement of the **Amount to be Voted**, a description of **Objective and Services**, a statement of **Voted Expense and Capital Investment by Program**, a statement of **Amounts Not Required to be Voted**, a **Statement of Operations**, and a statement of **Change in Capital Assets**.

Basis of Presentation

As of April 1, 2011, estimates for both the Offices of the Legislative Assembly and the government have been redesigned to address unneeded duplication and help clarify the relationship between the estimates and the government's *Fiscal Plan*.

For the **2011-12 Offices of the Legislative Assembly Estimates**, there are two design changes of note:

1. Amortization has been removed from the supply votes and is now reported as a Non-Cash Amount.
2. The supply votes have been restructured to make clear the difference between amounts voted to fund expense and amounts voted to fund capital investment. For the Legislative Assembly and its Offices, the supply votes continue to be a single vote.

As in past years, within the **2011-12 Offices of the Legislative Assembly Estimates** there are two presentation policies of note. The government and the Offices of the Legislative Assembly treat acquisitions of durable assets worth \$5,000 or more as capital investment. However, Support to the Legislative Assembly has a capitalization threshold of \$2,500. Second, the budget for Support to the Legislative Assembly does not include amortization expense, where each of the Offices' budgets includes an amortization estimate in non-cash expense.
