## Bulletin #71

---

### Update to Mobility Benefits

Effective July 1, 2019 AADL is adding six new manual wheelchairs to the approved product list (APL).

The new wheelchairs are

- Ki Mobility Rogue
- Tilite Areo T
- Tilite Areo Z
- Motion Composites Apex
- Sunrise Medical 5R
- Panthera S3

These wheelchairs have been added to the Category C area of the APL and will provide choice for AADL clients that need a rigid wheelchair.

The Invacare Crossfire was discontinued by the manufacturer April 1, 2019 and have been removed from the APL.

Please work with your manufacturer representative to gain access to the specification sheets. The W-APL on-line version may not be updated July 1 but the wheelchairs are approved to order.
