## Bulletin #155

### April updates to prosthetic and orthotic approved product lists

Alberta Aids to Daily Living (AADL) has made minor updates to the prosthetic and orthotic approved product lists to address key concerns raised by vendors. These updates were prepared in close collaboration with the Alberta Association of Orthotists and Prosthetists (AAOP).

A summary of the changes is below. AADL recommends that prosthetic and orthotic vendors carefully review the new approved product lists to prepare for when the updates take effect. The updated lists can be found on the [AADL orthotic and prosthetics benefits page on the Open Government web portal](#).

The updates will take effect April 28, 2023.

### What has changed
