

# STAGE 2: GUIDANCE FOR PUBLIC OUTDOOR GATHERINGS

## Overview

Chief Medical Officer of Health (CMOH) Order 25-2020 requires businesses and entities to:

- implement practices to minimize the risk of transmission of infection among attendees;
- provide procedures for rapid response if an attendee develops symptoms of illness;
- ensure that attendees maintain high levels of sanitation and personal hygiene;
- comply to the extent possible, with any applicable Alberta Health guidance found at: <https://www.alberta.ca/biz-connect.aspx>.

Where any part of this guidance is inconsistent or in conflict with enhanced or stronger public health restrictions set out in another CMOH Order, the enhanced or stronger public health measures would prevail. Operators are also required to follow the General Operational Guidance.

This document has been developed to support organizers and attendees of public outdoor gatherings in reducing the risk of transmission of COVID-19 among individuals (including organizers, attendees, staff, volunteers, and the general public). The guidance provided outlines public health and infection prevention and control requirements, specific to these settings and activities.

In all settings, it is important that measures are implemented to reduce the risk of transmission of COVID-19. This includes, but is not limited to ensuring: masking, physical distancing, barrier use (where appropriate), proper hand hygiene and respiratory etiquette.
